

IN MEMORY OF THE CITY'S NOBLE DEAD

TABLET WAS UNVEILED YESTERDAY EVENING

Names of Five Victoria Heroes Perpetrated on Marble Monument in the Drill Hall.

It was just two years ago yesterday when four Victoria boys fell in the heroic advance upon the Boer trenches at Paardeberg. Four months later Capt. Blanchard succumbed to wounds received in the defence of a British post against a desperate attack by a superior force of the enemy. Last night at the drill hall, amid the assembled soldiery and citizens, the Lieut.-Governor, Sir Henri Joly, unveiled the tablet erected to the memory of this city's noble sons who are lying beneath the South African soil.

The ceremony was a most impressive one. The venerable vice-regal representative in Windsor uniform, the officers in their brilliant uniforms, the soldiers standing as motionless as statues, and the throng of spectators lining the galleries and the main floor outside the enclosed space, contributed to a scene not easily forgotten.

Long before the doors of the hall were thrown open to the public a large crowd had congregated at the front awaiting admission. When at last they were allowed entrance the perfection of arrangement by those in charge could not but commend itself to all. A quadrangular space was enclosed by the various companies of the regiment, with sappers and gunners from the Royal Engineers and Toyal Garrison. Artillery of Work Point. Chairs for invited

guests had been arranged inside the space, facing the hall entrance, near which the ceremony was to take place. Recognizing that the galleries afforded the vantage point from which to see everything, the spectators soon taxed their accommodation to the utmost.

To the right of the main entrance, gracefully draped with Canadian and the British ensigns, and surmounted by smaller patriotic emblems, and representative shields, was the tablet which was to be unveiled. The space in the immediate vicinity was kept clear by a squad of police under the chief during the unveiling, but after the proceedings there was always a group before the marble design which commemorates the bravery of the five Victorians in South Africa.

Among the officers were Lieut.-Col. Holmes, D. O. C., Lieut.-Col. Grant, R. E., Lieut.-Col. Prior, Lieut.-Col. Gregory, Lieut.-Col. Worsnop, of the 6th Regiment, Duke of Connaught's Own, of Vancouver; Major Ross Moore, commanding the Fifth Regiment; Capt. Simpson, R. N.; Major Jones, Major Rawdon, Capt. Walbran and others.

The fifty sappers and gunners from Work Point were under the command of Lieuts. Elliott and Sladen. The parade state of the Fifth Regiment was as follows:

| Rank | Officers, Sergeants and File. | Total. |
|-----------------|-------------------------------|--------|
| No. 1 Co. | 1 | 22 |
| No. 2 Co. | 1 | 22 |
| No. 3 Co. | 2 | 37 |
| No. 4 Co. | 1 | 27 |
| No. 5 Co. | 1 | 22 |
| No. 6 Co. | 2 | 33 |
| C. O. and Staff | 4 | 6 |
| Band | 1 | 19 |
| Total | 12 | 23 |

Redistribution: Field officers, 2; staff officers, 3; captains, 2; subalterns, 3; sergeants, 6; sergeants, 17; rank and file, 178; grand total, 213.

Shortly after 8.30 the Lieut.-Governor and staff, consisting of Capt. B. Dwyer, D. O. C., and Major Rawdon, accompanied by Lady Joly and government house party, and the private secretary, R. B. Powell, entered the hall from the D. O. C.'s apartment, doors were received with the royal salute and the National Anthem. Accompanying Sir Henri Joly and party were Bishop Perrin and Rev. C. Ensor Sharpe, M. A., honorary chaplain of the regiment, in their officiating gowns. The service was then proceeded

with at once. It was opened with a hymn, "O God, Our Help in Ages Past," in which the assembled heartily joined. Then followed the exhortation from Timothy and the reading of Psalm xlv. by Rev. Ensor Sharpe, after which the Bishop read the first eight verses of Joshua, 4th chapter. The chaplain then read in prayer as follows:

