

Paying Cash Pays!

Running an Account is very convenient at times, we readily admit; but you must have observed that when you run an account, you are very apt to buy many a thing you would go without if you were paying cash - things no doubt you could easily dispense with to, without injury to yourself or family. And when those extra things come to be paid for - maybe you must then deprive yourself of other things that you actually need or at least go without them for a time, now "Paying Cash" enables you if you want to, to save money. Its very easy to "Charge the Goods" Its not so easy to "Discharge the Debt." So for economy's sake "Pay Cash" And since we have adopted this Cash System we find it moving very satisfactory both to our customers and ourselves, your money will buy you "Better Goods and More of Them" than if we were making bad bills by reckless credit giving.

ANDREW McGEE - - Back Bay

PENNFIELD

Misses Alta and Alberta McKenzie, Wm. Tatton and Walter McKenzie attended Division at Back Bay Friday evening.

THE GRANITE TOWN GREETINGS

THE POVERTY OF CHINA

So Poverty Stricken are Certain Classes that no Weed or Fungus Escapes the Gleaner.

"Nowhere can the student of man's struggle with his environment find a more wonderful spectacle than meets the eye from a certain seven-thousand-foot pass amid the great range of mountains in West China and the rivers that make famed Szechuen the 'Four-river province.' Except where steepness or rock-encroaching, forbids, the slopes are cultivated from the valley of the Tung-ho right up to the summits, five thousand feet above.

"Were it not for an agriculture of incredible fertility, the fertility of the soil would have been spent ages ago. In a low-lying region like Kiangsu, for example, the farmer digs an oblong, shallow basin into which every part of his farm drains. In the spring, from his bottom he scoops for fertilizer the rich deposit which collects in the basin. The leaves he recovers by dredging the private canal that connects him with the main artery of the district.

"No natural resource is too trifling to be turned to account by the teeming population. The sea is raked and strained for edible plunder. Seaweed and kelp have a place in the larder. Great quantities of shell-fish, no bigger than one's finger-nail, are opened and made to yield a food that finds its way far inland. The fungus that springs up in the grass after a rain is eaten. Fried sweet potato-vines furnish the poor man's table. The roadside ditches are bailed out for the sake of fishes no longer than one's finger. Great panniers of strawberries, half of them still green, are collected in the mountain ravines and offered in the markets. No weed or fungus escapes the bamboo rake of the autumnal fuel-gatherer. The grass-tuffs on the rough slopes are dug up by the roadside rakes. The leaves of the grain close to the ground, for straw and chaff are needed to burn under the rice-kettles. The leaves of the trees are a crop to be carefully gathered. One never sees a rotting stump or a mossy log. Dead trees have been taken for fire-wood. The forbidding heights are scalded by lads with axe and mattock to cut down or dig up the seedlings that, if left alone, would recolonize the devastated ridges.

TEACHING THE DOG

The training of animals, to teach them to perform all sorts of entertaining tricks, is a task that requires talent on the part of the trainer, but above all, demands patience and a thoroughly methodical procedure. Begin with the dog, and see how he is taught his tricks.

The first thing every dog must learn is his name. Select a short, sharp-sounding name, and stick to it. Never call him anything else. If you have several dogs, the name is taught on the same principle. Divide their food, and then, placing a piece on the ground call each in turn by his name, and give him the food when he comes for it. Send the others back if they come forward out of their turn. By and by they will learn that a certain name is always associated with a certain dog. Rattle among the dogs, and call out one of their names every now and then. If the right dog comes to you, reward him with a piece of cracker. Pay no attention to the other dogs. They will learn very soon; and the first great lesson - dependence and obedience - will have been learned.

Having taught a dog to fetch and carry which he will easily learn - the next thing is to teach him to go and get any object called for. Place a glove on the floor; then say to the dog, "Fetch the glove," and teach him to fetch this in a similar manner. Now place both objects on the ground, and teach him to fetch either one, as asked for - rewarding him when he brings you the right one, and rebuking him when he fetches the wrong, which you take from him and replace. He will soon learn to distinguish the articles, when a third may be substituted, and so on until a number are on the floor. You should then go into the next room, taking the dog with you; and send him to fetch any article you mention. After a little time he will bring you the right one every time. Similar methods can be adopted with regard to other articles and the letters of the alphabet.

The Refert Courteous.

