ATHLETICS.

The spring practices came to a close on May 2, when the teams captained by Bolger and Dulin, met to decide the championship. Up to this time neither side had lost a match, and the preceding games had been so closely contested, that a mighty struggle was expected for the deciding encounter. But such hopes were disappointed. Dulin's men worked strenuously, but owing to the weakness of their scrimmage, the ball could not reach the half-backs, who, in consequence, were obliged to stand for most of the time as anxious spectators. Their opponents, on the contrary, got the ball out freely, repeatedly, rushing over the line for a try. 16 to 0 was the score at the end of play. Capt. Bolger had his men well instructed in the game, and the showing his team made in the last contest is to a great extent to be attributed to his excellent coaching. The winning team was composed of the following players : P. Sims, F. Sims, Bonin, Foley, McGuire, McTighe, Kennedy, Dontigny, Courtney, Cortes, McCarthy, Day, Cade, Moran, McGee, Bolger.

Taken as a whole, the spring practices were a success. There was not, perhaps, the same spirited rivalry shown among the teams as has been customary. However if all appearance of roughness was absent, skill certainly was not. Leaving other considerations aside, College never has had such a number of speedy men as appeared upon the campus this year. With proper

training, several of the players will make worthy recruits next fall for the senior fifteen.

News has come from Montreal announcing the application of the Granites of Kington for admission to the ranks of the Quebec Rugby Union. They desire to play under the system in operation last fall ; that is having home and home matches. The Montrealers have already expressed themselves as favourable to the admission of the Kingstonians. We see no reason why College should not be similarly disposed. A three-club league ought to make a very interesting schedule. The Granites have a fairly strong team, and no doubt would endeavour to improve their strength if allowed into the Quebec Union. Besides we think the position of Kingston with regard to Montreal and Ottawa suggests advantages that should strongly recommend their application.

The baseballers opened the season's work by defeating the Hull team on the grounds of the latter. The batting and fielding of the students were far superior to that of the Hullites, and an easy victory was won by a score of 20 to 3. The College players were : Morin, C., Ruane, P., Shanahan, 1st B., McGuire, 2nd B., Lawless, S.S., McGuckin, 3rd B., Kearney, L. F., O'Connell, C. F., Mortell, R. F.

There is rumor of an encounter that took place somewhere in the neighbourhood of Rideau Canal, and which resulted disastrously to the College fleet. No official notice has yet been received from Commodore Morin, whose officers are said to have deliberately cut the cable, after having made an unsuccessful attempt to cut a figure. News via, "Letter O" confirms the
