WINNIPEG, May 2.—Quiet trading was the feature of the wheat market to-day and prices opened ½c to %c lower on May (new), and the July options. Following the opening there was a further decline of ½c to %c, in sympathy with the lower cables, finally closing %c lower for all months.

The cash demand was extremely poor and prices ¾c to 1c lower, with offerings fairly liberal and export trade enquiry reported the quietest for the last six months. months.
Oats were also slow with bids easier; flax, a shade firmer.
The inspections for the week ending April 30 were 4030 cars, against 1889 last year; while those for the month of April were 14,348, against 7024 last year, being more than double.
Cars to the number of 500 were in sight for inspection to-day, showing the heaviest receipts for some time.

CHICAGO GOSSIP

J. P. Bickell & Co. received the follow-ing from Logan & Bryan: Wheat—Many buying orders in the mar-ket could not be filled at bottom quota-

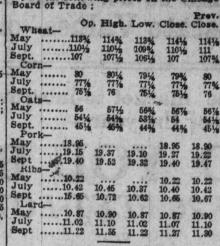

Erickson, Perkins & Co. (J. G. Beaty) wired the following:

Whest—The market opened easier and ruled in the main, weak and lower thruout the session with further scattered liquidation and aggressive short selling by local operators. We are of the impression that liquidation has about run its course and that the market at the moment is heavily oversold. We also believe that the government figures due next week, will be of a character so confirmatory regarding the shortage already established to winter wheat that present prices will seem more than attractive.

Corn—General trend of the market was steady in the early session, weakening later with professional selling. Predictions are for more unsettled weather and we believe the market has had break enough.

Oats—Ruled strong early in the session, the deferred deliveries weakening later, however, with heavy liquidation by locals as well as considerable short selling. We continue to feel very friendly to the long side of the deferred futures.

There were a few choice heavy weight There were a few choice heavy weight cattle on the market good enough to bring \$7 to \$7.30, but it must be remembered that they belonged to the export class, and bought for local killing.

Quality and numbers considered there was not any great rush to the scales, showing that trade was not any more than steady, if as good as at the commencement of the week; certainly the prices were not any higher.

Beef cost has been so high for some time past that butchers inform us that the restriction in consumption has be-

good enough to command \$66 and \$70 are scarce, and a price limit on a strictly choice Hoistein or big Durham cow cannot be placed below \$80, and something fancy would sell higher. Common and inferior thin cows sell around \$40 to \$45 each. See sales given below.
