
Girlhood and Scott's Emulsion are linked together.

The girl who takes Scott's Emulsion has plenty of rich, red blood; she is plump, active and energetic.

The reason is that at a period when a girl's digestion is weak, Scott's Emulsion provides her with powerful nourishment in easily digested form.

It is a food that builds and keeps up a girl's strength.

FERTILIZING STRAWBERRIES. After a careful study of the anatomy of the strawberry plant, the Wisconsin station is of the opinion that a liberal top dressing with fine manure after the fruiting season is the most rational method of fertilizing the strawberry plantation. This dressing protects the crown of the plants from excessive summer heat and furnishes the young roots with abundant nourishment throughout the growing sea son, developing strong plants which are able to store up in the short stems a good supply of reserve material for

the first leaf growth the following

Two Flours in One

Beaver Flour is the best "pastry flour," just as it is the best bread flour. Because it is a blend of the two flours that are best for bread and best for pastry.

Beaver Flour contains Manitoba wheat, which is rich in gluten, and makes bread that is both tasty and nutritious. Beaver Flour also contains Ontario wheat, which is famous for the light, delicious Cake, Pies and Pastry it makes.

Beaver Flour is always blended in just the exact proportions, so that it is always the same and always gives the same results when you use it.

Beaver Flour

Depend on Beaver Flour for all your baking.