Almighty God, who rulest over all the kingdoms of the world, and disposest of them according to Thy good pleasure, we yield Thee unfeigned thanks for that Thou wast pleased to place Thy servant, our sovereign Lord King Edward, upon the throne of this realm. Let Thy wisdom be his guide, and let Thy arm strengthen him; let justice, truth and holiness, let peace and love, and all those virtues that adorn the Christian profession flourish in his days; direct all his counsels and endeavors Thy glory, and the welfare of his people; and give us grace to obey him cheerfully and willingly for conscience sake; and neither our sinful passions, nor our private interests, may disquiet his care for the public good; let him always possess the hearts of his people, that they may never be wanting in honor to his person, and dutiful submission to his authority; let his reign be long and prosperous, and crown him with immortality in the life to come, through Jesus Christ our Lord. Amen.

Almighty God, the fountain of all goodness, we humbly beseech Thee to bless Our Most Gracious Queen Alexandra, Queen Prince of Wales, the Princess of Wales, and all the Royal Family; endue them with Thy holy spirit; enrich them with Thy heavenly grace; prosper them with all happiness, and bring them to Thine everlasting kingdom, through Jesus Christ our Lord. Amen.

Lord of all power and mercy, we earnestly beseech Thee to assist with Thy favor the Governor-General of this Dominion, and the Lieutenant-Governor of this province; cause them, we pray Thee, to rear before Thee, and the people committed to their charge, in truth and righteousness; to enable them to use their delegated powers to Thy glory, and to the public good; to the advancement of their own salvation; through Jesus Christ our Lord. Amen.

Oh Almighty God and Father, who alone canst order the mortal wills and affections of sinful men and who canst bring good out of evil, overcome we pray Thee, the war in which our country is now involved, to the good of the human family and the glory of Thy name. Assuage the miseries and horrors of war. Save those engaged in it from cruelty and wrong. Pardon their sins and save their souls. Support and comfort the wounded, sick and dying. Be with those who have gone forth to minister to the bodies and souls of the men; give them endurance, tenderness and skill. Bless, protect, and guide our own volunteers, that they may be able to do their duty with honor and courage, and that they may be able to bring back to their homes peace and prosperity. Amen.

While we are doing honor to the memory of our brave soldiers, we cannot forget those who are mourning for their loss, and we all share sincerely in their sorrow.

Peace, our Lord and Saviour Jesus Christ, Amen.

The tablet was dedicated by the Bishop in the following prayer:

Almighty God, our Heavenly Father, unto whom all live, we beseech Thee to accept this our service in which we hold in memory Thy servants who have fallen in battle. We beseech Thee to comfort all who are near and dear to them, and grant them patience and resignation to Thy Divine will, and help us all to be true and loyal soldiers of Thy Son Jesus Christ, and fight manfully against all the world and the devil, not counting our lives dear unto ourselves, so that we may finish our course with joy, through the same Thy Son Jesus Christ, our Lord and Saviour. Amen. We hereby solemnly dedicate this tablet to the memory of these our brothers, who gave their lives for their Queen and country, and that we may be enabled to follow their good example of courage and self-sacrifice, and to be true and loyal soldiers in the name of the Father, and the Son, and of the Holy Ghost. Amen.

Upon the conclusion of the dedication prayer Major Moore said that he felt very fortunate in having the honor of inviting His Honor in the name of the officers and men of the Fifth Regiment to unveil the monument erected to the memory of their comrades.

His Honor then stepped forward and in a clear voice spoke as follows: "Behind this flag, in the defence of which they died, stands a tablet, erected to the memory of their comrades, by the officers and men of the Fifth Regiment."

"We feel that this is no empty compliment that you, officers and men of the Fifth Regiment, are paying to your brave comrades, and that their names engraved on the cold marble are still more deeply engraved in your warm hearts, and in the hearts of all those who love their country and are ready to lay down their lives in defence of the empire to which we belong."

