# WALL STREET PRICES REACH HIGHER LEVELS

American Can Assumes the Leadership, Gains Nearly Three Points.

Special to The Advertiser.
Wall Street, New York, Aug. 21.— The comment in Wall street today was that more than at any time so far the market showed the predom-inance of forces making for higher prices. During the first hour profes-sionals sought to test out the position by concentrating selling of oil shares. The metive in this case was that more cuts were to be effected in crude oil, in order to meet the much lower prices of gasoline. The principal members of the American oil group

—Producers and Refiners, Phillips Petroleum, Cosden & Marland-were driven down a point or more, and this for a time had an unsettling effect in other directions. Baldwin Locomotive dipped below 120, where C

Then the turn came, and it came quickly. The larger commission houses have been constantly stating that there were ample buying orders underlying the prevailing price level. Not only were stocks readily taken

Republic, Gulf States, Sloss-Sheffield and Crucible all sold well above the highest since the recovery started. In attempting to explain why these stocks should have been relatively stronger than United States Steel, it has to be remembered that whereas the steel corporation came down in its operations from 94 per cent of capacity to 90 per cent, the independent companies dropped from 90 to 80 per insp. Copper .... companies dropped from 90 to 80 per The reason about supposition is that the independent, now that the steel industry has turned, will pick up faster in their output and earn-

Chandler Motors and Hudson did the best of their set. Buying of Hud-son was attracted by the high return offered, now that the stock is on a regular \$3 dividend basis. There was another remarkable jump in Wool-worth, while execution of a few small buying orders was sufficient to cause a sharp rise in Fisher Body. American Ice was another feature.

# THORNTON GIVES ORDER FOR BRIDGEBURG WORK

H. A. Stewart, Vancouver, To Build-Driveway For New Bridge to U. S.

Buffalo, N. Y., Aug. 21 .- Sir Henry Thornton, president of the Canadian National Railways, sent H. A. Stewart of Vancouver here today with authority from the Canadian National Railways to build a driveway and foot path on the proposed new \$3,-000,000 bridge between the U.S. and

Canada at Fort Erie, Ont. Mr. Stewart appeared last night be fore the Bridgeburg, Ont., town council, notifying the legislators that a company already had been organize by the Canadian National Railway to undertake the project. He exbeen vested in him by Sir Henry Thornton and that the company was

ready to start construction immedi ately.
The Bridgeburg town council unan imously adopted a resolution to have the electors vote on a guarantee of the bonds of the new company up to \$1,000,000 providing that the town has authority to take this step. The council promised to do all in its to assist in the enterprise. Mr. Stewart was in Bridgeburg several weeks ago for an unofficial visit and left for Montreal for a talk with Sir Henry and the government officials. He has recently built at \$5,000,000 government elevator at Vancouver, and he is said to have

TODAY'S OPENING PRICES.

Associated Press Despatch.
Chicago, Aug. 21.—Trading in wheat was light at the start today, with prices hovering near to yesterday's finish during the early dealings. Liverpool started at an advance, but a reaction soon carried values to about the previous close. There was some scattered commission house business on both sides of the market here, but indifferent cables had a tendency to check the demand. Country offerings were light. Cash interests sold September and bought December in a small way. Opening prices, which varied from %c higher to %c lower, were followed by a slight setback all around and then something of a rally.

Corn displayed some strength at the outset, which was followed by a break and then a rally. After starting at unchanged figures to %c advance, corn underwent a general decline and then something of a recovery.

Oats started %c to %c to %c un and held near the initial range.
