

THE STREETVILLE FAIR

Was a Huge Success in Each and Every Particular.

An Ideal Fair Ground, With a Natural Grand Stand—List of Competent Officers—Horse Racing of an Exciting Kind—Exhibits Above the Average—A Big Crowd.

(By Our Own Reporter.)

The third annual fair at Streetville of Toronto Township Agricultural Society, held yesterday, may be called the third success.

Streetville possesses direct from the hand of nature an almost perfect fair ground, "The Flats," a local term, is a huge table of green sward, from which rises on one side a lofty bank, much higher than any ordinary grand stand, and the authorities of the fair, by merely erecting seats there, have secured the advantage of a perfect amphitheatre, which will accommodate fully 12,000 persons, and from which the most intimate details of a spirited horse race can be seen. The River Credit flows at the other side, furnishing readily available water for the stock, and discounting any barbed wire fences, as far as little boys are concerned.

A Big Crowd.

There were about 4,000 people moving about the grounds yesterday, over four times the population of the village. The hotel and the houses, church sheds and vacant fields were thick with wagons and horses. A special train, carrying about 200, went up from Toronto at 1 o'clock, and the contingent also came from the city. The fair ground is a very satisfactory condition. The aged men's home was opened a few days ago under very favorable auspices, and the directresses would ask from the citizens of Toronto the same amount of public interest, both in the matter of the home and success in only a matter to be recorded.

The day was almost perfect, a little raw towards the end, but the interest was unabated from start to finish.

The officials who contrived to make the fair a success are: President, J. D. Orr; first vice-president, W. C. Brown; second vice-president, T. W. Hollings; secretary, J. J. Stewart; treasurer, W. J. Graydon. Directors—George Irwin, Mount Charles, Robert Street, John Leckie, Clarkson, John Graham, Harry West, A. S. Thompson, Haulan, C. H. Anderson, Streetville, James Allison, Burnhamthorpe, Thomas Oliphant, Clarkson.

Busiest Man in Town.

One of the busiest men on the ground was President Orr of Meadowdale, in a light coat, that made him an easy mark for those in want of anything, and it was said that a great deal of the success was due to the hard work and energy of this gentleman.

He did all kinds of things, even to forcing open a horse's mouth after a race and declaring said horse to be going on 8, having seen that one mark that a horseman the age of 5 has been irreversibly passed. There was a noisy, almost comical, scene on the ground, only a simple, fuzzy-headed fellow to be kicked over with a hard-headed baseball, and even then the fellow was not the man to get it. Fakers have been ruled out.

Then, of They Went.

The most exciting part of the program was the speeding in the ring over the third of a mile track. The race was a little heavy from the rain, furnished excellent sport. The farmers' race was very keenly contested, and each of the finished topics for the whole gathering. The result was:

Little Friday, driven by W. J. Steen, 1. Billy Black, Tom Williamson, 2. No name, by William Shaver, 3. Nigger Boy, M. Soper, 4. The other events resulted:

Any race—B. F. Duck, 1. T. Armstrong, 2. M. Decker, 3. Robert Steen, W. Steen and C. J. Fernald also entered.

2.35 foot, R. J. owned by Tom Robinson, 1. Little Fred, 2. J. J. owned by W. J. Steen, 3. Little Marie, Charles Strong, also finished. Fastest clock under 4 years—William Shaver, 1. T. Armstrong, 2. M. Decker, 3. Robert Steen, W. Steen and C. J. Fernald also entered.

Fastest clock, by Criticism—Albert Quibel, 1.

An exciting race was the fastest half-mile and twice around the ring. The winner started in a cool, collected manner, and the word was given, and was half around the ring before the next started.

W. Steen 1, W. Decker 2, Newman 3. The horse McCormack gave a speed exhibition on the track, going in less than his second slowest than his own record.

Abie Judges All.

The judges were Messrs. S. McClure of Woodbridge and Robert Johnson of London, and they certainly had their work cut out for them, having frequently to ride points for which there was no precedent, but they are both keen and experienced, and gave a most satisfactory verdict.

The other sections of the fair were to a high standard. There was a larger and finer entry of horses than any year that has been held in Canada, heavy draught, general purpose or agricultural, carriage and road.

The cattle were very fine, especially in Durham and Jersey. There was a keen competition; indeed, a well-known breeder remarked that it was keener than at Toronto.

And There Was Fowl.

A fine lot of birds was on view in the poultry, both chicken and water. There were many Brahmas, Leghorns, and some of the choicest little bantams one could imagine. The birds were all well, and looked like well-bred fowls, their feathers being of the most transparent, pearly-like structure.

The grain was good, as were the roots and fruit, though the apples have been kept back somewhat, and the quantity of the numerous on the fine dairy produce, implements and other articles was very good, and what appealed especially to the ladies, the ladies' work, useful and fancy, like our grandmothers' and great-grandmothers'.

On this subject the most judgment is to be ignored. The decision of a lady viewer, therefore, was that the draw work was beautiful, the knitted slippers lovely, and the knitted mitts and socks something to long for.

The quilts, in fancy square and diamonds, wonderful. The adjectives, like the opinion, are feminine.

The paintings were not so good, nor the drawings, although exceptions existed; but, altogether, Streetville Fair is not inclined to take backward from anything or anyone in the business.

Merry Dinner on Chelona.

