Ed Walsh Leads Big League Players For Automobile

pitched two games in which only one pitched two games in which only one bit was made off him—one of them against Cleveland and the other against Boston.

These particular performances of Walsh, however, are only a few of the many remarkable things which he has done. His great strength and wonderful ability to come into a game with practically no warming up makes him very valuable to the White Sox. Whenever any of the other pitchers have begun to show any weakness, Welsin is the many who is always called upon to rescue the game. Moreover he can take his turn regularly every other day without apparently losing his strength.

Among the other American League players who have been most favorably mentioned for the automobile are Ty Cobb of the Tigers, Endie Collins, Bender and Coombs of the Athletics, and Speaker of the Boston Red Sox, Jackson and Gregs of Cheveland and Ford of New York.

When Walsh's record is seriously considered, however, it is apparent that his work has meant almost as much to their respective teams. Were Walsh to be taken out of the White Six line-up, many critics believe that Comiskey's team would be as helpless as the Tigers without for the sillows as the Tigers without of the white Six line-up, many critics believe that Comiskey's team would be as helpless as the Tigers without for the winter and Hamilton.

Cobb.

It is almost certain that if a pitcher gets the vote of the newspaper committee for the trophy this year Walsh will be a close contender when the votes are counted. At any rate, his work last week puts him in the pitching hall of fame along with the other American League players who have pitched no hit games. This list includes Cy Young, Jesse Tannethill of Boston, the late Addie Joss of Cleveland and Frank Smith and Jimmie Callahan, both of the White Sox.

Argonauts to Open Rugby Season Oct. 7

Big Ed. Waish of the Chicago White Sox is the latest man to claim the spot light in the discussion among the fans as to who will receive the automobile of this year. Last year the same trophy was offered to the leading batter. Every one remembers the close race between Ty-Cobb and Larry Lajole.

This year it has not been confined to battere, but the award is to be given to battere, but the award is to be given to the player in the National and the player in the American League who in the opinion of the committee of elevem newspaper men has done the best work for his team.

The Interprovincial Rugby Union met in Room E, King Edward Hotel, Saturday afternoon. Among those present were: President Joseph Wright, in the chair; Benjamin Simpson, second vice-president; Fred Chittick and George Bryson, from Ottawa: Dave Tope and R. Kelly, Hamilton; J. A. Taylor and P. Davidson, Montreal; W. Grant and Ross Binkley of the Argonauts.

his team.

The great work of Walsh last Sunday, when he let down the Boston speed boys without a single hit, has brought to the attention of the fans and critics everywhere the wonderful record which the big fellow has been making for himself with the White Sox.

While this is the first game in which waish has not allowed a hit, he has come very near to this record several times before. In 1906, the year in which the was so largely responsible for the world's championship won by the Sox, he pitched two games in which only one hit was made off him—one of them against Cleveland and the other against Boston.

The suggestion of the C. R. U. to affilible at with the C. A. A. U. was left over till the annual meeting of this union.

In regard to intermediate and junior teams, it was decided to leave the matter in the hands of Mr. Kelly of Hamilton and Mr. Stirrett of Toronto, to arrange that two intermediate teams, and, with had two intermediate teams, and, with had two intermediate teams, and, with had two intermediate teams, and possibly Dundas, a good to together. It was expected that good, strong junior teams could be got together in both Toronto and Hamilton.

The board of governors' letter regarding rough play was heartily concurred in
