IT'S HARD TO GET TO RIDEAU HALL

Coming of Royal Prince Makes a Difference

GUARDS IN GROUNDS

Ottawa People Find That Privileges They Enjoyed Are Cut Off and One's Business Must Be Disclosed Before Any Progress is Made

(Canadian Press) Ottawa, Ont., Oct. 31.—Ottawa as now beginning to realize the effects of having a prince of the blood as governor general of Canada, and some surprises have come upon them.

Rideau Hall, has up till the present time, been a sort of show place of the capital and the foot-path regarded as semi-public highway. Now, however, citizens and others have discovered somewhat abruptly that they can no longer wander at will in the domain appertaining to His Royal Highness. Fields on the estate, which have always been used for football and other clubs with easily gained and often unasked permission, are absolutely closed; by-paths, which led across the grounds are rigidly forbidden, twelve uniformed policemen and a host of plain clothes men, order all the pedestrians off the premises by day and eight policemen do the same by night. Every person is met at any corner by the eagle eye of the custodians of His Royal Highness' welfare, with enquiries as to their business. Friends of the old democratic customs are allowed to prevail and those who now reach the portals of Government House, have first to show solid reasons why.

It was not like this in the olden times, and there are heartburnings in consequence. Everybody now has to march up in the middle of the road to the main entrance, and may be turned back soon after passing the entrance gates. Today two unscrupulous newspaper men representing Winnipeg papers, went to Rideau Hall with the intention of gathering news items of an indefinite sort, and were met on the roadway by the men of the law, who asked their business.

Failing any substantial reason for being on the premises, they were asked if they did not know they were on private grounds, and as they were not aware of it before, they had to perform to leave the premises.

Now that a prince is in residence at Rideau Hall, the grounds no longer belong to the Canadian government. It is the ruling of those responsible for the safety of His Royal Highness the Duke of Connaught, during his sojourn in Canada, a penalty Ottawa has not till recently discovered.

ELECTIONS ON DEC. 11

Whitney Makes Announcement—Says New Cabinet Department is to Be Formed

Toronto, Oct. 31.—(Canadian Press)—The provincial elections will take place on Monday, Dec. 11, with nominations a week earlier. The date was announced last night by Sir James Whitney who also issued his manifesto to the people of the province, setting forth the accomplishments of the government since advent to power in 1905 and the reasons for the decision to hold a general election now. One of the most important announcements made by the premier is that the time has arrived for the discontinuance of the hydroelectric power commission, and the creation of a new department of government with a cabinet minister at the head to take over the work carried on by the commission. Announcement is also made of the decision to develop Northern Ontario with the assistance of the dominion government and further provincial appropriations. As the former dominion government granted bonuses of \$50,000 to the province, but refused to give a bonus to the Tenssling and Northern Ontario Railway, an application for the payment of the bonus will be made to the Borden government.

FISH HOLD UP STEAMER

Captain of the Durango, at Halifax, Reports Remarkable Experience on Voyage Across Atlantic

(Special to Times.) Halifax, N. S., Oct. 31.—Captain Chambers of the Furness liner Durango, in port from London, reports a remarkable experience on the voyage. While in mid-ocean the big ship came to a full stop. The circulation pumps failed to work and the engineers had to get busy to ascertain the reason for failure of the pumps to act. The in-take of the circulation feed pipe was examined and it was found to be filled with a mass of fish pulp.

Captain Chambers secured several of the fish which blocked the passage. They were long and narrow. Their name is unknown to him. It appears that the vessel had passed through a shoal of these fish and that so many as could be crowded in to the passage had been drawn into it by suction of the pumps.

When the passage was cleared the Durango was able to proceed at her usual speed.

THE FIGHT IN TRIPOLI; ITALIANS SLAUGHTERING

Police Satisfied as to How Avis Linnell Took Poison, But How it Was Sent Her Was Cleverly Concealed

(Canadian Press) Tripoli, Oct. 28.—(via Malta, Oct. 30).—For three days the Italians have been systematically slaughtering rebels in the residential outside the city. Every Arab met has been shot down without trial. Many women have been killed.

REBELS RESIST THE SLYING IN HANKOW

Police Satisfied as to How Avis Linnell Took Poison, But How it Was Sent Her Was Cleverly Concealed

(Canadian Press) Peking, Oct. 31.—The state of terror which has taken possession of the entire empire since the revolution is at an end. Transfer even of the cabinet of office to native Chinese is ordered and the throne avers that "order and peace shall be regarded equally," meaning that the elaborate system of Manchus pensions which are now paid to practically every member of the race, will be discontinued and the Manchus left to earn a living by their own exertions.

Today's edicts indicate that, even though the dynasty survives, Manchus rule is at an end. The revolutionists say that edicts, as that its lapses be pardoned, and requests the assistance and advice of citizens. Finally it makes a hysterical effort to rally Chinese and Manchus alike to the royal standard by hinting at grave foreign dangers which it thinks should be faced by the throne, regarding their present position as too strong for yielding to promises which they feel are insincere.

rebel chiefs assure the press, unless such actions as those of the imperialists at Hankow continue and the reports of the dishonor and murder of defenceless Chinese women and children make it impossible to control the rabble.

Further reports of small up-river towns and provinces in the heart of Se Cheen province going over to the rebels are required. The panic among the officials at Peking is regarded as one of the worst features of the situation as it betrays a readiness to give up the part of the country the new party look upon the issuance of the edicts as a victory far greater than anything that has been won on the field of battle.

Hankow, China, via Wu Hu, Oct. 31.—The revolutionists have rallied and re-organized their forces and are furiously contesting the imperial advance on Hankow. The insurgents still hold a section of the city which separates the foreign concession from the native city.

The Red Cross doctors estimate that 1,000 revolutionists have been killed and between 2,000 and 3,000 wounded during the fighting of the last three days.

Of a rebel battalion which faced the imperialist machine guns with intrepid tenacity, only two or three escaped. The others were mowed down. The loyalists lost 200 to 300 killed.