"We all join heartily in the prayer that this war may soon end and that it may be succeeded by a reign of peace and prosperity. But if the war must continue, there are thousands and thousands of men ready to come to the front and to fight, until it ends in complete victory for the empire."

"While we are doing honor to the memory of our brave soldiers, we cannot forget those who are mourning for their loss, and we all share sincerely in their sorrow."

Grasping the rope Sir Henry drew aside the flags which draped the tablet, silence reigning supreme as gracefully the folds which hid the monument from view were drawn from its face and the marble design was exposed to the public gaze. Then followed the general salute and the National Anthem, after which the benediction pronounced by Bishop Perrin. The Recessional march, by Gonnard, was played by the Fifth Regiment band.

After the ceremony a large proportion of the spectators left the hall, but many remained to enjoy the promenade concert which was given by the band.

Among those present were the mayor and members of the municipal council, members of the cabinet and legislature, and the city clergy. But there was one group in the hall who realized more fully than any one the glory commemorated by the marble tablet just unveiled. They were at Paardeberg on the day the merciless Boer bullets found their billets in the bodies of those whose names are on the honor roll. Clad in khaki they witnessed the payment of tribute to the memory of their comrades, and doubtless vividly recalled the day which takes its place in Canadian and British history as one of the most glorious in its annals. They were Sergeant Northcott, Corporal O'Dell, Corporal Lohman, of New Westminster, Privates Roberts, Brethour, Cornwall, Jones, Leeman, Dixon, Stewart, Smeethurst, Carter and Wood. Ptes. Anderson and Neill were with their company in the regiment.

The tablet is of gray marble, with white Celtician slab, on which are engraved the names of the Victoria heroes. It is simple, but impressive and appropriate in design, and illustrates more eloquently than tongue or pen the pride of this city in her noble dead.

The inscription engraved on the slab is as follows:

IN MEMORY OF

CAPT. M. G. BLANCHARD
SERGT. W. I. SCOTT
GUNNER J. TODD
GUNNER J. H. SOMERS
GUNNER A. MAUNDRIEL

who fell gloriously for
Queen and Country
In South Africa,
A. D. 1900.

Erected by their comrades, the
officers, non-commissioned officers
and men of the 5th Regiment, C.A.

The proceedings were unmarred by even the slightest suggestion of a hitch, affording a telling commentary on the excellence of the arrangements. Much credit is due the committee in charge, consisting of Capt. Hall, Lieut. W. R. Wilson and Lieut. Currie. Admirable facilities were afforded the press representatives, while every detail was successfully carried out.

THROUGH THIRTEEN.

Dr. Sven Hedlin's latest exploit lifts him to equal rank with Stanley as an explorer, and much more than Stanley he is a scientist and a brilliant cartographer. He has emerged from Tibet, and is on his way to visit Lord Curzon, whose guest he will be in Calcutta. The Viceroy, himself a Central Asian explorer, must await with the keenest interest the opportunity of learning what Dr. Hedlin may be able to tell him of the dark patch on the maps between Kashmir and Szechuen. What one hopes is that it will not be a dark patch always, and the fact that Dr. Hedlin has been able to pierce through it twice with some approach to impunity on the second occasion may indicate a change in native sentiment.

WRECKAGE FROM THE SCHOONER RELIANCE

Found by Keeper of Cape Beale Light-house Off Southwest of Island.

Information comes to hand from Cape Beale to-day clearing up in part the mystery surrounding some of the wreckage which was washed ashore since the winter storms of early December. In a message to Capt. Gaudin, local agent of marine and fisheries, the lighthouse keeper at Cape Beale states that 30 feet of three-inch rubber belting has been picked up off the coast in that locality bearing the inscription "Bowers' Rubber Company, fully warranted, Reliance, San Francisco."

