

# POOR DOCUMENT

## 1893. Exhibition of Stoves. 1893.

### THE EAGLE FURNACE.

FOR WOOD.

The Most Powerful Heater ever Invented.

EASY TO MANAGE DURABLE.

Warranted to give double the amount of Heat of any other Furnace from the same quantity of fuel.

For Quickness of operation it is unsurpassed, there being no escape of heat into the cellar or chimney; neither gas nor smoke into the rooms above.

SATISFACTION IN EVERY RESPECT GUARANTEED TO ALL MAKING A TRIAL OF THE FURNACE.

### FAVORITE DIAMOND.

FOR WOOD OR COAL.

The fire box for Coal is oval, and is the heaviest and most durable made. The stove is supplied with either the Duplex Grate or the new patent Flat haking and Dumping Grate. When the fire box for coal is removed and the Fire Back and False Fire Bottom and front fender put in, they surpass all other cooking stoves for burning wood, as they have a large fire box, with the advantage of a central delivery of draft to the wood, making a quick, hot fire with a small amount of fuel. The reservoir is large and made of copper, and water can be boiled in it. The ornamentation is very beautiful, and the castings fittings, etc., are guaranteed to be of the best workmanship.

### ROYAL DIAMOND, Reservoir and Heating Shelf. FOR WOOD.

This Handsomely Finished Stove has a large and well ventilated oven, with an unusually large feed door and Fire Box, admitting very coarse wood. It is entirely new and First Class in finish, while every point of excellence is embraced in its Construction.

### REASONS WHY

The STEEL CLAD is the Best.

It is open and accessible. No place for accumulation of impurities. Dampness cannot affect it. Nothing about it to shrink or decay. It cannot leak. It is light, but strong and durable. It is handsome in appearance.

It is THE CHEAPEST BATH IN THE MARKET.

### Hilborn's Hot Air Furnace

MADE IN 2 STYLES. 8 SIZES. BRICK SET OR PORTABLE.

The body is corrugated and made very heavy. The Furnace is arranged so that it can be operated from the rooms above, obviating the necessity of going to the furnaces for regulating drafts.

The drums are of heavy sheet steel well riveted together.

It is the only wood burning furnace that can be easily cleaned out at all times. This very necessary arrangement is too often overlooked by parties buying furnaces, and as a result, they are forced to take them apart in order to clean them.

## KITCHEN & SHEA, QUEEN STREET, FREDERICTON N. B.

1893. September 16. 1893.

### ANDERSON & WALKER, Merchant Tailors,

[Opp. Officers' Quarters,]

HAVE received their **Fall and Winter Stock.**

A F RANDOLPH & SONS.

### A Big Mistake.

The moulting season, or the season when hens shed their feathers will soon be at an end. The process is one that in certain respects debilitates and prevents hens from laying. The reason of this is that the growing of new feathers requires all the nitrogen and phosphates contained in the food and there is none left to form the egg. A curious fact about the hen, and one that illustrates the foregoing statement, is this, if a hen's leg be broken during the laying season, she will lay her eggs without shells until the break is mended. The reason for this must be that all the lime contained in the food is required to unite the broken bone, there is therefore none for the formation of egg shells. The formation of new feathers does not require any carbonaceous or fat producing food, neither eggs without shells until the break is mended. Many farmers and poultry raisers not understanding all about these things kill off their old hens because they think they have stopped laying and are fat. This is a great mistake, because if the proper material be furnished them with their food to supply the increased demand for nitrogen and phosphates before mentioned the old hens will be through shedding feathers much sooner and will begin laying on the approach of cold weather and they will continue to lay vigorously all winter, while the young pullets, reserved to take the place of the old, hens may not begin to lay until much later in the season. Very many people have learned from experience that Sheridan's Condition Powder mixed once daily with their food will supply the extra material needed to strengthen and invigorate their hens, enabling them to grow new plumage quickly and commence laying early. Those who commence now to use Sheridan Powder, will find that their young pullets will commence to lay at from four to six months old, and will lay continuously through the winter. The Farmers' Poultry Raising Guide, published by I. S. Johnson & Co., at 22 Custom House St., Boston, at 25 cents, contains a vast amount of information on this subject, Johnson & Co., will send post paid, two 25 cent packs of powder and one Guide for 60 cents, or a 24 lb can of the powder postage or express prepaid for \$1.20 and a guide free.

### After Breakfast.

To purify, vitalize and enrich the blood, and give nerve, bodily and digestive strength, take Hood's Sarsaparilla. Continue the medicine after every meal for a month or two and you will feel like a new man. The merit of Hood's Sarsaparilla is proven by its thousands of wonderful cures. Why don't you try it? Hood's pills cure constipation. They are the best after-dinner pill and family cathartic.

A summer hotel youngster was talking with a lady on the piazza, and her father appearing, the lady said facetiously, Who is that gentleman? That's not a gentleman, replied the youngster, that's papa.

### JINGLES OF HUMOR.

#### A Little Nonsense Gathered for Leisure Reading.

Margery—Why do you keep on refusing Jack? You say you love him. Emma—Oh, he has such a cute way of proposing.

Jagson says there are four singers in every quartette choir who think the other three can't sing a little bit and they are generally right.

Tired Teller—If you had to work for a livin, Indi, what'd you do? Indolent Ivers—I'd keep an employment agency an' make me livin gittin other people work.

They are telling of a Kansas visitor to the Columbian Fair who went into see an exhibit marked exit over the gates, and it cost him another 50 cents to see the rest of the show.

Peddler—Is your mother in? Boy—Yes, but she's got three callers, and they've got to talking 'bout servant girls. Guess you'd better come around next week.

Anarchist orator (sneeringly)—They call this the land of promise. What does it promise? Officer of the law—I'll tell you right here. If you keep on, it will promise to land you in the penitentiary.

Remember there is a
