Intimated that a Juvenile Meeting, open to others also, would be held on Monday next, further notice of which is to be given; and the meeting was then adjourned .- Communicated.

To Cornespondents :- Received F. R. S: we shall write in a few days ;-W. S ;-W. A ;-W.

PAYMENTS RECEIVED :- Mrs. Ross Cuthbert, No. 105 to 156; A. C. Gen. Stanton, No. 157 to 208; Rev. W. Anderson, No. 157 to 208; Rev. W. W. Wait, No. 157 to 208; Dr. Philips (ought to have been acknowledged on the 12th of Feby.) No. 81 to 135 ; Messrs. Edward Taylor, No. 157 to 208 ; F. Wyse, No. 105 to to 156; — Rich, No. 157 to 208; J. S. Clarke, No. 157 to 208.

Nocal and Political Entelligence.

LATER FROM EUROPE -Since last week, several packet-ships have arrived at New York and Boston, bringing news as late as the 20th of March. Cotton had declined a farthing per lb. and sales were much reduced. The grain market was firm, with the exception of a decline in Indian corn.

The Cambria arrived out on the 16th ult., having been somewhat detained by falling in with ice.

The Sarah Sands, the screw propeller, which left New York on the 24th of February, arrived at Liverpool on the 17th ult. She was under canvass only six days of her passage, and met with much bad weather.

The rumour that Parliament was to be dissolved on the 1st June has been contradicted. The "ten Lours' bill? had been passed in Committee, and was to be taken up again for consideration on the 21st inst. After a long discussion in the House of Commons upon the Cracow matter, the question was set at rest for the present by the withdrawal, by Mr. Hume, of the motion by which the debate was oil

The distress in Ireland is spoken of as still in ereasing, although large amounts of bread-stuffs were constantly arriving. Emigration was sought as a means of relief by immense numbers, and by a class of society better than those who had before been induced to avail themselves of it, - the farmers and others possessing small capital. The Queen had appointed the 24th ult., as a day of general fasting and humiliation in consequence of the grievous scarcity and dearth of divers articles of sustenance, and necessaries of life.

The scarcity of food was becoming greater in France also; but the government and individuals of all classes were making great efforts to counteract it. Queen Christina, the mother of the reigning Queen of Spain, has arrived in Paris. It is said that a great coolness exists between Her Majesty Queen Isabella and her consort, and that a separa-

tion is likely to take place.
The Great Western Steamship was offered at auction on the 11th of March, but although she was stated to have cost £63,000, and to have been surveyed by Lloyd's, and found in as good condition as the first day, after having made 90 successful voynges, only £20,000 was offered for her, and she was withdrawn at, as was understood, the reserve of

There has been a meeting of the proprietors of the directors not having insured the stranded vessel, which cost nearly £140,000, for more than £17,000 which was nothing like an adequate amount as respected her value, and the directors were also blamed for having returned the passage money, and for not having taken immediate and efficient measures to get her off. The report was adopted, but not without a protest being entered against its reception. It is generally understood that the property of the com-pany will be at once sold and its affairs wound

asp.

A fire damp explesion took place in a large coal mine at Barnsley, by which seventy-three indivi-duals were instantly destroyed! Forty-two of the bodies were interred in one grave, in rows six abreast, and seven deep.

Letters from Vienna state that England, France, and Austria had concluded a treaty with the Porte for piercing the 1sthmus of Sucz. By virtue of the treaty Austria is to undertake the works on the coast and in the port of Alexandria; the regulating the course of the Nile is to be at the expense of Egypt; France to undertake the roads through the Desert; England to restore the port of Suez and to construct the basins and all other necessary establish-

The Circussians have nearly exterminated the Achenes, a native tribe in alliance with Russia. The Achenes were at Casahan, where the Circassians fell upon them, and put 5000 of the men, women, and children, to the sword.

Incendiarism was becoming very common in some of the agricultural districts of England. A very considerable number of ricks of hay, peas, beans &c., with some barns, had been fired and burnt one instance is mentioned, in which 14 head of caltle were destroyed by the flames.

It was reported that the large ship seen on fire in the channel last week, was the Glenelg, laden with breadstuffs from America, and bound for Ireland Whatever the name of the vessel, she was burnt to the water's edge, and all hands lost.