The lighthouse keeper adds that the wreckage of the unknown schooner is still held where it drifted, about half a mile from the shore. Nothing has so far been found to identify the name of the vessel. He further states that the chronometer came ashore on a piece of deck, on which also were a watch and chain, but no names on either. On the same wreckage was found a man's leather belt and a piece of fishing line fastened to a piece of wire rising, some time some person had been lashed there. Subsequently the 30 feet of three-inch rubber belting was found. The chronometer bears No. 473, and Parkinson & Frodsham, of Chance Alley, London, are the makers.

Capt. Gaudin thinks that the wreck could be identified by some of the firms in San Francisco, who engage in making chronometers and who would probably have the particulars of this chronometer on their lists.

There are two schooners of the same name making San Francisco their home port and from the size and description of these it would appear that either the derelicts which have been found bottomed up off the southern end of the island is one of them. These were described by local mariners who saw them as being about 90 and 75 ton schooners respectively. Whether either of the San Francisco schooners was on its way north or not the Times at present is unable to state. One of these vessels belonged to Benicia, Cal., and is registered at San Francisco. She was 94 tons gross tonnage and 64 registered tonnage. She was built in 1889, and her dimensions are given as follows: Length, 92 feet; beam, 24, and depth of hold, 10 feet.

The other Reliance belongs to R. A. Gilbride. She is smaller than the one described above. Her length is 69 feet; beam, 24 feet, and depth of hold, 6 feet. She was built in 1888. The derelicts were first sighted off the island coast early towards the end of December, and ever since they drifted ashore have been the objects of much speculation.

OFF THEIR COURSE.

Two British Ships Driven Up to Clayquot—Queen City From West Coast.

Two British ships, in ballast, were driven considerably off their course by the recent heavy gales on the West Coast. The vessels were carried to within five or six miles of the coast off Clayquot, and had there been left becalmed. A wind finally came to their rescue, and both ships when seen by the officers of the Queen City were working their way back to the Straits again. The names of the strange craft could not be ascertained, but it was ascertained that they were out of all danger, however, when sighted, and with favorable weather they were expected to arrive here in a day or so. The Queen City was as far as Sidney Bay, where she was expected to arrive. The weather of late has been very stormy on the West Coast. Only four of the sealers were sighted in port. Two of these, the Diana and Ocean Belle, were lying at anchor in Clayquot, and the Alaska and another vessel were waiting for favorable weather in Alouette.

The only new evidence of shipwreck washed ashore was the top of a schooner's companion way, which came ashore day before yesterday at Carmanah. It was pointed out, but had no mark to identify it. The schooner brought from Sidney Bay, Price. Other passengers were: Mrs. G. Myers, P. N. Smith, C. J. D. J. Mr. W. A. Allott, Mr. McDonald, M. Swartout, R. Hoden and O. Lorne.

Minnie Smythe, a married woman, was charged at the Clerkwell police court, London, with wearing the uniform of the Royal Artillery, thereby bringing it into contempt. In this case Smythe went into a Canadian road, and was surrounded by a shouting and jeering crowd. When asked what she meant by her behavior she replied, "I only did it for a lark." She was found over in 15 to be of good behavior for twelve months.

A Swiss teacher at Eschborn has found 120 sealers in the ice during the winter. There were 785 young ones, the average nest having five, though some had only three and a few had six.

MAYORALTY FIGHT IN DAWSON CITY

PARTICULARS OF THE FIRST CONTEST THERE

W. A. Anderson Again in Trouble—Cultivation of Forestry in the Yukon—E. S. Busby Transferred.

A Dawson dispatch of February 7th gives further particulars of the election there, and the names of those returned.

The dispatch states: "At the municipal election held here yesterday Henry C. Macaulay was elected by a majority of 16 over his opponent, Dr. A. Thompson. The aldermen elect are: Jas. Adair, George Murphy, Peter Vachon, T. G. Wilson and Jas. F. McDonald. The total number of votes cast was 724."

