

In the extreme southwest corner of Louisiana lies the largest producing farm in the world, measuring 100 miles north and south, and 25 miles east and west. It is owned and operated by a syndicate of Northern capitalists. The 1,500,000 acres of the tract were purchased in 1883 from the State of Louisiana and from the United States Government.

The Canadian Almanac for 1891, published by The Copp, Clark Company, of Toronto, has made its appearance. This well known repository of useful knowledge comes to hand this time in larger size and promises to be more useful than ever. It contains authentic commercial, statistical, astronomical, departmental, ecclesiastical and educational information, customs tariff, and a vast amount of information which makes this almanac invaluable in every office and counting house. Forty-fourth year of publication.
