FERTILIZER VERY SCARCE

(Frederick Gleaner.)

The Gleaner's attention has been called to the serious situation confronting farmers who are building their soil on potash. The fertilizer outlook is gloomy. It is a very forbidding way, and is presenting a situation which does not look good.

All farmers know that there was a tremendous scarcity last year, and a considerable advance in price. This season there will be a greater scarcity than last and an increase in price of at least one-third over last year's figures.

There are several causes contributing to the situation. One is the difficulty of transportation. Many of the elements entering into the manufacture of high grade fertilizer come from South America. It is almost impossible to get ships now to deliver the nitrate from those ports to the factories. Potash, of course, is out of the question, that being chiefly a German product, the small supply in the United States not being sufficient to keep factories going.

The acid phosphate, usually coming from the United States to Canadian factories, is being curtailed, and, in fact, there is talk of an embargo being placed upon it.

By this it will be seen that the manufacturers are up against it hard and fast and the goods are not to be had.

Facing Desperation

"What made Miss Oldgirl decide to become a war nurse?"

"Well, she has been a candidate for matrimony for a good many years, and somebody told her that the men in the trenches are desperate enough for anything."

WAR MENUS

How to Save Wheat, Beef and Bacon for the men at the front. Issued from the Office of the Food Controller for Canada.

Instead of beef or bacon tomorrow serve creamed human haddie.

Creamed Finnan Haddie

Four boiling water on the human haddie. Leave a few minutes, and pour off. This takes away the strong smoky taste. Lay the fish in a baking pan and cover with milk. Cook gently in the oven until done. Make a white sauce, in the milk that is on the fish. To one cup of this milk use two tablespoons of flour, two tablespoons of butter and one-eighth teaspoon of pepper. Carefully remove the bones from the fish, breaking the fish as little as possible. Add this flaked fish to the white sauce. Re-heat and serve at once.

Save wheat flour by making more use of cornmeal.

Try Cornmeal Gems

Cornmeal, 1/2 cup; flour, 1 cup; milk, 1/2 cup; baking powder, 3 teaspoons; eggs, 1; sugar, 1 teaspoon; melted dripping, 1 tablespoon; salt, 1/2 teaspoon. Mix and sift flour, baking powder and salt; add sugar, milk, egg, well beaten and melted shortening. Bake in greased gem pans in a hot oven.

Dr. A. M. Fisher Killed in France

Son-in-Law of Hon. F. B. Carvell Gives His Life While on Duty at the Front--His Career

A telegram received yesterday by Mrs. Fisher, of Woodstock, wife of Dr. Arthur M. Fisher, and daughter of Hon. F. B. Carvell and Mrs. Carvell, conveyed to her the stunning news that her husband had been killed while on military duty in France on Friday, October 12. No further particulars were given. Mrs. Fisher had just returned to Woodstock after motoring with her mother to Danforth (N.B.), to meet Hon. Mr. Carvell on his return from Ottawa, where he had recently been sworn in as minister of public works in the new union government, when she got the message telling of her husband's death. It came as a terrible shock. The sympathy of a wide circle of friends, both in this province and in Upper Canada, will go out to her in her bereavement.

Hon. Mr. Carvell left Ottawa Saturday afternoon for home and in order to make connections by arranged for his automobile to meet him at Danforth (N.B.). Mrs. Carvell and Mrs. Fisher went with the car to Danforth and the party motored back to Woodstock by way of Hamilton. On their arrival in Woodstock they got the news of Dr. Fisher's death. Mr. Carvell had planned to be in St. John tonight, but his arrangements are now unsettled.

Before going overseas, Dr. Fisher, who was a graduate of McGill University, was a young surgeon on the staff of the Royal Victoria Hospital in Montreal. He was recommended by his chief to be one of the four surgeons from Canada to join the British medical forces. He crossed to England in the summer of 1915, and for a long time was medical officer on a large transport running between England and Alexandria. This steamer was torpedoed and Dr. Fisher barely escaped with his life, losing all his belongings when the vessel went down. He continued in this service until he was compelled to undergo a very serious operation for an intestinal malady which attacked many surgeons and others in the Mediterranean and Bombay service. After he recovered so that he could make the journey he returned home and spent part of the summer of 1916 recuperating in Carleton county where his wife and mother were. His wife had spent the winter and spring of 1916 in England. In the fall of 1916 Dr. Fisher returned to his old duties overseas, and later went to France.

Dr. Fisher's father, who is not now living, was a former collector of customs at Woodstock. He was married to Miss Carvell a short time before he left for overseas. His widow is the only child of Mr. and Mrs. Carvell.

FURTHER ACTION IN PROTEST AGAINST SENDING OF FATHER LANDREAU TO FORB CITY

Chatham, Ont., Oct. 15.—French-speaking residents in the vicinity of Paincourt yesterday endorsed the opposition which has developed against Bishop Fallon since the Ford City incident of Sept. 8, when it is alleged, riots were precipitated when Father Landreau was sent to that parish as successor of the late Father Beaudoin.

