THURSDAY, JULY 9, 1896.

A REMARKABLE TRIAL.

bers of the City Council with respect to pay no attention to the law bearing on

ence of judicial proceedings, or who has the least regard for justice and fair play, must see the absurdity as well as the iniquity of putting an official on trial for an act which a little inquiry would show his persecutors is no offence at all. Moreover, Dr. Duncan produced professional testimony of the highest character, that of the Chairman of the Provincial Board of Health, and of an active and experienced member of the medical profession in this city, Dr. J. D. Helmcken, that in allowing the suspect to leave the isolation hospital the Health Officer was not guilty of even an act of imprudence. Yet the persecuting aldermen would not be satisfied with either the law or the testimony. His Worship the Mayor told them that Dr. Duncan had not acted contrary to the law, for as a matter of fact the health by-law gave the medical health officer discretion in the matter. And they were informed by Drs. Davie and J. D. Helmcken that "there was no risk of infection spreading as a result of Dr. Duncan's action." Yet in the face of all this they pushed their resolution demanding Dr. Duncan's resignation, to a

What makes the persecution of the medical health officer still more iniquitous and more absurd, his persecutors, as far as the public have heard, never even attempted to prove that there was a case of small-pox in the city. As a matter of fact, as we are credibly informed, there was not. What gave rise to the alarm and caused one person to be isolated was an aggravated case of chicken-pox. Here, then, is aldermanic justice according to the dicta of Messrs. Macmillan, Marchant, Cameron, Wilson and Humphrey-con-
