London, Feb. 1.-According to a special dispatch from Shanghai, the critical point of the Chinese loan negotions was Great Britain's insistance that the British should always remain at the head of the Yang Tse Kiang Valley customs, and assume their full administration in case of default. The dispatch adds that several thousand Russian troops, which have been guarding the Trans-Siberian Railroad, have entered Manchuria with the consent of the authorities at Pekin.

ROUGH ON LOCUSTS. London, Feb. 1.-Important experiments dealing with a plague of locusts are reported from South Africa. Mr. Edington, director of the bacteriological institute of the Cape Town government, has succeeded in destroying millions of insects by inoculating a few and turning them loose. He makes a sort of toxin by grinding up the bodies of locusts which have perished of disease. The resulting powder is mixed with water and smeared over the bodies of a few hundred locusts, which are released. The disease soon spreads, and the swarm all perishes. MISMANAGEMENT IN INDIA.

morning publishes the diary kept from Dec. 18 by Gen. Sir Henry Havelock-Allen, who was killed by rebellious tribesmen on the Indian frontier last month. He lengthily recorded his impressions of the campaign, and the general situation on the frontier. Writing from Peshawur three days before his death, he said: "The whole thing has been a dead failure from being undertaken on too small a scale, and without adequate calculation. It will be a costly mistake. The burden will fall on the overtaxed Indian people, who are already broken down by famine and pestilence and the beginning of sedition. A strict account ought to be demanded in parliament of the causes of the deplorable failure. The mistake must have originated from some controlling influence at Simla or Calcutta being used to thwart the military commanders, or, what is less probable, by orders from home not to make a big job of it. What would be the state of things if it had occurred three or four months hence, when we, perhaps, are engaged with Russia, whose advance parties were stirring up strife and unsert among these Afridi tribes who

No British Warships at Port Arthur -Denial That There Is an Anglo-

Japanese Understanding. London, Feb. 1.—It is announced that the talk of an Anglo-Japanese plan of campaign in certain eventualities is unfounded. No such matter has occupied the attention of the statesmen of the two countries, and no agree-ment exists between England and Japan, except the common desire to secure the free development of trade in China. As regards Port Arthur, the Russian fleet, according to the same authority, is only there for winter quarters, and the statements as to a Russian occupation are unfounded. China is willing that the English warships should anchor there, if secured. REV. W. F. WILSON ON THE

THEATER. Hamilton, Feb. 1.—Wesley Methodist Church was crowded last evening, when Rev. W. F. Wilson, the pastor, preached on "The Influence of the Theter." His sermon was based on the 8th verse, 4th chapter, of Philippians, and while he did not roundly condemn the theater, he pointed out various ways in which its influence was bad. He condemned the theater on four counts: 1. Because of its general condemnation by the best people of all classes and in all ages. 2. Because of its general surroundings. 3. Because of the character of many of its productions. 4. Because of the evil effects on those persons connected with it. In enlarging on these points he referred to the shameless posters placarding the streets, there not being ink black enough to write the
