Campbellton, N. B. October 24th, 1918

Most up-to-date towns are always on the lookout for anything which will give employment to its citizens of some new industry which will bring new families in. We hope Campbellton is no exception to this rule.

Some months ago The McLennan Foundry & Machine Works Ltd. wrote the Town Council asking for certain concessions because of the fact that that Company were establishing a shipbuilding plant here. They did not ask for a cash bonus, free water, free electric current or anything of this nature, but only that the town exempt from taxes their entire plant for a period of fifteen years.

Outside the fact that this shipbuilding plant is a necessary work it should be fostered and encouraged in every way so that it will grow and prosper, and with it our town will grow.

The request of the McLennan Foundry & Machine Works, Ltd., for exemption is a very modest one and should be granted without a dissenting voice, yet for months their letter has been "laid on the table" and the Council has taken no action.

Had the project been in less energetic hands this lack of action on the part of the Council might have discouraged the going on with the work, but we are glad to say Campbellton to-day has this industry and we hope the Council will speedily do the right thing.

The McLennan Foundry & Machine Works, Ltd., is an industry of which this town should be justly proud and its founder and manager, Mr. Alexander McLennan has certainly proved himself a "live wire." Under his management we have in Campbellton what is considered one of the best of the small shell factories in the Dominion, and McLennan shells have earned a name for themselves. Mr. McLennan has made a success of the enterprise in the last eight years and now with the establishment of a shipbuilding plant the town can surely grant a little encouragement in the line of exemption as requested. Just at this time a little kindly interest, and encouragement would be only a just reward for past enterprise in which every citizen has shared.

#### GOOD ROADS.

Road Supervisors in very many parts of the Province who have taken great pains to make ditches and otherwise to follow out the drainage instructions for the benefits of the trunk and branch roads are complaining bitterly of the carelessness of very many of the residents in their districts who evidently think that a road ditch is only made to be obstructed, for instead of building small pole bridges across the ditches so as to get into their fields, they level up the road by throwing in the newly made stones or brush into the ditch. The Supervisors say that if they are asked to remove the obstruction, in many cases they either refuse to do so or else say that they will attend to it and never get round to it. The result is somewhat discouraging.

**THE PULMONARY TONIC**  
Recognized as the standard of medicinal preparations for diseases of the Throat, Bronchi and Lungs. It acts as an antiseptic to the respiratory organs and supplies to the whole system the energy necessary to conquer the disease.  
DR. ED. MORIN & CO., Limited  
Quebec, Canada.

**MORIN'S WINE**  
CRESO-  
PHATES

for the very heavy rains of the past month have caused an unusual flow of water in the road ditches and wherever this meets with such an obstruction as described above, the water invariably gullied out the new roadway and does, in some cases, hundreds of dollars worth of damage. There is a section of the Highway Act of 1918 which says that no person shall under the penalty not exceeding \$20.00 with costs of prosecution or imprisonment for thirty days—pile any wood, logs, lumber or stone or refuse within the limits of way of any highway and leave the same within the limits of the said right of way for a longer period than twenty-four hours.

"Any person who shall continue any encroachment or obstruction on any highway or ditch after a notice verbally or in writing by the Supervisor requiring him to discontinue or remove the same, shall be deemed to have encroached on or obstructed such highway or ditch within the meaning of this section."

The Highway Act further says that any person who by obstructing a highway, causes injury to the same, shall be liable to repair such injury under the instructions and to the satisfaction of the Supervisor, and in case he does not after being notified by the Supervisor, the same shall make such repairs and may recover the cost thereof together with costs of suit.

The Act therefore is very plain about obstructions in the ditches or roads but no doubt is generally understood to be so by those who disregard the public interests and upkeep of the roads by placing obstructions in the ditches. The Road Engineers and Supervisors all consider it of the utmost importance that particularly during the fall and spring residents should exercise the very greatest care in keeping the ditches clear and assist to perfect the drainage of the road system without which good roads are impossible.—Cor.

Germany wants a "peace of justice." The answer to any such appeal is given in burning words by Glenn Condor in the Rotarian. He says: "Germany has violated all the creeds of men. She has at defiance every law by which the people of the earth keep faith and friendship. She has set the world ablaze. If it were possible that the Hun could prevail, all that is best in the religion of humanity, all that is purest in the brotherhood of man, would be destroyed, and smouldering ruins, hiding the dead bodies of justice and right, would bestrew the world. We must finish this business! God speed the day."—Ex.

