

WHY SHOULD NOT OLD PEOPLE RETAIN THEIR YOUTHFUL VIGOR

No Reason Why Men And Women of Sixty, Seventy And Eighty Should Not Be Well—The Secret Of Happy Old Age

"Fruit-a-tives," The Famous Medicine Made Of Fresh Fruit Juices, Again Proves Its Great Value In Curing Kidney Trouble.

Old age pays the cost of living. Few men and women of fifty, sixty and seventy are free of Kidney Trouble. Hard work, mental strain and general debility, tell in the long run. And many men and women show they have Kidney Trouble by suffering with pain in the back, headaches, rheumatism, sciatica, bladder disease.

To such people "Fruit-a-tives" has proved one of the wonders of the age—and the most remarkable discovery of the century in modern medical science. This fruit medicine has performed hundreds of cures where the sufferer had been told that the case was incurable.

Take, for instance, Mr. Geo. W. Barkley, a prosperous farmer and one of the leading citizens of Dundas County, Ontario.

At seventy-six, he is the picture of health—with the vigorous actions and the sprightly step of a man of fifty.

Yet for twenty years, he suffered with Kidney Trouble. He took "Fruit-a-tives" and it cured him.

Chesterville, Ont., Jan. 25th, 1911
"For over twenty years I have been troubled with Kidney Disease, and the doctors told me they could do me no good, and said I would be a sufferer all the rest of my life. Nearly a year ago, I tried "Fruit-a-tives." I have been using them all the time since and am glad to say that I am cured. I give "Fruit-a-tives" the credit of doing what the doctors said was impossible.

"Fruit-a-tives" is the only medicine in the world made of fruit, and is the only one that acts directly on the kidneys. It cures. 50c a box, 6 for \$2.50 or trial size, 25c. At dealers or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

The Evening Chit-Chat

By RUTH CAMERON

It is a well recognized fact that, in respect to almost all his possessions and customs, the average person's tastes are subject to the fluctuations of fashion. There are constantly changing styles in everything about us, in our furniture and our houses, our jewelry and our fashions. But did it ever occur to you that there are even styles in words?

You have probably observed that a certain shade of brown and a bright red, called "hunter's pink," are the new colors for the spring. Now, of course, it does not mean that these colors are new in the sense that they did not exist. It simply means that we will have a run on them this season. In just the same way we have run on words.

"Negligible" is a word which has come into common use during the last few years. I had a striking proof of this fact when, after having used the word and having been asked its meaning, I turned to the dictionary to support my definition and did not find the word at all. It is only to be found in a very recent edition of the dictionary. In this respect, of course, it is different from the other words cited, in that they were catalogued, but not commonly used.

"In the case of many of these words there is a reason. Some movements or some events has brought them into vogue. For instance, "efficiency" comes from the "efficiency engine" movement; "conservation" from the western conservation talk; and "strenuous" I'm quite sure I don't need to mention the source of that word's prominence. Other words seem to spring into popularity for no apparent reason, much in the inexplicable manner in which styles in other things appear.

Thus, even in words we are all bewildered and follow meekly after each other, so even in words we must have change of style, and the only thing which is always in fashion is change of fashion.

La MARQUISE de FONTENY

The Prince of Wales in Paris and the Dandies Copying His Clothes—A Woman Diplomat

The paroled state of mind of those Parisian dandies who so eagerly noted the attire of the Prince of Wales, with the idea of taking him as their model, "in deciding upon the style of the evening, it is difficult to say that they who know anything about the matter, would be surprised to find that his costume was not copied, but that his style was only the two upper buttons being unbuttoned, thus showing a large expanse of shirt."

Their next view showed them, that their great objection, that the young man had buttoned up the top button, was not the top button was buttoned up, but the other two buttons were unbuttoned. His inconsistency in wearing a shirt without a button, but not buttoning up the top button, the Prince seems to have been a young man, who has had no previous experience.

Daily Hints For the Cook

KINGSTON CRULLERS.

Creem one half pound of butter with three-fourth pound of powdered sugar. When smooth and light add one-half teaspoonful of mace, the same quantity of nutmeg and the well beaten yolks of six eggs. Stir in the stiffened whites of the eggs alternately with enough flour to make a dough that can be rolled out. Roll into a thin sheet, cut into circles or any shape desired, and drop a few at a time, into deep boiling fat. Test the fat with a bit of dough before frying any crullers in it. When golden brown in color remove the crullers and lay in a heated colander to drain, sprinkling with powdered sugar.

APPLE AND CELERY SALAD.

Peel and core well-flavored apples, then cut into very thin slices; clean and cut crisp celery into dice until you have a quantity equal to the apple. Mix in sufficient mayonnaise to moisten or use the French dressing if liked. Arrange in individual portions in lettuce leaves, placed in cup fashion, dot the top with mayonnaise, and serve at once. The apples must stand after peeling as they discolor.
