LOTS OF FUN AT THE WAR VETERANS' FAIR—ST. ANDREW'S RINK TONIGHT

Elder Nephi Jensen, former lawyer of Utah, now president of the Canadian Mission of the "Mormon" church spoke yesterday afternoon and last night at the Palace Theatre on Mormonism vs. Spiritualism. He said in part—

MORMON PREACHER HEARD YESTERDAY

When the city street was closed there were widows and orphans in every village and town who waited and waited for the footstep of their loved ones. How is this cult which dwells in the heart and living belief from the heart to be met? That is the religious problem of the day. The right answer to this question was suggested recently by the editor of the Toronto Star who assigned as the cause for the prevalence of Spiritualism the fact that millions of broken hearts were anxious to be certain about what had become of those who did not return. The charlatan and medium immediately capitalized the tears of these widows and orphans by promising to get word from the dead. The seance soon became more popular than the prayer meeting. Men of international note became protagonists of Spiritualism.

"A deeper faith in God is the real antidote for spiritualism. We need first and foremost definite ideas of God's personality and attributes. The modern theologian's God, without body parts and passions as He is defined in the prayer books cannot inspire living faith. Only the true God of the Bible whose real human form, tangibility and power and love were revealed in Jesus Christ can turn human hearts from false idols to righteousness."

The second need of the hour is the inculcation of faith that really seeks and finds. Hope deferred makes the heart grow faint. Unanswered faith turns to insipid superstition. Only that religion which brings a contribution of faith in healings, tongues, inspiration, and revelation, can produce living, vital faith. Such a religion we teach."

VICTORY WON BY DR. J. D. MAHER

Saturday's Halifax Herald announced that the dental bill which had been given the three months would prevent any dentist from practicing his profession until he was registered under the dental board of the province, and no assistant who was not a qualified dentist could be employed. The Herald says the bill was particularly aimed at the dental parlor, and would have chiefly affected Dr. J. D. Maher and it adds that the defeat of the bill is the second victory he has achieved over the Dental Society, of which he is himself a member.

The Herald strongly commends the defeat of the bill and says the public are to be congratulated on Dr. Maher's victory.

IRISH AFFAIRS

New York, May 25—Resolutions urging the workers in England, Scotland and Ireland to exert their political and economic power to the end that their government "withdraw the army of occupation from Ireland and permit the Irish people to peacefully pursue their lives under the form of government which they have lawfully chosen," were adopted at a mass meeting held last night, under the auspices of the Central Federation Union of New York.

"The world of labor looks with eyes of fixed horror upon the recent statement upon the sinister preparations now being made for a supreme massacre in Ireland as evidenced by the dispatch of men, provisions and all the horrible implements of murder from England to that unarmed and helpless country. This monstrous crime cannot be consummated unless we become its guilty participants."

MANY FARMERS FROM THE STATES TO WEST CANADA

Omaha, Neb., May 25—According to W. V. Bennett, in charge of the Canadian government land office, the great tide of emigration of 1912 and 1913 to western Canada is about to be repeated. In the first three months of 1920 almost as many settlers from the trans-Missouri country have gone to Canada as went all last year.

The statement adds that during the last twenty years forty-five thousand Nebraska farmers have emigrated to Canada, taking with them approximately \$80,000,000.

The explanation given is that the farmers sell their land to the state of Nebraska, and then they are able to purchase land just as good in the dominion for one-third of what they sell for.
