June 129 3-8.
July 129 3-4.
October, 107 3-4.

NEW YORK STOCK MARKET VERY DULL

By Associated Press.

New York, N. Y., June 23.—The intense dullness of today's stock market served to obscure the importance of the price movements, which were remarkable in several cases. The general firmness was influenced by sympathy with the notable strength in these special stocks, but more distinctly by the technical factors in the position. Principal of these was the building up of a short interest which proved to possess little determination in maintaining their position with signs of resistance to the downward course on prices. Covering of shorts made up an important part of the day's demand. The conclusion of the London stock market settlement with no casualties as a result of the heavy declines since the preceding settlement removed a cause of apprehension and brought in some important buying of stocks here from that source. The copper industrials were affected by large covering of shorts in London which induced a sharp upward reaction from the severe depression from which they have suffered in that market. Some sympathetic effect was produced on copper industrials in New York, although they were laggard in comparison with the general upward tendency. The movement that attracted most notice in the day's market was that in Union Pacific preferred, which moved up to a record price and one out of line with its investment return compared with the current money market. Rumors of an intention to retire the stock would be to avoid the embarrassment of claims from the preferred stockholders to share in a distribution of investment holdings by the company of other shares. Such distribution was under official discussion at one time when the company was under scrutiny for alleged violation of the interstate commerce law in holding those shares. The company has no explicit right reserved to retire the preferred stock at a fixed price as was the case with Southern Pacific Pfd. and it was assumed therefore that a plan must be attractive to preferred stockholders to induce their acceptance. The day's rumors had to do with a supposed offer of one share of Union Pacific Common stock for two shares of the preferred or an exchange of a convertible bond for the preferred stock with rights of conversion into common stock, presumably at a price above the current market quotation. There was nothing like official confirmation or countenance for these rumors, but they were extremely effective with Union Pacific and revived consideration of various other deal rumors. This was of effect in advancing Wabash Preferred, Reading, New York Central, Atchison and others which have been the subject of deal rumors. American Woolen Preferred declined sharply in reported sale of additional preferred stock by the company. Third Avenue suffered again from the supposed vicissitudes of the reorganization plan. The pronounced dullness which has developed in the demand for copper was responsible for the backwardness of the stocks of copper companies. Little attention was paid to the engagement of a million dollars of gold for shipment to South America and the maintenance of exchange rates near the level of profit on shipments to London.

CORN, OATS AND PORK.

NOTES ON NEW YORK STOCK MKT.

(By Direct Private Wire to J. C. Mackintosh & Co.)

New York, N. Y., June 23.—Americans in London firmer 1-8 to 1-2 above parity. Reported plan for segregating Lackawanna coal properties settled at directors meeting, but no immediate announcement expected.

The Senate retains 15 per cent. duty on hides.

Conferences in Washington on corporation tax which is likely to be voted on this session.

Federal grand jury considering sugar business and may indict important officials.

Baltimore and Ohio should earn 7 per cent. on common in fiscal year.

Beth. Steel operating about 75 per cent. of maximum capacity.

Copper producers here say reaction in London due to manipulation.

Proposal to arbitrate import freight difficulties of eastern roads.

London settlement began today and quotations are now for new account.

Lighter bull account shown at the carry over in London money firm on account of the end of year.

Hudsons Bay Company reduces semi-annual dividend, making two pounds ten shillings against three pounds last year.

Twelve industrials advanced .37 per cent. 20 active rails advanced .12 per cent.

UPTOWN SENTIMENT ON THE WALL STREET MARKET.

(By Direct Private Wire to J. C. Mackintosh & Co.)

New York, N. Y., June 23.—Speculators in the uptown district appear to be gaining renewed confidence in the bull position, though most of them are of the opinion that aggressive operations on the long side of the market are not likely to be profitable for the near future.

They assume that a great deal of distribution of stocks by inside interests had taken place prior to last week's and Monday's decline in prices and working on that theory the conclusion is that the market will not recover their losses until a real re-accumulation of stocks on a considerable scale for these same interests has been accomplished. The observation of all leading speculators is that accumulation of stocks usually goes on during periods of comparative weakness.

CLOSING STOCK LETTER.

