

69. NORTH ESSA.—About \$350 contributed for Parsonage now erected. It would be desirable to have the Mission divided as soon as possible. There is abundance of work for two clergymen; the second might get \$200.

72. OAKVILLE.—Palermo should be set off.

73. ORANGEVILLE.—Another Missionary could be employed and supported, if the Mission Board would give \$200 or \$300.

75. OSHAWA.—Another Missionary could be advantageously employed in Columbus and the neighboring villages, and would be supported.

77. PARRY SOUND.—\$150 have been subscribed towards the erection of a church (which is much needed), and expect more. There is no Parsonage and we are obliged, six in number, to live in a small roughly built house containing one room.

78. PENETANGUISHENE, WYEBRIDGE, AND WAVERLEY.—A division of the Mission would be very desirable if sufficient support could be found.

85. ROCKWOOD.—Free Church in course of erection; over \$500 contributed. A division is absolutely necessary; if the Mission Board would allow \$200, the people of "The Ascension," Rockwood and Acton, could easily make up \$400 or more.

89. SCARBOROUGH.—The seats in St. Jude's Church were made free at the last Vestry. A division of the Parish is necessary, but under present circumstances altogether impossible.

92. STAMFORD AND DRUMMONDVILLE.—A Parsonage house in contemplation for Drummondville, for which half an acre of land has been given, and \$1000 (now in hand) subscribed.

99. TECUMSETH.—An assistant is much required, but there will be great difficulty in raising say more than \$200 towards his support.

99. TORONTO, ST. PAUL'S.—During the past year, two portions of the area of the Parish have been relinquished to form new parishes; and, as the population is increasing, we may look forward to a further subdivision at no distant day.

102. TORONTO, HOLY TRINITY.—Two Mission Chapels erected, both free. When, for convenience sake, a District was assigned to the Church of the Holy Trinity, Toronto, it was distinctly understood that such assignment did not prejudice the right and character inherent in this church by virtue of its founder's design and intention. It was still to be a place of worship freely open to the members of the Church of England, in the city and Diocese, under the control of the Bishop, and subject of course to the Canons of the Canadian Synods, Diocesan and Provincial.

107. TORONTO, ST. LUKE'S.—New Free Church erected; \$1900 contributed.

109. TULLAMORE.—Preparations are making for building a church, and \$1200 have been subscribed.

110. UXBRIDGE.—A burial ground has been purchased in Uxbridge, and an organ in Prince Albert. A Parsonage is being erected in Uxbridge, and about \$700 have been contributed for house and \$200 for land. A division of the Mission is required. Reach could contribute \$400 and Uxbridge \$300.

111. WALPOLE.—A good sized addition of brick, worth \$500, has been made to the Parsonage house. The Mission has required division for some time; the same answer is given year after year, and that is all that is done towards it. A second Missionary would receive less support now than a year ago.

112. WATERDOWN.—A Parsonage house has been erected; \$1200 contributed, leaving a debt of \$700 on the building, not including subscriptions yet remaining unpaid. There are unmistakable proofs that the division of this Mission has been most beneficial to both parts of it.

113. WELLAND.—The congregation at Marshville which had been attached to the Mission of Welland for the past two years, was separated in October, 1870.