Workers are, doubtless, they who shall inherit the earth. But certain indolent natures, gifted with wit, can afford to take occasional chances as residuary legatees. A writer in "Vanity Fair" tells of one such fellow, a student in a noted philosopher's class. The student, who was a lanky youth sitting in the rear seat. His attitude was sprawling, and he was either asleep or seemed about to sleep. "Mr. Fraser," said the philosopher sharply, "you may recite!" "Fraser opened his eyes. He did not change his recumbent pose. "Mr. Fraser, what is work?" "Everything is work." "What? Everything is work?" "Yes, sir." "Then I take it you would like the class to believe that this desk is work?" "Yes, sir," wearily, "woodwork."

Cutting Out the Tobacco. The heads of the provincial Civil Service throughout British Columbia, have issued a circular to their various offices prohibiting smoking during office hours. The Canadian Pacific Railway long ago tabooed the use of tobacco by their employees during working hours and its example has been generally followed by other large corporations.

Ten thousand officials, whose salaries amount to £280,000 a year, manage the trade union affairs of the United Kingdom.

"yes," said Miss Backby. "Emerson appeals to us women of Boston, although he has passed beyond, we always keep him in our hearts, you know."

"You don't say?" replied Miss Knox of Chicago. "I wonder how it feels to be kept in cold storage like that?"

Lawyer-Now, sir, from what you know of his reputation for truth and veracity in the community in which he lives, would you believe him under oath? Witness-Yes, sir, as a gen'ral thing. Of course, if it was absolutely necessary for him to swear to a lie, I reckon he'd do it, mister same as you.

Former St. John Man Dead In The West Left Millions.

Wm. Carson, of Eureka, California, Fallen First Redwood Tree-Worth \$20,000,000. One of the best known and wealthiest of California pioneers in the person of William Carson, who went there from St. John, died recently at Eureka (Cal.), of old age, leaving an estate worth between \$15,000,000 and \$20,000,000. The late Mr. Carson went to California in 1850 the year after the first boom there and was famous as having been the first man to fell a giant redwood for lumber purposes. Besides owning large tracts of valuable timber land in California, he had purchased great holdings in his native Canada in different sections of the West. He was 87 years of age and is survived by one daughter, Mrs. Lottie Tyson, wife of R. J. Tyson, of San Francisco, and three sons, Milton, Sumner and William Jr. Mr. Carson was born at Elmville July 15th 1825 and has a number of relatives in this county.

LOCALS

The Epps Dodds & Co., and Milne Cotts Mills resumed work for the season on Monday.

Moving pictures at Cotts Hall 3 nights each week, Monday, Wednesday and Saturday, entire change of programme each night.

Red Granite Division will fraternize with the King George Bocabec Division their rooms at Bocabec tonight leaving here about 6 p. m.

Several members of Red Granite Division went to Mascarene on Monday evening to assist in organizing a division at that place, a very pleasant evening was spent by those going, and after the completion of their work they returned home about midnight.

The heaviest snow storm of the season visited us on Tuesday and Wednesday, about 12 inches of the beautiful falling, ten or twelve people were put on to clear the rink during Wednesday and skating of a pool quality was furnished the rink patrons that evening.

Halifax Hockey Game Marked by Disgraceful Row.

Halifax, Feb. 27. (Special)-The Crescent Social hockey game tonight almost became a free fight with hundreds of citizens and several police on the ice. It began with a mix-up between Twaddle and H. McNamara, who rolled on the ice, Twaddle on top. McNamara went to his brother's assistance and a scuffle ensued. Then police and citizens rushed on the ice and the combatants were separated.

Twaddle and H. McNamara were penalized for the rest of the game, which was ten minutes.

A NEW RICE PUDDING.

Wash a cupful of rice, and put it on to boil in a cupful of boiling salted water. Let it boil for ten minutes; then pour in a pint of milk, and let it cook for half an hour without stirring. Take the saucpan from the fire, stir in a heaping tablespoon of sugar, one tablespoonful of marmalade and two eggs well beaten. Turn the pudding into a buttered dish and bake for an hour in a moderate oven.

Theatre Manager-You say you object to having real food on the table in the banquet scene, Mr. Greesepaynt. Why, the rest of the company are delighted at it. Mr. Greesepaynt-Yes; but my part requires me to rise from the table after a couple of mouthfuls and say: "I cannot eat to-night-a strange dread comes over me. I will seek the quiet of yonder apartment for a time."

