Rev. W. Lowe Declares Celebrations Not Intended As Insults to Catholics.

Rev. William Lowe, past grand chaplain, delivered a stirring address at the Derry Day service, under the auspices of the County Black Chapter, Middlesex Royal Black Knights of the Commonwealth of Ireland in All Saints' Anglican church yesterday afternoon, and in doing so, brought a twofold message that Orange celebrations are not intended as an insult testants and Roman Catholics today share common privileges which they never would have enjoyed had not the parliamentary party visiting. But we Orangemen have no desire to stir up strife or ill-feeling; we only desire to gratefully commemorate our de-liverance, to vindicate the faith of our fathers, and the faith delivered to the saints. To those who allege that there are no grounds for celebrations, we would say that these observances are not intended as an insult to the Roman Catholics, and that to make such an assertion is not only an insult to Orangemen, but a dangerous thing as well

Roman Catholics and Protestants alike enjoy freedom and privileges today that they never would have won had not William of Orange been the victor of hundreds of years ago." continued Mr. Lowe, "and those privileges include the Bill of Rights, the Habeas Corous Act, trial by jury, the Habeas Corpus Act, trial by jury, the St. John in the morning hours, but freedom of the press, and, most of all in the city all was stir at the 100 of worshipping God in the city all was stir at the 100 according to the dictates of one's booths.