"The election caused the most exciting time that has ever been seen in Dawson. Hundreds of rigs were out all day hauling voters to the polls at the old court house. Much money changed hands on the result."

"Joe Clark was arrested at the polls for causing Queen Prosecutor Condon. His trial was set for to-day in the police court."

"On advice from Ottawa Clerk McDonald withdrew Saturday from the majority race."

"Last night a crowd of 500 with a band serenaded the Daily Nugget office. They then passed over to the Daily News office and hoisted and ground."

E. S. Busby, Canadian collector at

Skagway has been transferred to White Horse. Mr. Busby has been sent to White Horse so as to be more centrally located, and to be in a position to give his whole time to the supervision and inspection of customs, and has no relation whatever to any regulations of the United States customs. It has been known to Mr. Busby's friends in White Horse for some time that he was likely to become a resident of White Horse.

W. A. Anderson, the man at Caribou who didn't think enough of \$4,000 worth of whiskey to prevent the police from polluting the waters of the Yukon with it recently, has been in the clutches of the watch dogs of the government again. This time he was charged with having furnished intoxicating liquor to "Skookum Jim" and his brother-in-law, "Chu". The hearing took place before Justice of the Peace Inspector Horrigan, when Anderson was acquitted. The case has created more than the usual interest, as it was felt that Anderson was getting full more than his share of hard luck. Anderson formerly belonged to the Victoria police force.

A determined effort is to be made to prevail on the government at Ottawa to send from its experimental farm in the Dominion capital fruit bearing and ornamental trees and shrubs with a view of generally introducing them in the Klondike. N. F. Hagel, the barrister, has been the prime mover in the enterprise, and has solicited and obtained the support of Governor Ross in the undertaking. Mr. Hagel has submitted to the governor a long list of trees and shrubs which he thinks will adapt themselves to the Yukon conditions, and thrive in this country.

The list of trees and shrubs which Mr. Hagel recommends are: The De Sota plum, the red, the black and the white currant, gooseberries, raspberries, transcendent, crab-apples, hard maple, soft maple, beech, Norway spruce, American elm, Lombardy poplar, Virginia creepers and wild rose.

Fifty feet or more through the air,

like a flash, is the experience that befell Michael Spies on 21 below, lower discovery, on Dominion. He was unfortunately located, and to be in a position to spar when the spar gave way and fell. He went down with it. The spar struck a timber some distance above the ground, and there Spies fell away. His leg was broken between the knee and the thigh, but otherwise he was uninjured. Spies is now at St. Mary's hospital, and considers himself fortunate to have escaped with as little injury as he did.

D. A. McLellan has been notified that his services will no longer be required in the office of the Dawson gold commissioner. The cause for his dismissal is having or taking an interest in mines in the territory. The regulations state that no employee of the government shall have mines in his own name nor act as an agent in regard for any such properties, and for violation of the rule shall be liable to dismissal from the service.

The warm weather is raising Ned with the creek. The middle of the winter running down Hunker is in sufficient quantity to cut out the ice in deep channels, and that on some of the claims the work has had to be suspended entirely. The middle of the winter has been in several places—as on 20 below for instance—prevented the freezing of the gravel so that work on the claim has been abandoned for the winter, and the machinery and men have been moved onto 19, where the ground not having been so badly disturbed, the frost of years ago still remains in the gravel. Much has been said outside of the disadvantages of the miners of the Yukon suffer under on account of the frost in the ground, but the miners are heard often complaining of the absence of frost than of its presence.

Word has been brought to Dawson that Levin Brothers, mining on Nos. 4, 5 and 6 below lower on Dominion, have within the last few days located pay on those claims, up to which time the property have always appeared to be blanks. The pay runs, it is reported, as

high as \$7 to the pan. The width of the paystreak has not been learned.

GOLD IN YOUR GARRET.