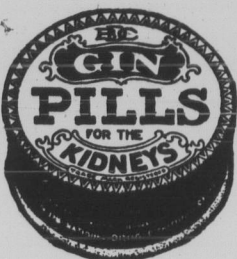

The people of Canada are asked to subscribe \$500,000,000 of Victory bonds. A good rate of interest is offered. It is a good and perfectly safe investment. The money must be raised or Canada default in her duty to the fighting men at the front. Moreover, if the money is not raised there will be harder times in Canada. But the money must be raised, and taxation pays no such dividends to the taxed as will be paid on Victory bonds. Every dollar that is free and can be spared should go into Victory bonds.

#### HE IS A CROOK.

When you hear a man running down his home paper on any other local industry, take a good look at him. Ten to one he will have an eye as restless as a horse thief; and he will hitch around in his chair as though he had a touch of St. Anthony's dance. Talk with him awhile and you will discover that he has made a failure of everything he has ever tried (except being disagreeable), and nine times out of ten he is dependent on the public for favors or support; you will find him of a meddlesome, peevish, jealous, hateful and unreliable nature; a man who is always complaining, and although he has but little, if anything of his own, one would imagine to hear him talk that he had quick claim deed to the earth and a first mortgage on heaven. He knows everybody's business and why shouldn't he? He has none of his own to take up his time. Such people, like mosquitoes, were not created in vain, perhaps, but one fact remains staple, they do not add materially to the pleasures of conducting legitimate business.

#### Competition.

"There once were two cats of Killenny"  
Who thought there was one cat too many,  
So they scratched and they bit  
And they fought and they spit  
Till instead of two cats there weren't any.

The Little Doctor always ready—always on hand to relieve kidney and bladder troubles, and help nature purify the blood.  
The National Drug & Chemical Co. of Canada, Limited, Toronto, Ont.

#### DALHOUSIE.

Dalhousie, Oct. 22.—With no public meetings to be held on account of sickness, no parades to be held in small towns, and considering the cost of material to build arches not counting the scarcity of labor, the shire-town committee have wisely decided with the approbation of His Honor Judge McLatchy, to offer prizes to all the Dalhousie merchants and others who would best decorate their windows with war and Victory Loan attractions. Already a number of attractive features are being considered by our merchants and their staffs, which will result in being a grand advertisement of Canada's last War Loan in so far as the town of Dalhousie is concerned.

Many souvenirs of the present war that have been brought home by returned soldiers, and others sent by those who are still fighting to preserve our homes will be exhibited in the store windows next week.

The following circular was sent to all our business men by the Dalhousie Victory Loan Committee. It speaks for itself.

#### THE VICTORY LOAN OF 1918

The Victory Loan Committee of Dalhousie with the approbation of His Honor Judge McLatchy, President for the County of Restigouche, with the view of practically advertising the VICTORY LOAN BONDS offer prizes to the merchants and others of the shiretown who will best decorate their windows with WAR and VICTORY LOAN attractions to assist in making a success of CANADA'S FIFTH WAR LOAN.

The Prizes to be as follows:—  
1st, \$8.00  
2nd, 6.00  
3rd, 4.00  
4th, 3.00  
5th, 2.00  
As the VICTORY LOAN DRIVE is to begin on Monday, October 28th, we respectfully suggest that all merchants and others entering this competition have their windows completed on Friday evening, Oct. 25th.

Signed,

D. McDONALD,  
C. H. LABILLOIS,  
THOS. G. SCOTT,  
S. BLANCHARD,  
Committee.

#### "THE LITTLE LESS."

You surely have not missed the little less wheat in your bread? Yet it has reduced our Canadian consumption by 200,000 barrels a month, or 12,000,000 bushels a year.

We sent 125,000,000 pounds more pork and 75,000,000 pounds more beef to the Allies last year. We saved that at the table too.

We hope to save 100,000 tons of sugar a year by spoonfuls.

All has been done just as "Little drops of water, little grains of sand, Make the mighty ocean. And the pleasant land."

Will you remember it is in your hands?

#### 10 CENT "CASCARETS" FOR LIVER AND BOWELS

Cure Sick Headache, Constipation, Biliousness, Sour Stomach, Bad Breath—Candy Cathartic.