(By Direct Private Wire to J. C. Mackintosh & Co.)

New York, June 23.—Today's stock market showed a materially stronger undertone although there was no evidence of any renewal of concerted buying. The contradiction of yesterday's rumor regarding the health of Mr. Harriman and the reported elimination of certain objectionable features of the proposed corporation income tax but furnished a pretext for short covering and the market responded in a manner to indicate a much stronger technical position. There is little more to be said except there were evidences of accumulation of certain stocks, notably Atchison common, of which it was predicted with confidence that the rate of dividend would be restored to a 6 per cent basis in the fall. Underlying conditions are good as they have been at any time this year and a resumption of the upward movement seems only a question of time. Crop developments over the next few weeks will be the influence.

RENEWAL OF REPORT OF CHANGE IN SECURITIES OF UNION PACIFIC.

(By Direct Private Wire to J. C. Mackintosh & Co.)

New York, June 23—Banking and other interests directly affiliated with the Union Pacific Railroad states that they are cognizant of no preparative action to account for the advance in the preferred stock. Reports current in Wall Street, however, are that Mr. Harriman has in view the retirement of the Preferred. This alleged proposal to call in the Preferred stock, it is rumored, is preliminary to the launching of the long talked of project for the segregation of the Union Pacific's assets lodging control of its large investments in the shares of other concerns in holding company. There is no specific provision in the Union Pacific charter permitting it to retire the Preferred and such a step would have to be accomplished through the assent of the stockholders. Those who do not believe that such a plan is under way assert that it could easily be upset by a single common or preferred stock holder through injunction proceedings. The company has an authorized issue of $200,000,000 preferred stock, of which $99,544,100 is outstanding and if it should be retired in the manner suggested the common stock would be increased by approximately $50,000,000 to about $245,000,000.

NEW YORK COTTON MARKET.

(By Direct Private Wire to J. C. Mackintosh & Co.)

New York, June 23—Liverpool prices at the opening were close to parity with last night's closing and at the hour of our opening the foreign market had risen from four to six points further. Our market opened firm at an advance ranging from 4 to 13 points and thereafter the trend wah steadily upward. Moderate reactions intervened at times but there was steady and seemingly inexhaustible demand on every small recession. Certain big Wall Street interests were credited with the sale of about 25,000 bales but these offerings were off-set by a heavy demand from the west and south. Weather reports showed further rains in the central and eastern belt and there were stories of further damage to the crops in Alabama and the Mississippi Valley. As long as these bad weather reports continue in conjunction with the strong statistical position of the staple there is but one side to the market. It is possible that some realizing will occur before the government report but if that document meets popular expectation it would not be surprising to see a wide upward movement of prices.

WOULD SHUT OUT U. S. PACKERS

Liverpool, June 23—In view of the recurring reports as to a probable shortage of beef, owing to American trust methods, the agitation is growing favor of inducing the British Minister of Agriculture to remove the embargo upon live animals from the Argentine, in order to enable the people of this country to get a better supply of fresh meat. The agitation is being assisted by the Liverpool Chamber of Comerce, and is also being largely supported by many of the large associations interested in the supply of meat. The Manchester Butchers' Association and the Liverpool District and Woodside Lairage Meat Trade Association have taken the matter up, and it is understood that the question wil be brought forward at the forthcoming annual meeting of the Foreign Cattle Traders' Association of Great Britain. The Mersey Docks and Harbor Board have addressed a letter to the Chamber of Commerce pointing out how greatly they are in accord with the question, and mentioning that they have written to the president of the Board of Agriculture in support of the action of the Chamber. The Dock Board have further urged upon the Board of Agriculture that special facilities are available at the Birkenhead Foreign Animals' Wharf for dealing with animals which might be found to be infected. Such animals could be dealt with at the Wallasey portion of the wharf, and be kept entirely separate from animals landing at the Woodside portion.

Efforts Watched.

