

WHEN THE "BOYS" RETURN TO CIVIL LIFE

They will continue to wear shoes of the "Army Type"—and we will continue to keep "stocked up" on this popular shoe.

We carry the Famous "Slater" line of Military Footwear and in it we have a Heavy Type, that is as near waterproof as any leather boot can be made. We have sold several hundred pairs of this shoe since the European War started, and have been more than pleased with the results obtained. The price of this shoe is \$8.00.

We also carry a Lighter Weight boot for Dress Wear—very comfortable, having plain toe and no toe box. Price \$9.00.

FRENCH OPINION ON BRITISH ELECTIONS

Satisfaction at Lloyd George's Triumph and Appreciation of His Statesmanship

French papers comment on Mr. Lloyd George's success in the British elections as follows:

Le Temps.

This is the most satisfactory occurrence since the signing of the armistice. What a recompense for military valor and political courage! Mr. Lloyd George and his colleagues tried the greatest experiment in electioneering that has ever been attempted. They appealed to the country before peace was concluded. They granted women the right to vote and to stand for parliament. What was the result? After the most correctly managed campaign in the history of the man, the government has achieved a victory which surpasses all its expectations. To think that Mr. Lloyd George and his colleagues were preparing for this since last August. They certainly could not tell that the war would be won during the first fortnight of November. The soldier and women voters will undoubtedly have contributed largely to this triumph of patriotism and good sense. The result of this brilliant victory is the personal prestige of Mr. Lloyd George and the world-wide prestige of Great Britain have been strengthened.

Out. Mr. Lloyd George is one of the most clear-headed statesmen in Europe. In spite of the fact that he has made several mistakes, notably with respect to the importance of the Salonika expedition. As regards home politics, however, he has shown himself to be clearly in favor of active Socialism, and he has carried along with him the Conservatives, who were glad to put up with some sacrifice in order that England might gain thereby.

Le Matin. The result of the English elections shows that Lloyd George achieved a sensational victory. This great success will give to the British government enormous power when peace is signed. When one examines the details of the elections, the significance of this great expression of popular opinion becomes even greater. The elections show that the English people approve of the man in whom Lloyd George has managed the war, and that they trust him to make a lasting peace worthy of the sacrifices of the British Empire.

Le Journal. Lloyd George knew what he was about when he hurried on the election, in spite of the complications of the new register. This helped the "FIRST DAY." Because Adair-Lima flushes the ENTIRE lower tract completely, it relieves ANY CASE of constipation, gas or indigestion and prevents appendicitis. The INSTANT action is surprising. J. Benson Mahony, druggist.

Coalition which united a handful of Radicals with a large body of Unionists. This war has shown that Mr. Chamberlain was a sound prophet when he urged the political and economic union of Great Britain and her colonies, the formation of a self-supporting empire. Lloyd George has adopted an empire policy, enlivening it by an infusion of democratic radicalism. The history of British politics consists of such evolutions.

AN ENEMY OF WOMANHOOD
The complexion, digestion and almost the complete personality of woman are dependent upon health. Woman's ills are her great enemy, as they cause bad complexion, dark circles under the eyes, headache, backache, nervousness, sleeplessness, dragging-down pains and the blues, and often totally unfit her for a companion. The great American remedy for such conditions is Lydia E. Pinkham's Vegetable Compound, which has been restoring three generations of ailing women to health, and may be relied upon with perfect confidence.

A DAUGHTER OF THE REGIMENT
(From the Philadelphia Ledger.) Princess Patricia of Connaught, whose name was given to one of the most glorious of the Canadian regiments will be married to a commander in the Royal Navy. Her name in itself a vivid reminder of that great day in Lansdowne Park, Ottawa, at the outset of the war, when the princess gave the regiment its standard with the words: "I have great pleasure in presenting you with these colors, which I have worked myself. I hope they will be associated with what I believe will be a distinguished corps. I shall follow the fortunes of you all with the deepest interest, and I heartily wish every man good luck and a safe return. Nobly the "Princess Pat" justified the confidence of one who became their patron saint—their second Jeanne d'Arc. They went to the front at the end of the year. In action at St. Eloi in March, 1915, they were the first overseas contingent from any of the Dominions to be engaged. After Ypres, May 4 to May 8, 1915, only four of the officers remained in active service, and by mid-summer the regiment is said to have had eight left of its original membership, which at Ypres was 700 strong. Canadians and Americans as well as their brethren of the allies who have had any part in the fighting in Flanders will rejoice in the happiness that has come to their honorary colonel—a crown more desirable than any diadem of rank or royalty.