In many thousands of garrets and attics women have gold stored away and are not aware of it. It is not in coins, nor bars, but the gold is held, neither is it in bank notes or bonds; it is there in the form of cast off and faded clothing, garments and materials that can be turned into a gold value by the use of Diamond Dyes.

At a cost of ten cents you can re-color a dress, skirt, jacket, cape, blouse, or waist, and make them as good and stylish as new ones purchased in a store. With one or two packages of Diamond Dyes you can give new life and beauty to your husband's overcoat or suit thrown away because of the rag gatherer. Your cotton and wool rugs re-dyed with Diamond Dyes will make up handsome mats or rugs that will add to the comfort of your home. All the work and transformations suggested will give you results that have a gold value.

EATING TOO MUCH.

Eating too much is a disease of civilization. The uncivilized seldom get too much to eat, or their fastings are preceded or followed by so many days of famine that gourmandizing leaves no evil trace. Where food is abundant, oxygen scarce, muscles soft through inactivity, and the regular occupation a tax upon the brain and nerves, the feeling that one has eaten too much or has not eaten enough, is a frequent and troublesome intruder. At times there is a combined sense of being at once ill-satisfied and overfed. This means simply that one has eaten too much of improper foods and not enough of the right ones. A famous rule for the cure of dyspepsia is simple and succinct: "Take on your plate all you mean to eat, and eat but twice a day."—Good Housekeeping

WASHOUT ON E. & N.

Flood Was the Worst Experienced in Many Years.

H. H. Jones, one of the passengers who arrived on yesterday afternoon's train from up the E. & N. line, gives particulars of the washout, which is evidently the worst in many years. The water of the Koksilah river had risen 12 or 13 feet at the road bridge, while all the structures have been shifted. The main wagon road bridge near Cowichan has been completely washed away. The road from Koksilah station to Cowichan Bay is a raging torrent, while the district in the vicinity of the river is flooded. In fact an idea of the extent of the flood may be gained from the fact that the farmers were unable to get to their stables to feed their stock.

James Maitland-Douglass, who has resided in the district many years, says the present flood is the worst ever experienced. It played havoc with the line, washing the gravel from beneath the track to such an extent that the trains were held on both sides, passengers being transferred from one to the other very slowly and carefully on handcars, after the track had been mended.

Workmen are busily engaged in filling in where the washouts occurred, and otherwise making all secure for the resumption of traffic. The flood was caused by the heavy rain which melted the snow and swelled the river to an unprecedented extent.

HIGH SCHOOL CADETS.

Movement to Organize a Corps Meets With Popular Approval.

The movement to organize a cadet corps among the boys of the High School is meeting with considerable popular approval. A well known banker in the city stated to-day that if the organization were carried out, he would be pleased to head a subscription to secure the necessary accoutrements for the juvenile soldiers. Lieut.-Col. Holmes

at the dinner last evening referred to the movement in complimentary terms, and said he would be glad to give the High school cadets every possible assistance in organizing the corps. The trustee board will meet Col. Holmes this week and discuss the matter with him. Under the Militia Act such corps are governed by certain specified regulations, and the department furnishes the necessary arms for the equipment of the cadets. In all public parades or demonstrations in which soldiers take part, the High school cadets are given a place. It is good training for the boys, and they usually enter upon the work with enthusiasm.

LEGAL INTELLIGENCE.

In Chambers this morning Mr. Justice Walken gave judgment on the motion argued before him yesterday in Macaulay vs. Victoria-Yukon Trading Co., dismissing the application with costs. His Lordship stated that he would deliver written reasons for judgment. J. H. Lawson, jr., for defendants, applied for leave to appeal against this judgment to the full court sitting at Vancouver in April, which was granted.

In Bartlett vs. Tharks, L. Bond, for the administratrix of the Tharks estate, applied for leave to tax costs of administration. The court, which was granted, with a direction that solicitors of all creditors interested in the proceedings be given notice of the taxation.