The Courrier Français mentions that the Pope fintended to accredit in China an agent, charged with defending the interests of Catholic subjects of the Sovereign of the Celestial Empire. That post was to be confided to Abbé Salvi, a distinguished Orientalist, and a man of great learning and probity. He is to reside at Macao, and his powers are to extend over China and different countries of the far

GRECCE.-We announced yesterday that a serious complication had arisen in the relations of Greece with the Porte, in consequence of the refusal of the representative of the Sultan at Athens, M. Massuras, to sign the passport for Constantinople of M. Tzami Caratusso, aide-de-camp of King. Otho, because that officer had taken part in the expedition against the Turkish provinces in 1841. The King had addressed on the occasion angry expressions, and reproaches to the Ottoman Minister, who having complained to the Divan, the latter despatched a steamer to the Piraus, which was to bring back the representative of Turkey to Constandinople, should be not obtain a reparation within a delay of three days. We learn to-day that the President of the Greek Ministry, M. Coletti, having refused to give the satisfaction demanded by the Porte, the Turkish Minister at Athens embarked at the Pircus on the 14th of February, and reached Constantinople on the 17th. That event had excited a lively sensation in the Turkish capital. We also learn that the Ambassador of France, Baron de Bourquency, had obtained full satisfaction for the insult offered to M. Sabatier, our Consul at Janing, -Journal des Debats.

Mexico. On the 4th inst., the U. S. Steamship to the Provincial Penitentiary for 7 years, was | hail, and rain, but cold predominating and making Princeton, hearing the broad pendant of Commodore Connor, arrived at Pensecola, and brought the important news of the capture of the city of Vera Cruz and the castle of San Juan d'Ulloa by the forces under General Scott. The last Berean mentioned the disembarkation of the American troops before the city, and the vigorous preparations making for a combined attack by sea and by land. On the 18th of March the trenches were opened at night, and on the 22nd the city was summoned to surrender, which being refused a discharge of shells was commenced from seven mortars. The bombard-ment of the town was continued until the 26th, the batteries being increased to ten mortars and ten guns of the calibre of 24, 32 and 36 pounds, when proposals were made by the Mexicans for a surrender. Commissioners were named and the terms of the surrender were decided on the 29th, when the city and castle yielded unconditionally; the Mexican troops, numbering some 4,000, marched out and laid laid down their arms as prisoners of war, while the American troops took possession of the works of the town and castle, and the American flag was hoisted over both. The loss of the latter during the whole operations before the town was only 65 killed and wounded; the Mexicans suffered severely, it is said, by the fire on the town, but the loss did not fall on the soldiery so much as on the inhabitants of the town. When the city was taken, the garrison of will march on the city of Mexico, where Santa Anna now is; and that the latter is anxious for peace. The news of the capture of Vera Cruz excited the greatest exultation and rejoicing in the United States.

UNITED STATES .- A private letter, received from Boston, U. S., states that 1268 emigrants had arrived in Boston during the past week. Twenty-eight emigrants had died on the passage from Ireland.

Eleven ships cleared at New Orleans on the 29th ult, for Great Britain and Ireland, freighted principally with corn and flour, having on board fiftyeight thousand sacks of the former, and seventeen thousand barrels of the latter .- This is, beyond doubt, says the Tropic, the largest quantity of breadstuffs which were ever cleared from any port in the United States in any one day.

GUZMAN THE INSURGENT, CONVICTED OF TREAon, AND SENTENCED TO BE SHOT .-- By the barque Venezuela, Captain C. G. Dill, from Puerto Cabello, March 24th, arrived at this port, we learn that a short time prior to the V's sailing, intelligence reached Puerto Cabello, from Carraccas, to the effect that Guzman, who figured as leader in the insurrection which occurred in that city during last summer, had been convicted of treason and inciting to rebellion, and sentenced to be shot. Capt. D. did not learn when the sentence was to be executed .-North Am. Phila.

DISASTERS AT SEA, DURING THE YEAR 1846 .-Principally upon our own coast.—The particulars of the loss of vessels enumerated below, have been published in the Sailor's Magazine for the past

The number of lives known to have been lost is 535. Twenty seven vessels are still missing.—
(N. Y. Commercial List.)

St. John, N. B., March 30 .- Saint Andrews and Quebec Railway .- We understand that arrangements are now being made to commence this important line early in the spring, and that John Wilson, Esq., of Saint Andrews, is now in the United States, for the purpose of engaging a competent Engineer, and entering into contracts for locomotives, &c.

Moses II. Perley, Esq., of this city, left town yesterday for Halifax, to take passage in the next steamer for England, with the view of disposing of Stock in the Mother Country, and transacting other business on behalf of the Association .- Obs.

