

THE BEST HELPS.

THE SCHOOL JOURNAL

Published Weekly, Fifty Numbers a Year.

\$2.50 A YEAR; \$2 IF PAID IN ADVANCE.

THE TEACHERS' INSTITUTE

Published Monthly, Twelve numbers a Year.

\$2 A YEAR.

AMOS M. KELLOGG, }
JEROME ALLEN, } Editors.

We have not filled the pages of these journals with disquisitions "about Education." There are thousands of men who can write "about Education" whose schools are unimportant. We have done a better thing: we have explained the foundations, principles of education, and have given methods founded on these principles. We hold that the great thing needed is teachers who understand the resources of education. Such teachers will easily learn their own methods. We therefore explain these principles and give methods that all teachers suggest principles. Many teachers have already said these journals a right kind of help. They are full of inspiration. Volumes could be filled with testimonials; comments will do, but it has already and comprehended their power of teaching. There are many hundreds of dollars to the teacher who wants to improve himself and his school. No investment is valuable as a subscription to one or the other of these Journals.

A FEW OF THE ARTICLES THAT ARE APPEARING.

Methods of Teaching in the best Normal Schools will be continued during the year. Those already published have been greatly appreciated. The best ways of teaching Reading, Arithmetic, Grammar, Geography and Spelling will be continued. A Course of Exercises in Practical Book-keeping, adapted to the needs of common business, will be presented. The Simple Experiments in Natural Science will meet the wants of thousands of teachers. Easy Lessons in Sewing will be full of practical interest. Plans and Prices of the Best School Buildings will be published from time to time.

Articles are being prepared by the editors and contributors on the following and similar subjects:

- Scientific Experiments in Science.
- Industrial Work in Schools.
- Handwritten Methods.
- Best Reading Circles.
- Managers and Methods.
- Word Analysis.
- The Value.
- Familiar Talks with Teachers.
- Prayer Lessons of Study.
- Blackboard Exercises.
- Among the Authors.
- Memorial Days.
- Social Science.
- Health.

In addition we shall continue the various departments that have heretofore proved so acceptable to thousands during the year.

EDITORIAL.

THE SCHOOL-BOON.
TALKS FOR.

PROFESSORIAL NOTES FROM OUR OWN CORRESPONDENTS.

LETTERS AND SHY ANSWERS.

NEW METHODS OF IMPORTANCE TO TEACHERS.

THESE DEPARTMENTS CONTAIN:

Views on School Government; Lessons in Language for the Primary Classes; Elementary Lessons in Botany, Zoology and Physiology; Map Drawing; Lessons in Elementary Chemistry; Dictations and Reproduction Exercises; Articles on Penmanship; Weekly Exercises of Memory for Young Students; Hygiene and Temperance Lessons; Law Questions; Children's Exercises for Memorizing; Golden Thoughts; Music and Poetry for song and recitation; Full Material for Recitation and Memorial Days and Prayer Affirmation Exercises; Current News of the School System; The Educational Column; Interesting Facts for the School Room; Stories for the Primary Class; Condensed Thought from Educational Meetings and Papers, etc., etc.

Nearly Every JOURNAL contains Original Illustrations to some of the Articles.

The above list is not a listless matter for advertising purposes, but an exact statement of what the JOURNAL and TEACHERS' INSTITUTE will do for the teacher.

We ask \$2.50 in advance of all recent progressive teachers to establish a first-class journal of education. Except a few cents extra advance for subscription agents and for application to
