Fall Hats in the Men's Store.

The Autumn styles in headwear for men, as the leading hat men of London and New York have set them, may now be seen to full advantage in the Hat Department of the Men's Store. It is quite evident that shapes run this year towards the quieter and smaller styles. All the more difficult to select the Hat that suits your particular need and yet gives you a little touch of distinction. All the more important then that you come here to look for what you want, where all best blocks are represented, where it is perfectly understood that the Hat that suits one man won't necessarily fit another, though both take the one size. Here you may get the best blocks of London and New York at popular prices.

Bleached Table Cloths Half Price.

"Seconds" is a technical objection only when it comes to classing such Table Cloths as these. They each have some little so-called imperfection, (plainly marked by a colored thread in each case.) If you were looking for imperfections and were used to handling Linens you might see some of them, not all. You'd need a weaver's glass to detect the flaws in many of them, Sometimes it's only an unbleached thread showing up, a thing that one washing would cure. But they were all marked as "seconds" by professional "examiners" and so they come to us cheap. Of course that means a chance for you, Really it's a delightful chance for the first 300 ladies who come Tuesday.
