Chicago, Feb. 20.—European approaches to virtual outlawing of foodstuff shipments for either Germany or Great Britain tended decidedly today to depress the wheat market here. Holders unloaded freely, and some stop-loss orders were uncovered on the resulting sharp decline. The fact that prices at Liverpool were firm seemed to have no influence on this side. Due attention, however, was given to advances in war rates of marine insurance. After opening 1½c to 2½c lower, the market here suffered a material further setback, interrupted by only a moderate temporary rally.

New York, Feb. 20—Wall Street—Prices were depressed to the lowest level of the current movement during today's short market session, declines ranging from 1 to above 2 points in leading issues. The selling was all in the first hour, however, with substantial recovery in the later dealings. Miscellaneous specialties also were affected by the early depression, with declines to new minimums. Conditions were further aggravated by renewed weakness in foreign exchange and the grain markets. The dosing was heavy. Bonds were lower on additional foreign offerings.