A thousand or more gathered yesterday on the school grounds at Paincourt and adopted a resolution which it was agreed to remain away from church if Bishop Fallon were present.

URUGUAY STRONG FOR ALLIES' CAUSE

Fervid Words of President at Big Manifestation on Break From Germany

Montevideo, Oct. 15.—At a great public manifestation organized on the occasion of the rupture of diplomatic relations between England and Uruguay, the president of the republic, reaffirmed the sympathy of Uruguay for the Belgian cause and the solidarity of the republic with the countries which are fighting for the cause of justice and right.

"When the sovereignty of Belgium was violated," he said, "I knew that the spirit of neutrality was no longer possible. I knew with what profound anxiety you were awaiting this time when the government would answer your thoughts and your feelings by international action.

"People of Uruguay! The hour has struck, we are no longer indifferent to the foremost struggle in which justice and democracy are writing under automatic oppression. That is fulfilled the hour we are summoned in the name of supreme interests by the noble President Wilson, who translated into facts our deep rooted principle of continental solidarity."

SPECIAL EVENTS IN THE CHURCHES

The first Sunday in the Dominion wide missionary effort, undertaken by the Methodist Churches of Canada, was marked yesterday by changes in the pulpits. The city pastors went to the surrounding districts and the country pastors filled the city pulpits. This effort has been undertaken for the purpose of raising an additional \$100,000 for missionary work, in order to extend the work in China and supply better salaries for the workers now on the field, St. John district aims to pay, as its share, \$5,500.

Before the war Captain Jones was the pastor of the Congregational church in Westmount, Montreal. He spoke last night on the work that the military Y. M. C. A. is doing overseas. Captain Jones has been with the military Y. M. C. A. since the outbreak of the war.

VETERANS ORGANIZE AT CHARLOTTETOWN.

T. P. O'CONNOR ON HOME RULE

Three Channels Through Which He Says Liberation of Ireland May Come

Chicago, Oct. 15.—The liberation of Ireland will come through the present convention, through prompt action of the British government or through the peace conference that ends the war, according to T. P. O'Connor, in an address delivered on Saturday before the Irish Fellowship Club here.

He charged England with oppressing Ireland as severely as "any nation now under Germany's yoke," but declared the only obstacle to a free Ireland were England's mistakes since the war and the Sinn Fein policy which, in his belief, "has arrayed Ireland against all the civilized nations in the world."

He had come to America, he said, to speak against this policy, which he demanded be abandoned, "rather than raise America as an enemy to Ireland."

After such a conclusive proof of the real position in which the Irish in this part of America stand, declared Mr. O'Connor, it will no longer be possible for a small but noisy faction to misrepresent Irish sentiment.

BROAD WAR POWERS

Trading-With-Enemy Act in the United States

Washington, Oct. 15.—Broad war powers conferred upon the president by the trading with the enemy act, were put into operation under an executive order issued last night delegating the authority to various government departments, and a newly created war board. This board is composed of members of the exports administration board, which it will replace, with the addition of a representative of the trade board. It will continue to license exports and will exercise a similar control over imports so soon as the president proclaims, under authority of the trading with the enemy act, the articles to be so restricted.

Trading or commercial dealings of any nature with any enemy company or agent in this country or abroad is forbidden except under license of the war trade board, which also is authorized to license enemy or "ally" of enemy companies doing business in the United States, except insurance companies whose supervision is entrusted to the treasury.

BOSTON GROCERS TO MAKE CHARGE FOR DELIVERIES.

Boston, Oct. 15.—The Boston Retail Grocers' association has voted, in the interests of obtaining economy in delivery service, to have all stores represented in its membership charge at least five cents for every delivery of an order amounting to less than fifty cents, effective Nov. 1. The association has 600 members.

A Possible Reason.

"Wonder why Justice is represented as a woman?"

Perhaps because it is something a man is always after."

FIRE BUGS AT WORK THERE

Incendiarism Suspected in Fire Which Destroyed Export Grain at New York

New York, Oct. 15.—Reports of incendiarism in connection with a disastrous waterfront fire which destroyed an elevator and nearly 700,000 bushels of grain in Brooklyn on Saturday were revived last night when the fire commission issued a statement saying that the cause of the blaze would be rigidly investigated. The property loss was estimated at more than \$1,200,000.

"There have been fifty-eight waterfront fires in New York city lately," said Chief Kenton, "and it is impossible that all resulted from natural causes."

The grain consumed on Saturday was intended for export.

NEW HOME FOR NEW YORK SUN

Frank A. Munsey has purchased the famous old Stewart building on the east side of Broadway, New York, covering the block front between Chambers and Reade streets, and facing City Hall Park, for a price reported to be between \$8,000,000 and \$8,500,000. He plans to improve the site with a tall office building which will be the new home of The New York Sun and The Evening Sun, both of which he is the publisher and owns the controlling interest. The building will also house Munsey's Magazine and other Munsey publications.
