

NEWS OF THE CHURCHES

BAPTIST

The Canadian Baptist is given up largely this week to the Grande Ligne Mission. Several beautiful cuts adorn the pages, among them being the picture of the late Madame Feller who was the founder of this mission. Never in all the history of the Grande Ligne Mission was more attempted or accomplished than at present. The staff of professors and teachers are accomplished Christian workers, who are giving themselves unselfishly to the task of training young men and women for their life's work. Baptists should give their prayers and their means to support this noble and Christ-like work.

Rev. A. C. Berrie preached last Sunday on the Hopewell field. We hope some of our vacant churches will give this able preacher a call. Mr. Berrie has proven himself a most successful pastor. It will be too bad if we lose him from our provinces.

Rev. W. E. Piper, B. A., has been spending a few days in Albert County preaching for Revs. Mr. Corbett, Mr. Worden and Mr. Markham. He is to supply the St. Andrew's and Bay-side churches on Easter Sunday. Mr. Piper is a very thoughtful preacher.

Rev. J. H. McDonald, D. D., preached in Gernia street church Sunday. He will soon enter upon his journalistic work as editor of the Maritime Baptist. His many friends wish him every success in his new field of service for which he has so many eminent qualifications.

Rev. J. H. Jenner, M. A., preached very acceptably in Brussels street church last Sunday. Mr. Jenner is leading the Baptist people of Campbellton with marked success. He is an able preacher, a wise leader, and a devoted pastor.

Mr. H. Percy Everett, B. A., is to supply Brussels street on Easter Sunday. Mr. Everett is about completing his theological course at Wolfville. He has proved himself a good student and promises to make an earnest and successful pastor.

Rev. S. W. Schurman, M. A., who preached at Hillsboro last Sunday made a most favorable impression on his congregations and is likely to receive a call from that church. Mr. Schurman has done splendid work at Hillsboro and his people will very reluctantly give him up. At present Albert County is in need of three or four pastors.

Stephen Graham is contributing a delightful series of articles to The Times just now, entitled "Returning to Russia." But the chief interest of the article is the description of Mr. Graham's visit to the Baptist church in Vladivostok. When he was in that city five years ago he lodged at an old mill. The owner of the mill is a Russian Baptist pastor, who was from home at the time of this second visit, having gone on a long proselytizing tour. When we reached this point in the story we referred to the Baptist handbook, and found that there is a Baptist church in Vladivostok, with 170 members, the pastor of which is E. K. Saville—the mill owner we suppose. Since Mr. Graham was there five years ago, Mr. Saville "has been to America with a number of other Russian pastors, and has seen how things are done in the west." No doubt this is a reference to the Second Baptist World Congress in Philadelphia in 1911.

In 1909, when Mr. Graham paid his first visit, Russian Baptists were just beginning to lift up their heads after Stolypin's emancipating ukase, and Mr. Saville came to him one day and asked him to translate a Russian letter into English for him. It proved to be a letter to Mr. Rockefeller, telling him the conditions of the Baptists in Vladivostok and asking his help in building a meeting-house. At that time the Baptists worshipped in a mysterious upper room, and had to be very careful in entering and leaving the building. But now Mr. Graham accompanied the whole family to service in a "high, imposing looking, well lit chapel, with stone steps and accommodation for 1,000 worshippers," rising boldly out of a wilderness of mud on the Georgian road. This building cost 20,000 roubles to erect, of which 8,000 still remains to be paid. Of the other 12,000 about 3,000 came from

PIMPLES NEARLY COVERED FACE

Especially on Forehead and Chin. Ashamed to Go Out. Cuticura Soap and Ointment Cured in Month and a Half.

McMillan St., Oil City, Ont.—"My face was nearly covered with pimples, especially on my forehead and chin. The trouble began with pimples and blackheads and there were times I felt ashamed to go out. They were little red lumps and then fostered and I squeezed the matter out. I rubbed on different remedies, ———— Salve and ———— Cream but they did no good. Then I saw the advertisement of Cuticura Soap and Ointment and sent for a sample. I got it and began using them and in a week's time I noticed a change. I used the sample of Cuticura Soap and Ointment and a box of Cuticura Ointment from the drug store with the Cuticura Soap. In a month and a half the pimples and blackheads were gone and I am completely cured." (Signed) Miss Lydia McMillan, May 22, '13.

