PROMINENT 'FRISCO OFFICER BRUTALLY SHOT BY PATROL

While Riding in Auto Devoted to
Red Cross Work is Deliberately
Murdered by Guards.

San Francisco, April 23.—Major H. C. Tilden, a prominent commission merchant of this city, a member of Gov. Pardee's staff and one of the foremost workers of the general relief committee, was shot and almost instantly killed in his automobile early today at 22nd and Guerrero streets, while returning from Menlo Park. He was shot by men supposed to be mem-

bers of the citizens' patrol. A friend of the chauffeur was out in the face by a bullet and R. G. Seaman, acting lieutenant of the Second Company of the Signal Corps, was struck by a spent bullet. He suffered no injury.

Tilden was a prominent commission merchant of this city and was one of the foremost workers in the general relief work. He had taken his three children and a nurse to Menlo Park, where he has a summer cottage. His automobile had been used as an ambulance in conveying sick and wounded to the hospitals and the Red Cross flag was displayed on his car. Besides this he had the Red Cross insignia on his right arm. According to Seaman, six men stood in the middle of the road and separated as the car approached them. When the car was within ten feet Seaman claims the guard began shooting without warning or challenge and continued firing after the car had passed them.

The machine had gone about fifty feet past the patrol, said Seaman, "when the car stopped suddenly. Tilden, who was driving it, dropped back in his seat and rolled out of the car dead. I sprang up and fired five shots at those who were still shooting behind us. Several policemen came running up and arrested three of the men who did the shooting. The men were in khaki uniform."

NOTES.

Seismographs in the Imperial University show that the San Francisco earthquake reached Japan in 11 minutes.

The Red Cross Society of Japan is sending a hospital ship to San Francisco.

A carload of flour, ground in the Regina Roller Mills and grown on Regina Plains, was sent forward from Regina as a gift of the city.

The area of the burnt district is seven square miles.

Funds have been started at the various Australian capitals in aid of the sufferers by the San Francisco earthquake. Premier Seddon, on behalf of New Zealand, has offered \$25,000.

The Hamilton police started a subscription for the metropolitan police of San Francisco, a number of whom were killed in the big disaster there.

Both Ottawa and Toronto observatories recorded yesterday's earthquake shocks in Oregon.

The passengers leaving Fort Richmond, Cal., on the Santa Fe Road Sunday night, was Emma Bates of Brantford, Ont.

The University Council on Saturday appropriated \$10,000 to the fund, of which \$5000 was wired at once. About \$600 in private subscriptions have been made.

In view of President Roosevelt's announcement, Toronto will not subscribe to the fund now, and it is not probable that the provincial government will make a grant.

J. J. Kenny expects to hear to-morrow from the representatives of the Western Union Telegraph Company, who are making a reliable estimate of the company's losses. In the meantime he is led to believe that the total losses of both companies will barely exceed half a million dollars.

Mayor McClellan of New York has received a letter from Mayor Schmitz of San Francisco. How many architects and architectural draughtsmen can you furnish us? How quickly can they leave for San Francisco?

At London, England, the San Francisco earthquake relief fund being raised by Americans is approaching \$150,000. The London Appeal has cabled to Mayor Schmitz offering to contribute \$5000 to the relief fund.

Massachusetts has raised \$400,000 for the fund.

An insane Chinese at the Presidio Hospital was killed by a delirious fellow patient with an iron bar.

The night attendants at the Central Emergency Hospital, Frisco, who were all believed to have been killed when the city hall was razed by the earthquake, escaped.

Col. T. Wain-Morgan Draper has offered to supervise the erection of a huge barracks for the refugees at the Presidio, and his services have been accepted by the federal authorities. Work commenced on the structure yesterday. The plans call for the housing of 5000 persons.

and southern Oregon were shaken by an earthquake to-day, and the inhabitants of coast cities are apprehensive of a repetition here of the San Francisco disaster. The shock that awakened Portland shortly after 1 o'clock was felt in many parts of the state, causing considerable damage, and from as far down the coast as Southern California, come similar reports. In the Imperial valley, 400 miles south of San Francisco, and southeast of Los Angeles, the shock was so severe that houses rocked, furniture toppled and telegraph poles were broken.

The utmost alarm is felt all along the coast. A despatch from Glendale says the shock was so severe that houses rocked, furniture toppled and telegraph poles were broken.

At Grant's Pass in southern Oregon, the earth began to quiver and shake violently after 1 o'clock.

Ottawa, April 23.—(Special).—The citizens of Ottawa to-night held a meeting of sympathy and telegraphed their condolences to the people of San Francisco. The mayor has named a committee to communicate with the United States consular general, and unless the president's telegram applies to Canada a considerable sum will be forwarded from here to the stricken city.

President Roosevelt says plainly but courteously that the United States can care for its own afflicted. Aid from abroad will not be needed and will not be sought.

New York, April 23.—Gaylord Wilshire, chairman of the publicity committee of the California Relief Association of this city, to-day sent a letter to The Evening Post, in which he said:

"We would earnestly ask both the trade unions and president to refrain from interfering with any man who ever he may be, or whoever he is, who wishes to extend us sympathy or pecuniary aid. At a mass meeting of Californians, held at Casino Theatre San Francisco, April 22, a resolution was unanimously adopted giving voice to the above sentiment. The resolution was called forth by President Roosevelt's refusal to accept the \$25,000 from the Hamburg-American Steamship Line. I would say if the Hamburg-American line is still in the mood of subverting the California relief fund, the amount of money which the national government is ready to transfer to San Francisco to be available for rebuilding the city, said Secretary of the United States Treasury, yesterday, \$10,000,000, at first thought sufficient, was merely a drop in the bucket, now that the extent of the calamity is becoming known."

