HANDS OFF.

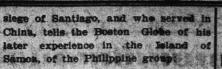

The resolution which Mr. Charlton proposes to offer to the house of commons concerning the South Africa war is a good 'one for parliament to refrain from adopting.

It might be proper and useful for the Canadian house of commons to express sympathy with the cause of loyal British subjects in South Africa, or even to express hope for an honorable peace giving a guarantee of British domination, but it is another question for the Canadian parliament to the unfortunates was killed and fell offer an opinion on the terms and conditions of that peace. There may be grave imperial reasons why a universal amnesty should not be given to Cape Colony and Natal rebels. Even the imperial parliament, to which the British government is responsible, would not think of making such a declaration as Mr. Charlton proposes.

Terms of peace must be determined by statesmen and officers at the scene of action, who are acquainted, with local conditions. The Canadian parliament has not the information nor the authority, nor, we believe, the disposition to intervene with any such undisoriminating, unconsidered, unconstructed and uncalled for pronouncement as Mr. Charlton produces.

Is Connected With Only Three Railway Enterprises in Canada. MONTREAL, April 22.-Dr. W. Se ward Webb issued the following statement to the press before leaving Ottawa for New York, yesterday after-

"My name, and incidentally the Vanderbilt interest, has been so frequently of late mentioned in the Cant I feel it due the per ple to say that I am connected with only three enterprises in Canada, so far as the railroad situation is concerned.

DR. WEBB

Mrs. Lizzie Blevins, 102 Beliver street,

ing to the London Chronicle, they re sent the roundabout manner in which the invitations reached them, and the uncertainty of the status to be accorded them has also been a hesitating factor. The Toronto Globe makes the following quotation from the Chronicle's article:

"Mr. Peacock, the premier of Victoria, has definitely decided not to make the trip, but to send as the representative of the state the Hon. William McCulloch, the minister of defence. Mr. McCulloch is the Nestor of the Victorian ministry, and was chairman of the cabinet committee that arranged all the functions connected with the opening of the first commonwealth parliament in Melbourne last May by the Prince of Wales. His knighthood on that oc-

casion was regarded as a certainty, but somehow he was overlooked. The Queensland premier, Mr. Philp, the also be an absentee. He has delegated the duty of representing the youngest of the Australian states to fts London agent-general, Sir Horace Tozer. The only state of the commonwealth that seems likely to be directly represented at the coronation by its 'premier is little Tasmania."

AMERICAN CRUELTY IN PHILIP-PINES.

Not many months ago the columns of the press of Americal and Europe were reeking with tales of the horrible. manner in which the Chinese treated the captives that fell into their hands The only excuse offered on behalf of the Chinese was the fact that they were not Christians. It was a good excuse from the Angle-Saxon standpoint. Even that astute plenipotentiary, the Chinese minister at Washington, who students alike desire to hear, had trymen.

But all things come to those who sent of either political leaning. If the serve and wait. Chinese statesmen in- editor of the Globe had been present he cludes. It is now in order for the could not have failed of a like interrepresentative of the Chinese empire pretation and the unnecessary impuat Washington to call the attention of tations against Mr. Foster's bad manhis government to the devilish man- ners and bad taste would never have ner in which the Christian troops of been made. But as the sentence stood the greatest republic in the world have in cold print the stinging truth of it acted in the Philippines. He can quote must have been irritating, so perhaps among stories of American atrocities a number from the published statements of men who wors the United

States uniform. Michael Sate of Nat-ick, Mass., a hero of San Juan and the joints timber and muscles in trim.

Ex-Private Skinner of Brockton Mass., while admitting all sorts of brutality on the part of American troops, justifies it on the ground that the Filipinos were awfully treacherous focs. He said to the Boston Globe: "By means of the water cure Col. Scott

at one time obtained information which was of untold value. It could not have been obtained In any other way. It involved a firm supplying arms and ammunition with which Americans were being shot.

"The most exciting expedition in which was concerned was with Lieut. Col. Scott in the vicinity of Pana. We got orders to take no prisoners over 12 years of age and leave no Filipinos alive. So it was a case of kil no rinputos silve. So it was a case of shi the natives on sight. It is nonsense to say women and children were also killed. The only men tortured were those who had in-formation which it was important to make them give up."

The Globe yesterday editorially condemned Hon. Geo. E. Foster for what it called an exhibition of bad taste in attempting "to drag in party politics" with his splendid address before St. George's Society on Monday night. The text of its criticism was an extract from the Sun's report of Mr. Foster's speech, in which the honorable gentleman is quoted as saying: "How could we (Canadians) be more independent than we are? We are even allowed to misgovern ourselves, as we are doing

today." Mr. Foster's words are thus correct-

ly recorded, but no newspaper report can convey the variation of voice and gesture which add so much to that orator's charm and which in this case conveyed to his audience an entirely different impression from that indicated by the Globe's editorial. At the time the speaker was arguing that Canada could not possibly be more free than she is and capped his array of arguments with the jocular statement "that we are even allowed to is a talker that college boards and misgovern ourselves." As he used it the remark was entirely without polinothing to say in defence of his coun- tical significance. It was purely jocu-

lar, and was so understood by all preage.

"As to the Quebec Southern Railway I want to say that I have not one dollar invested in the company, and only became a director because the Rutland railroad, of which I am chair-man, has a trackage agreement with the company, and we use their road from Novan to Quebec Southern Junction, and to this extent I am interested in seeing the property put in proper shape.

"I am not interested financially or in any possible way with any bridge or tunnel scheme in Canada, nor have I ever authorized the use of my nam as a director thereon.

"There is no 'Webb syndicate' in Canada or anywhere else, and I wish to say most emphatically I have no financial representative in Canada." Dr. Webb had a conference with the Canada Atlantic Railway people with reference to the final arrangement for taking over the road. It is expected that the final cash payment will soon be made, and the road pass into the hands of the new owners. The meeting between the parties interested was private, but Dr. Webb said afterward that the road would not finally change hands before June 1, on which date

the option expired. John R. Booth, when seen as to the result of the conference, said that there was nothing new to give out, but that there might be June 8. It is understood, however, that the quest of sale has been dednitely settled.