CANADA WEST. - SHIPMENT OF FLOUR TO OSwego.—It is stated currently, that several vessels from Canadian ports, on Lake Ontario, have been freighted with Flour to Oswego, thence to pass through the Eric Canal to New York or Boston .-We believe the report to be true, but cannot vouch for it. Should the practice become general, it will burgh paper of the 3rd April, says that the ice on Lake prove a bitter blow to Kingston and the Forwarders. Champlain was then strong enough to bear loaded The Mayor of Toronto, W. H. Boulton, Esq.,

has given up to the Corporation £200 a-year of his salary, retaining only the £100 allowed by the

OPENING OF NAVIGATION AT KINGSTON .-- In Monday's News we mentioned that the continuance of the ice in the harbour would be of brief duration. Before our edition was worked off, the anticipated change took place. A strong north westerly wind forced the ice to shift its position, and partially to descend the river, by which movement it was much broken up. Large fields continued floating and obstructing the entrance to the harbour until last night, when a north-casterly wind drove them out to the lake. Yesterday evening two large vessels have in sight, and about dusk anchored off four-mile point. This morning one of them entered the harbour without obstruction, being, however, obliged to beat against the adverse wind. She proved to be the Clyde, Capt Trowell, from Hamilton, laden with produce, reported as follows:—1368 lbs. flour, 100 bls. pork, 100 kegs lard, 218 kegs butter. The other vessel is the Thames, also of Hamilton, and laden with produce. The brigs Brilish Queen, Lilla, Mohawk, and schr. Sophia left port

liberated by a pardon from the Governor General, on the ground of his uniform good conduct since his

imprisonment. The following is from the Chronicle.
"The Commissioners wishing to show to the prioners that they were as desirous of rewarding good conduct, as they were determined to punish those who were refractory, and refused to comply with the regulations of the prison, asked the Warden if there could be found a prisoner who had uniformly conducted himself well: and on examination it was found that this man Johnson had never had a punishment but one, which was a very slight one—a bread and water meal—almost immediately after his committal four years ago. The inspectors recommended him to the consideration of His Excellency, and the pardon was granted immediately. In communicating the fact to the prisoner, which was
wholly unexpected by him, the Warden took occasion to inform the other convicts of the prison
that allowed this was asset from securation was
succeed. His body was taken from the water on the that although this was a case of rare occurrence, yet succeed. His body was taken from the water on the it would not be a solitary one, provided others con- following day and an inquest held over it. The ducted themselves equally as well as the man now pardoned had done, but that it was the determination of the inspectors, whilst they were desirous of serving the well-behaved amongst them, severely to punish the refractory and those who disobeyed the regulations and laws of the establishment.

the castle did not attempt to continue their defence in consequence of being entirely without provisions and ammunition: 5 generals, 60 superior and 270 company officers were amongst the prisoners. They were all furnished with rations, and allowed five days to retire to their homes. It is said that General Scott, uniting his forces with General Taylor. horses or in any other way-he was taken and convicted; and he admits that his punishment was well deserved; he, however, says he has long since repented of the crime of which he shall never again place on Thursday last, realized £317 7s. 6d,be guilty, and to which he has no inducement, as he has become a first rate blacksmith, and doubtless can get a good living by honest industry. He has been strongly recommended by the Warden for his industry and good workmanship."

> Monranal. The Gazette of that city, discussing the various projects for erecting a bridge across the St. Lawrence at Montreal for the purposes of the St. Lawrence and Atlantic Railroad, recommends the construction of a tunnel; the approach to be made from Craig street, and to emerge in the rocks below Moffatt's island, the traverse being completed on an embankment with occasional arches. The rapidity of the current, the width of the river, and the great power of the ice when breaking up in the Spring, are great obstacles to the formation

The official Gazette of the 17th instant, contains a Proclamation dated the 15th, prorogaing the Pro-vincial Parliament from the 24th April to Wednesday the second June, then to "meet for the despatch of business."

Various rumours are mentioned of changes and appointments in the Ministry; but all, as yet, oppear mere surmise. As Parliament is now summoned to meet on the 2nd of June for "despatch of business," some official announcements may soon be looked for, which will set at rest the public curiosity.

MINISTERIAL AND JUDICIAL APPOINTMENTS. The Montreal Gazette makes the following remarks on the above subject; a We are not yet able to state to our readers anything positive relating to ministerial arrangements. We can only express our opinion that within two or three days, at farthest, the judicial appointments will be made."

Six inches of snow fell in Montreal on Thursday.

A man named O'Keefe, suspected of being one of the persons who robbed the stage lately, was arrested at Lachine on Friday last, while on his way to the frontier. He had with him a most formidable array of arms of all kinds .- A married woman named Tracey was burnt to death last week in consequence of her clothes taking fire. Her husband is a labouring man and she leaves two children.

Horse Stealing .- A young man, describing himself as James M'Lean, shoemaker, of the Township of Granby, was, on the 6th instant, committed to the gaol of this district, by Win. U. Chaffers, Esq., J. P. of St. Cesaire, accused of stealing a valuable mare from the Public Stables of the Seignorial Mill, at St. Hyacinthe, the property of Louis Huard, of St. Denis. McLean had offered the mare, for a low price, to Mr. Samuel Bean, Inn-keeper, of St. Cesaire, who, suspecting he had not obtained it honestly, had him taken before the Magistrate, where the owner of the mare arrived very shortly after, in search of her. This crime has become very common of late in the counties bordering on the Lines. -Montreal Gazette.