Yesterday a telegram was received by George McMurrich & Sons, insurance agents, Toronto, as follows: "New York, April 23.—Telegram from Sacramento reads: 'All hands safe and well; fire now extinguished; unable to ascertain liabilities until vaults are opened. The Fremont Fund Co. flag is still flying and nailed to the mast. W. J. Dutton.' Signed J. F. Hermann."

The New York legislature last night appropriated \$250,000 for the California sufferers.

A significant indication of an early cessation of law and order and safety is the fact that there is not a soldier or city police officer guarding the many millions of dollars in the vaults of the San Francisco mint.

Stratford, Ont., April 23.—(Special).—Mrs. T. Byrne, Dufferin-street, received a telegram from her son, E. J. Foley, who is in the real estate business in San Francisco, that the hotel he was boarding at the Grand Hotel "I escaped, but my place of business was destroyed." He said J. L. Young, a brother-in-law living at 802 Fourth-street, San Francisco, from whom he has not heard, Alford lived here many years.

The San Francisco earthquake relief fund being raised by Americans is approaching \$150,000. The London Appeal has cabled to Mayor Schmitz offering to contribute \$5000 to the relief fund.

Massachusetts has raised \$400,000 for the fund.

An insane Chinese at the Presidio Hospital was killed by a delirious fellow patient with an iron bar.

The night attendants at the Central Emergency Hospital, Frisco, who were all believed to have been killed when the city hall was razed by the earthquake, escaped.

Col. T. Wain-Morgan Draper has offered to supervise the erection of a huge barracks for the refugees at the Presidio, and his services have been accepted by the federal authorities. Work commenced on the structure yesterday. The plans call for the housing of 5000 persons.

San Francisco has a vigilance committee, the first organization of the kind since the early fifties. Dr. Donohue, a prominent physician, is chief.

One hundred and thirty persons have joined the organization. The committee has charge of the Golden Gate valley district, near the Presidio. A number of large manufacturing companies have arranged to receive and care for refugees at their respective plants along the eastern shore of the bay. Two thousand seven hundred and fifty persons can be accommodated.

Fully 30,000 refugees are being fed by the government at the Presidio and north beach. Provisions are being bountifully supplied to all who make application, and as yet there is no suffering from hunger. Over 10,000 tents have been given out, and the authorities intend continuing the distribution so long as the supply lasts.

Barracks are to be erected in Golden Gate Park to accommodate 15,000 persons.

In response to the appeal made by Mayor Schmitz of San Francisco for assistance in rebuilding San Francisco, volunteers applied yesterday at Mayor Dunne's office.

Chicago's second roller train, carrying provisions for the earthquake victims, was ready to leave yesterday. The city's cash contributions now amount to \$460,000.

Washington—Representative Madden of Illinois offered a resolution yesterday, taking off the tariff for one year from structural steel for the rebuilding of San Francisco and other Californian cities damaged by the earthquake.

COURTMARTIAL OFFICERS ROJESTVENSKY AMONG THEM

St. Petersburg, April 23.—The special commission which has been investigating the naval battle of Tsushima Straits, in which the Russian fleet was destroyed by the forces under Admiral Togo, has reported in favor of court-martialing all the officers who were on board the torpedo boat destroyer Bedovi, to which Vice-Admiral Rojestsvensky was transferred after the disabling of his flagship, for surrendering the vessel.

Admiral Rojestsvensky alone is exempted under the finding of the commission, because he was wounded and unconscious when his flag was lowered.

Vice-Admiral Rojestsvensky, who recently applied for retirement on the ground of shattered health, nevertheless, has requested that he be tried with the others, tho his punishment, as in the case of Vice-Admiral Nebotoff, may be dismissal in disgrace from the navy.

ALL READY FOR HORSE SHOW FIRST EVENTS THIS EVENING

The automobile having had its two weeks of "lionizing," the horse will be society's king from to-night until Saturday evening. After that the automobiles are in splendid condition; the decorations are attractive to a degree.

For to-night the box-holders will be able to obtain admission by showing their regular tickets. The rest of the seats will not be reserved, but there will be a general admission charge of 25c made. There is a very well filled harness class, and a large jumping class this evening, beginning at 8.30. To-morrow morning the show begins in earnest while the formal opening by H.R.H. Prince Arthur of Connaught takes place at 2.30. The opening proceedings will be short, and will consist of the reading of the address and the presentation of it by the chairman, and the prince will then declare the show formally opened.

Mr. Cawthra Mulock, the donor of the champion hunter's cup, has added another cup to the class by very generously offering to present a silver cup to the rider of the champion hunter, provided he or she is an amateur, and is not the owner. By this additional cup, Mr. Mulock is encouraging the amateurs to ride the horses, and it is thought that perhaps some one of the skilled riders who are taking part may be the one to win.

The entries from the farthest distance are those of two horses sent from Santa Barbara, California, by Harold Richardson. One is a Canadian pony, which has been most successful in the California shows, and the other is a high stepper, who has won a great many of the harness classes, in the exhibitions on the Pacific slope. Another long distance competitor is Miss Kirchhoffer of Brandon, who will ride in the ladies' saddle class.

WILL REVIEW VETERANS.
The Army and Navy Veterans' Association and sister societies will meet at noon to-day at Occident Hall, Bathurst and Queen-streets, to proceed to Stanley Barracks, where Prince Arthur has consented to review them. They will parade with the troops.

Another Town Heard From.
