Mining Markets Steady With a Firmer Undertone

Nipissing, Cleveland and Green-Meehan Show Strength in the Cobalt Shares.

World Office, Monday Evening, April 22. The market for mining shares was tinged with an undertone of strength to-day and a fair resistance was shown to the liquidation. The selling was largely for tions. Nipissing was strong on the New York cure and the advance was classly to loved at the Toronto "xchange. This gave a certain amount of tone to the less nigh priced shares, and any further rise in the Premier Cobalt issue is expected to exert a strong influence on the whole narket. The majority of the transactions on the local exchange was in Foster 5.0 k, which lost a few points from the opening price. Cleveland and Green-Michan we've much firmer, particularly the former, the demand for which is coming mainly from clents in the States. The markets closed steady with more evidences it strength than weakness.

MACHINERY ARRIVING. Cold Snap Enables Mines to Get in Supplies.

* COBALT, April 22.—(From the Man on the Spot.)—A spell of cold weather nere has succeeded the spring weather that we had a couple of weeks ago and while this will probably mean a hardship to the many tenderfeet who have gone out prospecting, it is enabling the outlying mine and prospectiveness to get in delayed supplies. it is enabling the outlying mine and pros-pect-owners to 'get in delayed supplies. Chas, Giffard of the Victoria is one of the mine-owners pleased at the opportunity to get in his new plant, which arrived last week. The two 50 h.p. bollers, a six-drill compressor and a mean hoist are being taken out to-day. The Right of Way Min-ing Conjany has its 100 h.p. boller at Co-balt Station and the frame work of the new shaft house is no. new shaft housy is up.

The find at the Cobalt Central is one of C. P. R.

LA ROSE V. RIGHT OF WAY.

OlTAWA. April 22 — Engineers descending from the Right of Way shaft into La Rose workings, report that La Rose is called have removed ore for 117 feet of drift, average 12 feet high, with probable value of \$500,000. Recent rumors have it that La Rose vein is more strongly develored on Rights of Way ground than in La Rose property proper.

Of Interest to Miners and Investors

The North Ontario Reduction & Refining Company, Limited, who are installing a plant for the refining of Cobalt and other ores at Stargeon Falls, have their buildings, including a laboratory and sampling plant, just about completed and have contracted for all their machinery, which will be installed as rapidly as possible. They expect to be ready to receive ore some time in June.

This is the first refining plant to be erected in the Province of Ontario, which should enable the Company to secure the bounty offered by the Ontario Government, which amounts to \$165,000 a year. This will pay thirty per cent, on the entire capital. In addition to the bounty, enormous profits made by refiners will-enable the Company, with its low capitalization, to pay very large dividends.

We advise you to investigate this proposition. As a bone fide investment it has no equal. Prospectus and full information will be mailed on application to

F. ASA HALL & CO. MEMBERS STANDARD STORE

609 Temple Bldg., Toronto Phone Main 2385.

The Cobalt Development Company

A few thousand shares of this stock is still left, at the first price-20 cents a share. \$20.0 will buy one hundred; \$200, one thousand and \$2000 ten thousand shares. This stock will be advanced to 25 cents per share on May 1st, and will shortly be listed on all Canadian and American Curb Markets.

Write for Prospectus and Maps-or better still, wire orders, as we reserve the right to return all money in excess of our allotments All drafts, checks, etc., may be made payable to the order of Owen