The efforts which it is believed the American meat combine is making to secure control of the Argentine market are being watched with interest by all connected with the trade in Liverpool, both importers and owners of cattle carrying steamers. Discussing the subject on Saturday a well known authority at this port said the control of the Argentine meat trade would be to the detriment of all, as the Americans could then do what they liked. The men from whom the meat was bought would be squeezed very hard. It would be purchased at the cheapest rate, and the combine would afterwards make the markets here to suit themselves. If the combine worked it would also squeeze the ship owner who carried the stuff. There would be an attempt to reduce freights in the whole of the refrigerating tonnage to this country and Australia, because a number of Australian boats called as well. The trust would no doubt act on similar lines to what it did in the North American cattle business. When it got control of that trade it knocked the rates down because there was no competition. The consumer here would be eventually affected. The trust, if it secured a monopoly in the Argentine, would get a monopoly of the other products of the cattle, and hides, tallow, horns, bone ash, etc., would go along with the meat. The outlook was, therefore, one which should be carefully watched.

CHANGES IN DIRECTORS OF QUEBEC RAILWAY, LIGHT & POWER COMPANY.

(By Private Wires of J. C. Mackintosh & Co.)

Montreal, June 23—The long anticipated changes in the directorate of the Quebec Railway, Light and Power Co., took place today. Hon. John Sharples, George Thomson, William Hanson and William Shaw have retired, and their places are taken by Mr. W. G. Ross, Senator R. McKay, Neuville Belleau and J. N. Greenshields. Mr. William Price remains as director and Mr. Frank Ross, one of the largest stockholders supporting the old regime, retains his holdings and will sell when it suits him. Mr. W. G. Ross, of Montreal, succeeds Mr. G. H. Thomson as President.

Announcement

We announce the opening of our offices at 111 Prince William Street, St. John, N. B. (Chubb's Corner)

We have established direct private wire connection with New York, Boston, Chicago, Montreal and Toronto, and are prepared to execute promptly and efficiently orders for the purchase or sale of Stocks, Bonds, Cotton, Grain or Produce listed on the Exchange of these cities.

In our Investment Department we buy and sell, without commission charge, unlisted Bonds, Debentures and Investment Stocks.
Send for our list of offerings.

MORE RUMORS OF STRIKE OF MINE WORKERS AT GLACE BAY.

(By Private Wires of J. C. Mackintosh & Co.)

Sydney, June 23—Reported that Dan. McDougall, local president of the U. M. W. A., received word from G. M. T. F. international board at Indianapolis yesterday approving a strike here on the 5th of July. No confirmation of this has been received and it is sincerely hoped that there will be no strike. The public is anxious to see the company and men work in harmony now that business has begun to pick up.

A FALLING OFF.

(Omaha Bee.)

Erskine M. Phelps of Chicago was introduced at Nice to Lord Blank of England. As he was smoking, he said to Lord Blank: "Will you have a cigar?" "Thank you, but I smoke only one brand, the Henry Clay." "All right, I'll order some." The box was brought. It was embellished with the familiar picture of "Harry of the West." As he took his cigar, Lord Blank said: "When old Clay was alive he made a good cigar, but his sons don't keep up his reputation." "Henry Clay! Why, he didn't make cigars; he was a statesman, and ranked as high with us as Gladstone or John Bright do in your country." "I beg your pardon. I've smoked these cigars all my life, and I tell you old Clay made a d—— sight better cigar than his boys do."

NEW YORK DROPS 2 MOR TO RED SO

National League.

New York, June 23—New York two games from Boston today, scores being 5 to 4 and 11 to 1. In first contest the locals got the ning run in the ninth inning on fey's error, two bases on balls Tenney's single. Sweeney and De were put out of the first game fo puting a decision.

The second game was a farce, York using sixteen players and he no trouble in getting runs. scores:

BOXING NOTES.

One of the reasons why Jack J son left the Hub in such haste because of the stories that Jef got $2,500 for boxing six-mi rounds with his sparring partne Pittsburg. So he has signed art to meet Tony Ross, the Italian he weight in a six-round bout at P burg, June 30, in Duquence Gar the same place and under the s club auspices as Jeffries did. This a fight, not an exhibition, bu Jack gets $2,500 he'll be lucky.

Monte Attell, who knocked Frankie Neil in 18 rounds at Co Cal., Saturday afternoon, has po a forfeit of $1000 to meet any ma the world for the bantamweight
