

ROYA WORLD EVERY DAY.

SATURDAY MORNING, NOV. 25, 1882.

LOCAL NEWS PARAPHRASED.

The tremendous sale of overcoats still continues at Oak Hill.

The Asses play football (association rules) with the 35s this afternoon.

Anderson's band will be at the Zoo this afternoon and will play a choice selection of music.

Trunk comes out this week enlarged and with several new typographical features. Its 14-page is quite attractive.

Policeman McLaughlin has been dismissed from the force for receiving bottles of beer from keepers of houses of ill-fame.

The students of Knox college profess at their next public meeting to do, "can the immortality of the soul be proved from nature?"

Mr. Edmund Welch, for many years local editor of the Montreal Express, was presented with a beautiful silver service of six pieces on the occasion of his sailing up the river to Toronto.

The U.C. Friends have engaged Victor B. Hall, V. T. to deliver a lecture in their western hall, 427 Queen street west, next Tuesday evening on the subject "Nuts." A literary and musical entertainment will also be given.

The sisters of the house of providence gratefully acknowledge the following donations, collected in the different parishes of the city on the first Sunday of November, St. Michael's, \$286; St. Paul's, \$186; St. Mary's, \$158; St. Patrick's, \$133.

An entertainment in aid of the funds of the St. Nicholas Institute for working boys was lately given in St. Lawrence hall, Grand No. 10, by the association. On the evening the committee of management, the Lady Superior and her staff, were present, amounting to the handsome sum of \$76.00. Much commendation was shown for each action on the part of the young men, and it is scarcely necessary to add that the donation was most thankfully received.

Royal Opera House.

That charming play of American border life and incident, "The Danites," was produced again at the Royal last night before a moderately full house.

Lizzie May Ulmer as Billy Piper is a very touching picture of acting, and with the capital support given, the play is made to run in the most acceptable manner. The same bill will be presented at the matinee this afternoon as well as in the evening.

E. C. Hill's Name Forged.

We are in receipt of a telegram from E. C. Hill of Peterboro, denying the authorship of the challenge to dance L. F. Carpenter on certain conditions for a purse of \$100 to \$500 published in yesterday's issue of the World. The challenge was sent to this office over Mr. Hill's name.

Bear Meat for Dinner.

Best meat is one of the items on the bill of fare at Bingham's restaurant to-day. Bruin was shot by Jeff Warden and Jim Macdonald in yesterday's issue, and was a fine specimen of the black bear tribe and weighed 225 pounds.

Who Smuggled the Tea.

Toronto correspondence Winnipeg Free Press: Perhaps you don't know that a good many of our biggest railway men made their first start upwards by smuggling tea.

Cataract—A New Treatment.

From the Weekly (Toronto) Mail, Aug. 12. Perhaps the most extraordinary success that has been achieved in modern medicine has been attained by the Dixon treatment for cataract. Out of two thousand patients treated during the past six months fully ninety per cent have been cured of this stubborn malady. This is not a new discovery, but a new method of treatment, and the present cures are the result of the application of the remedy known as the "Dixon" cure. It is a simple and can be done at home, and the present cures are the result of the application of the remedy known as the "Dixon" cure. It is a simple and can be done at home, and the present cures are the result of the application of the remedy known as the "Dixon" cure.

Breathed New in Canada.

The Times is informed on what may be considered a safe authority, that the Chicago shippers of dressed meat are making preparations to place their goods in Hamilton and Toronto. A few weeks ago great consternation was produced among the butchers of Philadelphia, New York and Boston by the delivery of meat, killed in Chicago at prices two cents less than the present, and the eastern butchers could afford to sell for the duty on dressed meat coming into Canada is 1 cent per pound, and as the meat will be brought in in cases, the price will be paid on the cheap—5 cents as well as the dear cuts. The duty upon live animals is 20 per cent ad valorem. Dressed meat is now quoted in Hamilton at 5 to 7 cents for hindquarters and 4 to 5 cents for fore-quarters, the price having fallen considerably from what it was a few months ago. To get the Chicago meat introduced into Hamilton, it will have to be sold here at prices that, less freight, will net the Chicago owner 3 to 5 cents for hind and 2 to 3 cents for fore-quarters—allowing one cent for duty and one cent for cutting under local butchers' prices. The plan adopted in New York was for agents of the Chicago shippers to cut up the meat and deliver it to order, just as the local butchers do. Any innovation which shall reduce the price of meat will be welcomed by consumers in Hamilton. Nor will our Canadian farmers need to be troubled. There is a steady market in Liverpool for all the high class cattle they can raise, and the English trade has paid them so well that, to serve it, they have left the Canadian markets scantily supplied. They can ship live stock to England in better condition and on better terms than it can be shipped from Chicago.

Floes and Bugs.

Floes, roaches, ants, bedbugs, rats, mice, gophers, chipmunks, cleared out by "Tough on Rats." 15c.

