such as all the world loves; but these on questions of the day. During the alone, while essential qualifications, are last year quite a number of miners not the woof and warp of a public man. have arrived in Nanaimo from the Old must be actual Country, and their knowledge of Can-

Is very careful about her churn. She scalds it thoroughly after using, and gives it a sun bath to sweeten it. She knows that if her churn is sour it will taint the butter that is made in it. The stomach is a churn. In the stomach and digestive and nutritive tracts are performed processes which are almost exactly like the churning of butter. Is it not apparent then that if this stomach-churn is foul it makes foul all which is put into it?

The evil of a foul stomach is not alone the bad taste in the mouth and the foul breath caused by it, but the corruption of the pure current of blood and the dissemination of disease throughout the body. Dr. Pierce's Golden Medical Discovery makes the sour and foul stomach sweet. It does for the stomach what the washing and sun bath do for the churn-absolutely removes every tainting or corrupting element. In this way it cures blotches, pimples, eruptions, scrofulous swellings, sores, or open eating ulcers and all humors or diseases arising from bad blood.

adian public affairs, of course, is lim-ited. To them Mr. Smith's speech was NO especially interesting, and they drank in every word. He divided his remarks nto three sections: 1. An explanation of our system of

vernment, showing the difference beween the conditions existing in Eng-and and Canada, at the same time outning the jurisdictions of the Dominon and the provinces. 2. An elucidation of the land develop-

ment policy of the Liberal government, contrasting the attitudes of the two parties and emphasizing the effect of the development of the Northwest upon the prosperity of British Columbia. 3. The reforms accomplished by the government of Sir Wilfrid Laurier in the interests of the laboring class. Under the first head he explained how utterly impracticable it was to create in this country an effective independent party, particularly a labor party, in view of the fact that the Liberal party was essentially that of he laboring class, and representatives

always accepted by the Liberal party. His own allegiance to the Liberal party was due to his recognition of the fact that it afforded the machinery for the His speech on Saturday was a com accomplishment of the reforms he had

receive it by return post. In treating all open sores, or ulcers, boils carbuncles and other swellings, it is important that Dr. Pierce's Golden Medical Discovery be taken persistently to purify the blood and thereby remove the cause of the trouble. It is in the blood that the great battle of health has to be fought. The ulcer and the sore are simply the scarlet flowers of disease, with roots running down into the blood. These roots must be eradicated or the disease will break out afresh. "Golden Medical Discovery" cleanses the blood of all foul and poisonous accumulations, pushes out the dead and waste matter; and thus purifies the entire life current; ti is no longer fed by foul blood, "Golden Medical Discovery" effectively cures disease in the flesh by curing its cause in the blood.