TO COOK TROUT.

If you would like to serve trout in perfect condition, proceed as follows. Place the fish on a dish, pour over some melted butter, and let it soak for a few minutes then dust with pepper, and cook slowly on a grilliron over a clear fire from ten to fifteen minutes, according to the size of the fish.

A crowded meeting was held in London, Friday night, Feb. 9, to protest against the resolution of the Upper House of Canterbury Convocation in favor of the permissive use of Eucharistic vestments in the Anglican Church. Sir Pdw. Clarke, K. C., and the Dean of Canterbury were the principal speakers.

ADVERTISE

IN THE "GREETINGS"

Obituary

Chas. H. Fuller outside manager of the St. Geo. Pulp & Paper Co., passed to his rest on Thursday morning about 5 o'clock at the early age of 45 years, after a lingering illness, which lasted practically since the winter 1910-11, when he was confined to the house for some weeks, but recovered sufficiently to be around and attend to a part of his business during the past summer. With the commencement of the cold weather he was again taken ill and has for the past few weeks been gradually sinking in spite of the best care and attention.

Deceased was a native of Schroon Lake, New York, but lived a large part of his life in Hudson Falls where his parents now live, he is survived by his wife whose maiden name was Miss Lillian Bromley of Hudson Falls. He came to St. George in May of 1902 when the Co., purchased the property and assisted in the superintendence of the building of the mill and establishing of the business, and has since resided here, and by his affable and genial disposition, gained the respect and friendship of all who come in contact with him either in business or socially.

After the mill was completed he took charge of the lumbering and outside business of the Co., which brought him in contact with the residents of almost all sections of the county, and few were so generally known.

The remains will be taken to Hudson Falls for interment and will likewise here to-day (Friday), a short service will be held in St. Mark's Church at 10 a. m. and the remains then taken to the train.

Mrs. Fuller's sister was expected to have arrived here to-day but it is not sure now if she will come or not. The sympathy of all go with the bereaved wife in her sad and irreparable loss.

Mrs. Danl. Thompson of Beaver Harbor who went to St. Stephen Hospital a few weeks ago and underwent an operation there about 3 wks. ago and who was thought to be doing well died quite suddenly on Sunday evening.

Word was received of her serious condition by her relatives that morning and arrangements were made for the Steamer Connors Bros. to take a number of them to St. Stephen where they arrived in time to be present at her death, being conscious to the last and able to recognize and bid them all farewell.

They returned to Beaver Harbor that evening bringing the remains with them. Deceased who was a Miss Berry was highly respected by a very wide circle of acquaintances, her position as manager of the Beaver Harbor Trading Co.'s store for which company her brother is manager brought her in business contact with almost everyone in their home village, and vicinity.

The heart felt sympathy go out to the sorrowing husband and relatives in their sad and unexpected early loss.

John A. Brown died at his residence, Upper Letang, on Thursday afternoon of last week at the early age of 46 years and 8 months, of stone cutters consumption from which he had been a sufferer for some years, he leaves a wife formerly Miss Gussie Daley of New River and a large family of 13 children, the oldest of whom is 17 years. His father Wm. Brown also survives him, and his mother predeceased him by only a few wks. Much sympathy is felt for the wife and family.

Representatives of an English syndicate are in New York with a plan for merging a score of the largest printing establishments in the East into a single organization with a capital of \$5,000,000. The English capitalists hope for large profits through the application of modern business methods and the conservation of time, material and labor. A similar consolidation was attempted by English capital about 11 years ago, but fell through.

Deacon McLaughlin has been quite ill for the past week.

MOST ANYTHING

Says Queen Mary, "I think it's a fright. These gowns are so awfully tight. When at court, ladies bow. There's a terrible row - A rip, then a split, what a plight!"

Breathes there a man with soul so dead Who never to himself has said 'I do not fear th' alarm clock's ring; Last night I didn't wind the thing.'

This time of year, the Esquimaux, Amid the Arctic ice and snow, Begin to have the laugh on us Who sit and swelter here and cuss.

"Yes," said Diogenes, "I've quit looking for an honest man. I'm hunting a fountain pen that won't ink your fingers."

The Collarless Beer. Prof. Burton N. Gates of Amberst college is trying to develop the collarless bee. While he's at it, he might tackle the collarless beer.
