

	PAGE		PAGE
Diabetics, operations on	111	Gastrojejunostomy, nutrition	
Diabetic acid, origin of, from fat	98	after	41
— — in urine, test for	110	Gastrostomy, feeding after	41
Diagnosis of starvation	103	Gee on uric acid shower	90
Diphtheria antitoxin for hæmo-		General on parathyroids	4
philia	78	Gigantism	21
Diuretic, pituitary extract as a	24	Gley investigated parathyroids	4
Dixon on chloroform poisoning	119	Glucose, relation to acidosis	100
Dunlop on estimation of oxalates in urine	90	Glycosuria	103
Dyspepsia, treatment by drugs	30	Gout, causation of	9
		— iodothyrim in	7, 9
Edkins on gastric secretion	29	— relation to drinking water	7
Edmunds on goitre	8	— treatment of	15
— — myxœdema	3, 4	Goll's tract	141
— — parathyroids	4	Goodman on transfusion for	
— — tetany	15	hæmophilia	78
Fischberg on experimental		Gout, pathology of	88
cretinism	5, 13	— treatment of	90
Enemata, nutrient 42, 53, 187, 193		Grafting for myxœdema, cre-	
Exophthalmos from thyroid-		tinism, or tetany	16
ectomy	3	Graves' disease	14
Epicritic sense	123, 124	— — caused by iodoform	12
Erepsin	47	— — treatment of	16
Ergot useless in hæmoptysis	67	Gravity, effect of on blood-	
Enemata as local anæsthetic	175, 176	pressure	59
Exophthalmos from thyroid		Gray on skiagraphy of stomach	32, 40
feeding	6	Groves, Hey, on the colon	53
Exophthalmic goitre	14	Guannin	84
— — due to iodoform	12	Gull on myxœdema	2
Extractives and gastric juice	29		
		HEMATEMESIS, treatment by	
Fabre and Thevenot on con-		nutrient enemata	187
genital goitre	10	Hæmophilia, pathology of	71, 72
Facial palsy, treatment of	136	— treatment of	76
Fats cause pancreatic secretion	44	Hæmoptysis, treatment of	67
— inhibit gastric juice	32	Hæmorrhage into spinal cord	148
Fawcett on skeleton of a giant	21	— — — membranes	148
Fenwick, Soltan, on hyper-		Hæmorrhages, profuse	68
chlorhydria	39	Hæmorrhagic diathesis, cause of	68
Fibrinogen	69	Hall, Walker, on the colon	53
Fischer on the protein molecule	47	— — on gout	81
— — uric acid	83	— — the urinometer	90
Forssman on regeneration of		Halliburton and Mott on re-	
nerve	133	generation of nerve	132
Forster on division of pos-		Halstead on partial thyroid-	
terior nerve-roots	159	ectomy	3
Frohlich's symptom complex	22	Harrison, Ross, on developing	
Frontal cortex, functions of	161	nerve fibres	132
		Head on cutaneous sensation	124
GASTRIC juice, factors control-		— — referred pain	155
ling flow of	28, 29	— — spinal segmental areas	135
— — inhibited by fat	32	Head and Thompson on spinal	
— secretin	29	tracts	141, 142, 143
— ulcer, cause of	37	Headache, lymphatic, calcium	
— — hyperchlorhydria in	39	salts for	80
Gastrojejunostomy, course of		Hearing, cortical localization of	157
food after	40	Heart, massage of for chloro-	
— for hyperchlorhydria or		form poisoning	118
ulcer	39	Hede on cystinuria	93