The officers and crew of the Chelona held their annual dinner about 6 o'clock, evening. Rev. Charles Ingersoll prepared the toast in an admirable manner. A short program of songs, stories and recitations was given by the members. Mr. W. E. Tibbitts, Captain Clapp, Mr. A. J. Doherty and Mr. W. T. McKnight spoke. All the officers were given prizes for the work they had done during the season. The first officer, Mr. C. J. Smith, was presented with a beautiful locket by Mr. Thomas Connors, worth on behalf of the officers and crew. Among those who were present were Capt. Robert Clapp of the Chelona, Chief Engineer H. T. Parker, First Officer Charles Smith, Second Officer James Pallen, Baggage Agent W. E. Tibbitts, Miss Peake, stewardess of Chelona, and Miss Gwyn, stewardess of Chelona; James Richardson, first officer of Chippewa, Richard Moynes, steward of Corona, and Robert Haynor, baggage agent of Chippewa.

Royal Arcanum.

After the close of the regular fortnightly meeting of Canada Council, No. 612, Royal Arcanum, to-night (Thursday), there is to be a smoking concert and card party, which will, no doubt, be very well patronized.

ROMAN CATHOLIC ARCHBISHOPS

Met in Washington Under Auspicious Conditions—Apostolic Delegate Appointed for Cuba.

Washington, D.C., Oct. 12.—The annual meeting of the Archbishops of the Roman Catholic Church began at the Catholic University today, under peculiarly auspicious circumstances. Just prior to the opening session Cardinal Gibbons, who, as Archbishop of Baltimore, is presiding officer of the Archbishops, received a cable despatch from Rome, announcing that Pope Leo had appointed Archbishop Chappelle of New Orleans as apostolic delegate to Cuba. This was the first official act of the Vatican toward meeting the important new conditions in the Antilles arising out of the war. Archbishop Chappelle happens to be in Rome at the present time, and the despatch came from him. It stated simply that His Holiness had made the appointment, without going into details. It made reference to Porto Rico, so that the scope of the special mission is confined to Cuba. Archbishop Chappelle will retain his present position at the head of the New Orleans Archdiocese, the mission to Cuba being in addition to his other duties. He is a linguist, speaking both Spanish and French, so that his work can be prosecuted under favorable circumstances. The sessions were private, and it was stated at the noon recess that nothing but routine matters of the officers and crew of the organization, discipline, etc., has been taken up.

AGED WOMEN'S HOME.

Annual Meeting—Officers Elected—General Business Transacted.

The Toronto Industrial Refuge and Aged Women's Home held their annual meeting yesterday afternoon at the home, 100 Belmont-street. The various reports were read and passed and the institution was shown to be in a very satisfactory condition. The aged men's home was opened a few days ago under very favorable auspices, and the directresses would ask from the citizens of Toronto the same amount of public interest, both in the matter of the home and success in only a matter to be recorded.

The day was almost perfect, a little raw towards the end, but the interest was unabated from start to finish.

The officials who contrived to make the fair a success are: President, J. D. Orr; first vice-president, W. C. Brown; second vice-president, T. W. Hollings; secretary, J. J. Stewart; treasurer, W. J. Graydon. Directors—George Irwin, Mount Charles, Robert Street, John Leckie, Clarkson, John Graham, Harry West, A. S. Thompson, Haulan, C. H. Anderson, Streetville, James Allison, Burnhamthorpe, Thomas Oliphant, Clarkson.

Busiest Man in Town.

One of the busiest men on the ground was President Orr of Meadowdale, in a light coat, that made him an easy mark for those in want of anything, and it was said that a great deal of the success was due to the hard work and energy of this gentleman.

WHAT HAULTAIN SAID.

Wants Only One Province Between Manitoba and the Rockies—His Remarks About Major Walsh.

Winnipeg, Oct. 12.—Premier Haultain in an interview to-day, indicated that in approaching territorial questions he had no terrors for him. Mr. Haultain's idea is that there should be but one province between Manitoba and the Rockies. He does not favor the extensions of Manitoba's boundary westward.

He says that the Territories have now nearly all the freedom of provinces, excepting borrowing power. The next step he looks for is the admission of the Territories into the Dominion as a full-fledged province.

Upon the question of what he said about the conduct of Major Walsh in ignoring territorial liquor licenses in the Yukon, Mr. Haultain says he was misrepresented. He never said that he would have Major Walsh impeached. What he said was that if a high official were guilty of such a thing, he believed he was, he should be punished; and if the Criminal Code did not supply sufficient machinery for this purpose he should be impeached.

OWEN SOUND NEXT YEAR

Gets the General Conference for 1899—Mission Committee Met Yesterday.

The Mission Committee of the Toronto Methodist Conference met yesterday morning at the home of the Rev. J. J. Graydon. The committee had before it \$11,510.15, a single ordained man, \$400, and single ordained men, \$250. The appropriation for the year was \$10,000, the balance being due to additional funds being opened, \$1,510.15. The committee was divided into three sections, the first for the year, the second for the year, and the third for the year. The committee was divided into three sections, the first for the year, the second for the year, and the third for the year.

HE WAS A CANADIAN.

Mr. William Machan, Veterinary Surgeon, Fatally Crushed in New York.

New York, Oct. 12.—Mr. William Machan was called last Wednesday to treat a heavy-draught horse in the city. He was in the act of applying a hypodermic injection of chloride boricum when suddenly the horse dropped dead. The animal bore down on him, and he was crushed under its hoofs. He was fatally injured, and died the following day.