QUEBEC PROVIDENT AND SAVINGS' BANK.—We understand that C. H. GATES, Esq., has been appointed Cashier of the Quebec Provident and Savngs' Bank, which goes into operation the first week in May, in those conveniently situated premises formerly occupied by Mr. Futvoye, adjoining the Post Office .- Gazette.

OPENING OF THE NAVIGATION .- Having nothing cheering to report of the prospect for an early opening of our river navigation, as long as the present weather lasts, we must be content with mentioning he progress of the Spring in other parts where the cold has not been so severe as in Quebec. The navigation of the Hudson river was completely opened on the 7th inst.; a steamboat from New York having at last reached Albany. The Ohio canal was to be opened for transit on the 15th inst. teams. The Eric canal was not to be opened till the 20th inst.; the water was let into the Welland Canal about the 9th, and in a few days it was expected that vessels would be able to pass through. Vessels are plying on Lake Eric; and Lake On-fario will probably soon be clear of ice. The last accounts from Montreal represent the ice as still holding, but very unsafe: the cars are now running on the St. John's and Laprairie railroad. It will be observed by the shipping news that some of the coasting craft have arrived in port from below. The first steamer from Montreal came in last spring on the 17th of April; and the first ship from sea on the 21th : when the first arrival may be this year it is hard to say, though from the report of the schooners which have come up, there is nothing below to prevent vessels from reaching Quebec.

THE WEATHER.—The snow-storm mentioned in the last Berean continued the greater part of that day, with an easterly wind, and fully six inches fell. Since that, the weather has been generally cold, the mercury in the morning ranging from 15 to 20 degress above zero; and on Saturday there ton, and laden with produce. The brigs Brilish Queen, Lilla, Mohawk; and schr. Sophia left port to-day for the upper lakes.—The News.

Release of a Convict, for Good conduct.—
On the 5th instant, a prisoner who was committed the day very uncomfortable.

The Messrs. Housin's Omnibus to Caronge is to go into operation about the 15th May. It is to go through to the river, where a new and extensive lumber depôt is established, three times a day, the fare Is. to the river and 71d. to all intermediate places, and to start at fixed hours; in the morning at 8 for town, leaving town at half-past nine. In the afternoon at half-past five.

The residents on the road have taken tickets sufficient to secure Messrs. Hough's expenses, and they will depend on the good quality of the accommoda-

tion to travellers for greater profits .- Gazette.
On the night of Wednesday the 14th inst., a poor man had no relatives or connections in Que-

Navigation .- One of the steam ferry-hoals, the Charles Edouard, commenced her trips from Pointe Levi to the Lower Town market place on Tuesday. We understand that the new and splendid steamer "The poor fellow Johnson received the intelli-gence with strong feelings expressive of gratitude, the line to Montreal, about the 10th of May.

ed below, came up to port on Tuesday morning.

The sale of the Temporary Buildings outside St. Louis Gate, with the stoves therein, which took

A Schooner from Malbaie, loaded with fish, pota toes, flour &c., came up on Tuesday evening, and another from Les Eboulements yesterday having cattle, eggs &c. &c. Mr. Price's schooner also arrived yesterday from St. André, where she wintered.

MARITIME INTELLIGENCE.

A schooner arrived here on Friday from Malbaic, north shore, laden with hag country flour, pease, &c. The captain reports having met with no ice until he was off the Island of Orleans, that the battures below are nearly all gone, and that there is much less snow at Malba's than there is here.

Another Schooner, from Isle aux Coudres, with

cattle, also arrived the same morning.

The bark Cleopatra, and several Schooners, which wintered in the Cul-de-Sac, are refitting.

BIRTH.

At Montreal, on the 16th inst., the lady of Irwin Grant, de Longueuil, Esq., of a daughter.

MARRIED.

On the 13th inst., by the Revd. A. W. Mountain, at the Rectory Chapel, Mr. Frederick Hesse, son of Mr. Frederick Hesse, Sausage Maker, to Miss Barbara Hillsinger, second daughter of Mr. John Hillsinger, of Kenebec Road.
At St. Thomas' Church, Montreal, on the 15th

inst., by the Rev. C. Bancroft, A. M., James Gordon, Esq., merchant, to Eliza, eldest daughter of Adam Handyside, Esq.

DIED.

On Wednesday night, Marion, youngest daughter f Mr. Robert Shaw, aged 2 years and 9 months. On Thursday last, Louisa, second daughter of Dr.

A. Jackson, aged 5 years and 8 months. At Montreal, on the 16th inst., the infant daughter of Irwin Grant, de Longueuil, Esq.