Faithfulness of Reporters.

Governor-elect Butler is not one of those orators who complain because the reporters do not get into print every word they utter, or because they sometimes change a word here and there, for the better or the worse. "You workmen of the press," he said at a dinner of a Boston reporter club, "I have ways to do your duty thoroughly, and I have received any portion of the applause of my fellow citizens comes from the fact that I have received from you accurate and truthful reports of what I have said. And for that fidelity, which had never faltered, whether from men opposed to me or in my favor, I beg to return to each and all of you my most grateful thanks."

Kidney Disease.

Pain, irritation, retention, incontinence, deposits, gravel, etc., cured by "Bach's Pain-Expeller." \$1.

AROUND THE WORLD.

The wife of the Chinese minister at Washington has adopted the American style of dress.

Madame Patti has 35 servants. That's nothing. We have one servant who can make work for 3,500.

The Washington monument is now up to a height of 322 feet and, it is said, will be finished in June, 1884.

The minutes of the Presbyterian church shows that it has 1578 preachers in the United States who are not pastors.

The short walking dress of the present day requires that a lady be particular in her foot clothing, as in the rest of her costume.

A girl in Providence, 18 1/2 years old, has just been married. Very few girls can be brought to cut off their ice-cream at that age.

While a New York girl was in church, praying, some rascal stole her pocketbook. When it isn't safe to go to church, no wonder New York is so dreadfully wicked.

The popular game in Indiana this fall is betting on the weight of a stranger. The said stranger has a lead jacket under his coat, and his pal takes in a heap of half dollars.

A Newport snob recently went rowing with a small poodle. The boat capsized, the snob was drowned and the poodle swam ashore, and we are longing to know if this is a case of the survival of the fittest.

A mountain lion was lassoed near Los Alamos, N.M., recently, by two teamsters.

The beast was of good size, and in the struggle that ensued after he was in the toils the dog of the captor was killed.

A Philadelphia woman has married a young newspaper man whom she does not pretend to love, instead of the dry goods clerk whom she adored. Strange how many women prefer misery in a palace to love in a cottage.

Langtry! Nilson! Patti! All in America at once. All taking away American money in heaps. Why has no one gone before to tariff commission and demanded protection for our home talent? The duty on Langtry ought to be at least \$20,000.—Louisville Courier-Journal.

While a Philadelphia street car conductor was at work a friend wildly boarded his car to announce to him that his wife had just given birth to twins. "Twins, did you say?" excitedly exclaimed the conductor. "Am I the father of twins—two half fares? Just wait until I register them, and the bell-punch struck twice."

It has been observed that tall men generally marry small women and that tall women generally marry small men. It has never been fathomed why tall women marry small men, but it is stated as a fact that tall men prefer short wives because they can't reach their husbands' hair without first climbing on a chair.

Dr. Talmage is nothing it is not sensational. Thus, in his last Sunday's sermon, while denouncing slanderers, who he characterized as "whisperers" and "first-class liars," he said: "The destruction of a man's name is worse than the destruction of his life. But how much worse is it to damage a woman's reputation? Some people say there is no hell, but if there be no hell for such a despoiler of womanly character, it is high time that some philanthropist build one. [Laughter.] What a time the whisperers will have when they all get together down there rehearsing things. Semi-heaven of scandal-mongers! Stopping their gables about their diabolical neighbors only long enough to go up to the iron gate and ask some new comer from the earth what is the last gossip in Brooklyn. [Laughter.] This picture is a startling one, but to the barlian outside the walls of the tabernacle it seems like anything but a laughing matter.

"Troubles often come from whence we least expect them." Yet we may often prevent or counteract them by prompt and intelligent action. Thousands of persons are constantly troubled with a combination of diseases. Diseased kidneys and costive bowels are their tormentors. They also know that Kidney-Wort acts on these organs at the same time, causing them to throw off the poisons that have clogged them, and so renewing the whole system.

Asthma, Bronchitis, Catarrh and consumption in its first stages are treated at the International Throat and Lung Institute, 173 Church street, Toronto, where the Spirometer is used, an instrument invented by Dr. M. Souville, of Paris, and ex-his surgeon of the French army, which gives the measure of the amount of cold inhalations to the parts diseased. Suitable constitutional treatment is used when required. Consultations and a trial of the Spirometer free. For complete possession of the instrument, 173 Church street, Toronto, or 13 Phillips square, Montreal.

KIDNEY-WORT

HAS BEEN PROVED THE SURGEST KIDNEY DISEASES.

Does a lame back or disordered urine (with or without blood) indicate kidney disease? If so, use Kidney-Wort at once. It cures the disease and restores healthy action.

Ladies: To your sex, such as pain in the back, or disordered urine, or any other ailment, Kidney-Wort is especially adapted. It will act promptly and safely.

It cures the disease and restores healthy action. It will act promptly and safely.