MAY REFUSE GAS FOR INDUSTRIAL USE

"I had stomach trouble so bad I could eat nothing but toast, fruit or hot water. Everything else soured or formed gas. I was miserable until I tried simple buckthorn bark, glycerine, etc., as mixed in Adair-Lima. This helped me. The FIRST DAY." Because Adair-Lima flushes the ENTIRE lower tract completely, it relieves ANY CASE of constipation, gas or indigestion and prevents appendicitis. The INSTANT action is surprising. J. Benson Mahony, druggist.

SPECIAL TO LADIES ONLY.
We like to have you one and all call and see our sale of coats. See Lesser's adv. on page 28.

Your hands are in your pockets most of the time these days. Wear Ballantyne's Scotch Knit Gloves this winter and if your hands are still there it won't be because of the cold. And they'll enable you to beat out "rising prices" in regard to gloves. Ask for Ballantyne's. R. M. Ballantyne, Limited, St. John, N.B.

DAILY FISH BULLETIN

Issued by Canada Food Board

LESS SALMON; MORE COD.

The Canadian public has had a decided leaning towards canned salmon, a taste which will have to be diverted to other kinds of fish now that the British government has bought most of the Canadian salmon pack. Sockeye will be practically off the market but such fish as cod, haddock and Pacific flatfish should be used in unprecedented quantities to make up the deficit in fish. These latter varieties are a good deal cheaper than salmon and are just as nutritious.

THRIFT RECIPES

Issued by Canada Food Board.

VEGETABLE HASH.

Cold cooked vegetables.
Enough milk or water to moisten and small quantity fat.
Heat together in a frying pan—
2 cups diced cooked potatoes.
1 cup diced cooked carrots.
1 cup diced cooked turnip.
1 cup tomato.
2 tablespoons onion.

Food Board Flashes

The Efficiency Girls' Clubs of New Brunswick have done a remarkable amount of good work during the last year in aiding the cause of conservation and production. Organized primarily as war-time emergency clubs it is altogether likely they will now become permanent. There are 284 of these clubs throughout the province with a membership of something like 17,000. School garden plots and the raising of chickens were encouraged last year, while this winter special attention is being given to the question of school lunches and demonstrators have already got the scheme under way in the rural schools.

PROHIBITION'S YEAR

(Christian Science Monitor.)

The liquor interests of the United States are being driven to the wall. Before the year 1919 shall have passed away the manufacture and sale of intoxicants within the borders of the country will have been to all intents and purposes, forbidden constitutionally, although the dry amendment to the national constitution cannot become operative within less than twelve months after the date on which the last of the necessary thirty-six states shall have ratified the measure. It is reasonable to expect that before the end of next March the required three-fourths of the legislatures of the country will have passed favorably on the amendment. Meanwhile the prohibition sentiment of the nation is manifesting itself, even in a practical fashion, in other particulars. The manufacture of spirituous liquors and of beer has been suspended by congress, the federal bone-dry law becoming effective July 1, and while this suspension is due to war exigency, and therefore is temporary on its face, there is little probability that either of these industries will ever be resumed.

It would be building upon sand, however, to trust in anti-liquor legislation, or even in an anti-liquor constitutional provision, if public opinion were in any considerable degree antagonistic or indifferent to the prohibition movement. Means might be found by the fireless agents of the liquor interests to defeat both constitutional and statutory law against their traffic, if the public were in the future, to extend toleration or mild encouragement to their underground methods. But popular sentiment in the United States is positively against any further temporizing with the trade in intoxicants. In proof of this, it is necessary only to turn to a summary of results attained by the dry movement to

Winter's Activities Bring Into Prominent Relief the Need of Pretty Afternoon and Evening Gowns

Darker colors for Fashionable Afternoon Dresses are now decidedly in favor. Our present stocks of Navy and Black Crepe de Chine, Georgette Crepe, Charmeuse Satin and Taffeta Silk will meet almost any demand. Beaded and Braided Overdraperies, Tunicas, and Panels are all featured in these dresses, and in relief to the dark shades being used, Fashion's Victory colors, including Alsatian Red, Dare-Devil Blue, Cherry Red and Algerian Blue are used in pleasing contrast. Fringe is still popular and is seen on many of the most charming models.

