Doctor Brings Word of Hope
For Stomach Sufferers—125
Children Among List

The Canadian Pacific steamship
Montclare, Captain G. S. Webster,
arrived in port Saturday night at
9 o'clock from Liverpool, Belfast and
Greenock and docked at Nos. 2 and 3
berths, Sand Point. The large liner
brought to Canada 122 cabin and 413
third class passengers, 4,087 bags and
840 packages of mail, about 2,000 tons
of general cargo, also two carloads of
baggage and express. The mail was
landed just as soon as the steamer
docked and all for other points

throughout Canada sent away on a
special train. Among the passengers
were Mrs. Malcolm McAvity and chil-
dren.

The passengers did not disembark
until 9 o'clock yesterday morning and
were sent forward to upper Canada and
the West in two special trains which
left Sand Point at 12.30 and 1.30 o'clock
yesterday afternoon.

SKILLED MECHANICS.
The passengers were nearly all British
subjects and were an exceptionally
fine looking class of people. At Belfast
the steamer took on seven cabin and
96 third class, and at Liverpool 97
cabin and 221 third class. Included in
the third class were several skilled
mechanics and many farmers who came
to Canada to seek their fortunes. Out
of the 835 passengers, 437 were British
and 89 were Continentals.

125 CHILDREN.
Included in the passenger list were
110 children and 15 infants. The young-
sters and their mothers were taken to
the nursery, where they received every
attention under the supervision of the
head nurse, Miss V. A. Tremaine. Four
of the children were unaccompanied.

HAVE THOROUGHbred DOGS.

Mr. and Mrs. J. W. Green, of St.
Thomas, brought to Canada two fine
looking and highly bred Yorkshire ter-
riers. Mrs. Green received them from
her brother in Wigam. They are very
small and were great pets of the grow-
ups as well as the children. Mr. Green
expects to enter them in some of the
big kennel shows as they are pedigree
dogs and reputed to be the finest of
their class so far brought to Canada.

DOCTOR IS HOPEFUL

That as a result of research work on
stomach diseases he has the greatest
confidence that a preventive will be
found for ulcers was a statement made
yesterday by Dr. E. L. Connor, of Leth-
bridge, Alta., who was a passenger on
the Canadian Pacific steamship Mont-
clare, which arrived late Saturday night
from Liverpool.

Dr. Connor had been away taking
a post graduate course in surgery in
Vienna as well as making an intensive
study in the system of the now famous
local anaesthetics. He explained that
as a result of the discovery of the fa-
mous surgeon, Dr. Finsterer, this local
anaesthesia can be administered to pa-
tients, who can undergo the most seri-
ous operations for hours' duration
without feeling the least bit of pain
or loss of faculties.

port a fairly good business and start-
ing tomorrow most of the merchants
will keep open evenings until Christ-
mas.

Family Flees As
House Is Burned
OXFORD, N. S., Dec. 12.—The
house of Mr. and Mrs. Armour at
Thompson Station was totally de-
stroyed by fire early Saturday morn-
ing. The barn was also destroyed.
The family was ready to depart short-
ly for the United States and a num-
ber of friends had visited the home
on Friday evening for a social dance
as a farewell. The company had
gone only a short time and the fam-

ily had not been in bed for an hour
before the alarm of fire was raised.
The occupants of the house narrowly
escaped with their lives. Furniture
and household effects were all lost.
The damage is estimated at \$4,000
and there was very little insurance.
The origin of the fire is unknown.
