# NEPONSET ROOF

WATCH the roofs of your summer home, boat houses or shacks—for building materials are costly and these structures deteriorate rapidly if covered with poor roofing.

To obtain a weather-proof, fire-resisting and long wearing roof—lay a Neponset Paroid Roof, and your roofing anxieties will be over.

Neponset Paroid roofing can be laid quick-ly, without fuss and with little trouble. You can lay it yourself.

Once Neponset Paroid is put down, you have a roof that is fire-resisting, weather and wear-proof. It will stand up and give satisfaction despite the elements, and its cost is spread over years of wear-free from roofing troubles and repairs.

No matter how large or small your buildings are roof them with Neponset Paroid

Neponset Paroid is made in three colors—red, green and slate grey.

**CROP ALARMISTS** ARE AGAIN BUSY

Corn Sells at Highest Price of Season, and Oats Also Advance.

topmost level yet this season, actions followed, but the market strong 1½ to 1 3-8 net higher with 172 3-8 to 172½ and September 16 to the progress of the new crop seemed to have attained greater force. The fact that receipts were diminishing drew attention more sharply than ever to the reduced acreage, and delayed start and the smallness of the carry-over. Besides, there was a further advance in the hog market, and this was deemed especially significant by many, although the feeding of corn at present is not extensive. After the market had risen to about eight cents above the low point of several days ago, profit-taking sales took on large proportions and there were reports that rural offerings had increased. Gains were thus temporarily wiped out. Toward the last, however, upturns were again becoming rapid.

Oats bulged with corn.

New record-breaking high prices were touched by lard. Pork and ribs strengthened too, all stimulated by jumps in hog values and in grain.