Rich and dainty shades are used for the New Evening Gowns, with many novel ideas as to trimmings. One particularly striking model is made in maize Taffeta trimmed with narrow frills of fringed silk. Another is developed in White Georgette Crepe trimmed with Ostrich feather fringe.

Lavender Charmeuse Satin is the material used in another of the handsomest gowns. This is fashioned with a smart surplice waist and is trimmed with silver lace and beaded panel. Other late innovations are in sky, taffeta, melon, crepe de chine, black net, etc.

date, and especially to put the advancement made during the year just ended, when 460 counties in the United States, of their own volition, and a matter of local judgment, were added to the number already dry, bringing the total of dry counties in the whole nation up to 4,240, as against 821 wet. This is a purely independent showing. That is to say, the counties referred to would be dry regardless of the attitude toward prohibition of the states in which they are situated.

But, sooner or later, county dominates state sentiment. So it has been proved during the last twelve months in Ohio, Florida, Wyoming and Nevada, the four states which 1918 contributed to the dry column, making the total of such states thirty-one out of a possible forty-eight. The remark just made with reference to the independent position of the counties may be properly extended here. That is to say, the thirty-one states now dry will remain dry even in the next-to-impossible event of the rejection of national prohibition. More than this, the two states which rejected state-wide prohibition last year, Missouri and California, have elected legislatures favorable to the ratification of the national prohibition amendment.

Since Mississippi, on Jan. 9, 1918, ratified the prohibition amendment to the federal constitution, Virginia, Kentucky, South Carolina, North Dakota, Maryland, Montana, Texas, Delaware, South Dakota, Massachusetts, Arizona, Georgia, Louisiana, Florida, and Michigan have followed, in the order named. Twelve of these states ratified in the spring of 1918, and four of them since May. It should be said that, apparently, the only reason why more states did not ratify in 1918 was that only a minority of the legislatures assembled. This year the great majority of the legislatures will meet, most of them during the present month, and it is not unreasonable to expect that, hardly with exception, they will make ratification of the prohibition amendment to the national constitution a matter of course and dispose of it without delay. Prohibition in the United States is practically assured.

SICK HEADACHE and CONSTIPATION CURED BY MILBURN'S LAXA-LIVER PILLS
When your liver becomes sluggish and inactive, the bowels become constipated, the tongue becomes coated, the breath bad, and the stomach all out of order. Then comes those terrible sick headaches. They take out every bit of life and ambition, bring on depression, and often end in complete mental and physical prostration.
To keep the liver active, and your bowels moving regularly is the only way to get rid of the constipation and the distressing sick headaches. Milburn's Laxa-Liver Pills will do this for you by stimulating the sluggish liver into manufacturing sufficient bile to set properly on the bowels, thus making them active and regular.
Mrs. Winslow McKay, Jordan Branch, N. S., writes: "I have been sick for a number of years with sick headache and constipation. I tried all kinds of doctored medicines, but none did me any good. I tried Milburn's Laxa-Liver Pills and after using four vials I am completely cured. I would heartily recommend them to all sufferers."
Milburn's Laxa-Liver Pills are small and easy to take, and do not grip, weaken or sicken as so many pills do. Price 25c. a vial at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

ORIGIN OF KHAKI

Several years ago in India, a company of English troops grew weary of exposing themselves in white cotton uniforms to the fire of the enemy snipers. So they adopted nature's good old law of protective coloring and daubed their uniforms with mud from the banks of the nearest stream. Those who directed the affairs of the army in India heard of this camouflage and proceeded to make some interesting experiments. What they discovered evidently pleased them, for eventually a uniform of this color as a standard was adopted for all the troops in active service in the east. Khaki, the name given the color of the new uniforms, is the Hindi word for muddy—Capper's Weekly.
