North Shore	100,000	25
Tyne Valley	75,000	50

The average CASH DIVIDENDS of the Company is 175.2 per cent.

## New Purchase

On Wednesday, Nov. 19th, 1913, the Dominion Fox Breeding Company of Murray Harbor purchased one of the finest pair of foxes to be found in the world. The female is a March pup, a daughter of the famous three-legged Oulton fox and the pelt of her full sister sold for \$2,700 on the London market three years ago. The male is eighteen months and was the father of four pups during the breeding season of 1913, and is from Silas Rayner's best stock, being bred and born in his ranch. Both animals are beautifully furred, strong, vigorous and well developed. After the purchase was made a heavy advance was offered by two different parties for the pair, which the Company declined to accept as they are desirous to secure the finest stock obtainable for their stockholders. The Directors, J. F. Sterns, President, Willard L. Jordan, Vice-President, W. H. Prowse, Sec'y Treas., Hon. John McLean and J. M. McLean, are to be congratulated on their success in securing such a valuable pair for their already well stocked ranch. The purchase was made through the Canada Fox Exchange and Investment Company, Limited, Charlottetown.

## APPLICATION BLANK