No odds how bad your liver, stomach or bowels, how much your head aches, how miserable you are from constipation, indigestion, biliousness and sluggish bowels—you always get relief with Cascarets. They immediately cleanse and regulate the stomach, remove the sour, fermenting food and foul gases; take the excess bile from the liver and carry off the constipated waste matter and poison from the intestines and bowels. A 10-cent box from your drug-plate will keep your liver and bowels clean; stomach sweet and head clear for months. They work while you sleep.

#### YOUNG GIRL

##### KILLED AT BATHURST

Bathurst, N. B.—Oct. 21.—A most regrettable accident, by which the life of little Helen Miller, the six year old daughter of Mr. and Mrs. Percy Miller of East Bathurst, was suddenly terminated, occurred near the home of the little one's parents last week. The unfortunate child's brother, together with another lad, named Eddy, both boys hardly yet in their teens, had borrowed a gun from a neighboring boy not much older, and had been doing some shooting. At the time of the accident young Eddy had the gun and it is supposed was firing at some post or mark when the fatal charge was shot. The load of shot struck the little girl on the right side of the breast and tore a ghastly hole through her body at least an inch in diameter, death resulting instantly.

#### GENERAL LIPSETT

##### KILLED BY SNIPER

Was Commander of Third Canadian Division.

(By Leased Wire to The Transcript.)

London, Oct. 20.—(by the Canadian Associated Press).—Major General Louis Ames Lipsett, C. B., C. M. G. lately commanding the third Canadian division at the front has been killed by a sniper.

Major General Lipsett went to France with the third Canadian division.

#### HARD ON NEWSPAPERS.

The newspaper business in Canada has been dealt another blow, and one it is safe to say many small papers will not survive. The price of all newspaper paper has been advanced \$12 per ton, the price has been advanced 50 per cent. To give some idea what this advance means to the newspaper proprietors of the country, it is interesting to note that the Montreal Star claims the new price will mean for it an additional annual outlay of over \$300,000. It will cost the Toronto Globe in the neighborhood of \$150,000 more a year.

Even the smaller papers are hard hit, as there does not seem any way to pass the extra cost on to the consumer, as in the case with almost every other commodity. This extra outlay will mean that publishers who wish to stay in the game will need to collect more sharply. The day of long overdue subscription accounts is at an end, in fact the government, or the man who represents the government in the news print negotiations, suggests that no paper be sent to subscribers more than three months beyond the time for which it is paid. As far as possible all free copies will have to be struck from the mailing lists. The Halifax Herald has advanced its price to \$9 a year, and that means absolutely in advance. The paper is cut off immediately the year has expired. That is good business, and other papers will be forced to do likewise, or go out of business altogether.

#### FOOD SHORTAGE IN ITALY.

Dr. James W. Robertson, who recently toured Britain, France and Italy, on behalf of the Canadian Government and the Canada Food Board, reports conditions in Italy as extremely severe, although improved by good crops of fruit and vegetables during the past summer. There has been a diminution of over fifty per cent in the production of milk, butter and cheese, and the total ration in Germany, according to the Italian Food Controller, was better at the time of Dr. Robertson's visit than that of Italy.

#### Face the Wind.

Recently a lady asked a tramp, "What determines your course when you are tramping on the roads?" "Well," he answered, "I always turn my back to the wind."

There you have the true tramp motto: "Turn your back to the wind." There you have the keynote of vagrancy and fecklessness and failure.

The motto of efficiency is "Face the wind." Face your troubles. Face your difficulties. Face the things that are impossible. Face the things that are unfair. No good thing has ever been gained by the man who blows like a dry leaf down the lanes of life.

#### "WHEN THE DEVIL

WAS SICK, THE DEVIL A SAINT WOULD BE."

London, Oct. 22.—A Christiania despatch to the Morning Post says the German Emperor is suffering from a serious mental disease and the Kaiser after recent events is becoming more and more pious, praying many hours daily.

Are you saving for Victory Bonds?

## New Fall Coats, Serge Dresses, Blouses, Furs

### New Fall Coats—

Our range is now complete, and includes Velours, Tweeds, Cheviots, Broadcloths, Plushes, plain and fur trimmed. We were successful while in Montreal and Toronto in picking up some new novelties at reasonable prices.