A generation of mothers has found no soap so well suited for cleansing and purifying the skin and hair of infants and children as Cuticura Soap. Its absolute purity and refreshing fragrance alone are enough to recommend it above ordinary skin soaps, but there are added to these qualities delicate yet effective emollient properties, derived from Cuticura Ointment, which render it most valuable in overcoming a tendency to distressing eruptions and promoting a normal condition of skin and hair health. A single cake of Cuticura Soap and box of Cuticura Ointment are often sufficient when all else has failed. Sold by druggists and dealers everywhere. Liberal sample of each mailed free, with 22-c. skin book. Address: Post-office Box 5789, St. John, N. B.

America, whether from Mr. Rockefeller or not. Dr. Clifford would be the last to lament—rather would he be the first to recall with gratitude—the fact that it was estimated necessary by the fathers and brethren, in the days of his youth, to put him upon probation for six months before admitting him to the regular plan of presbytery. Never has he shirked any training necessary to the equipment of mind and heart for the battle and the work of life. But none of these fathers and brethren thought that the strapping who was "on trial" for six months would preach the oracles of God for sixty years without intermission. It was on February 19, 1854, that the doctor, then a lad of seventeen, was admitted to the Nottingham District Local Presbytery Plan, after duly preaching a "trial sermon." Four years later—in 1858—he settled in his first and only pastorate. In the same year that Dr. Clifford was officially "recognized" as a preacher, another raw country lad was invited to the charge of the church at New York City. H. Spurgeon's course ran all too swiftly to its close, but his compeer still holds on his way, a prince among men, a mighty preacher, a prophet of the Lord—albeit always a messenger, not of evil tidings, but of good.

The Spectator asks still more pertinent question. If the calendar is to contain the names of the great men of the whole church, why omit Bunyan and Baxter? If Bunyan is honored by a whole window in Westminster Abbey, he may surely be deemed worthy of a single line in the church calendar.

The Renaissance of Asia

Mr. George Eddy, who was Dr. Mott's companion in his recent journey through Asia, has summed up his impressions in a book just published and called "The New Era in Asia." There is, he thinks, only one thing in modern history with which the changes taking place in Asia can be compared, and that is the Renaissance of Europe four centuries ago. He observes the same principles at work in India, China, Japan as created our western civilization. Just as Europe arose under the influence of the classic literature of Greece and Rome, so the east is awakening to a like freedom and energy of thought under the influence of western education and western science. This renaissance is observable along many lines, political, intellectual, economic, and social, illustrations of which will be cited as typical which will probably astonish most of our people. Japan claims to have ninety-seven per cent. of the children in the public schools, and more new books were published in Japan last year than in England or America.

Arrest of the Rev. J. S. Bewick

A great sensation was caused on Friday by the announcement that the Rev. J. S. Bewick, one of our missionaries on the Congo, had been arrested by the Portuguese authorities.

PRESBYTERIAN

Rev. A. T. McDonald, late of London, N. S., was inducted to the pastoral charge of St. John's, N. S., on Thursday, April 9. The congregation of St. John's has been vacant since the removal of Rev. W. F. Burns to Vancouver, B. C. The mission fields of Chadwick, Scott, and Settlement and Humphrey, N. B., will likely extend a call to a minister at an early date. The congregation of St. John's Church, St. Andrews, N. B., extended a call to Rev. W. M. Fraser, B. Sc., of Halifax, N. S., March 31. The call will be considered at a special meeting of the Presbytery of St. John next week.

Rev. R. G. Vane and Mr. A. P. MacIver are among the men who will be employed in the mission fields of British Columbia during the summer months. Both these gentlemen are from New Brunswick. Mr. MacIver was catechist at Humphrey's in 1912.

Rev. William McPherson, of Waterbury, N. S., has been elected to Le-Have, N. S. The call has been sustained by the Presbytery of Lunenburg and Yarmouth and provisional arrangements made for the induction of Mr. McPherson May 6.

The Board of Foreign Missions, W. D., convened in Toronto this week. The first part of the meeting was taken up with a conference. The names of several volunteers from the Maritime Synod would be before the Board for appointment to the foreign field.

Halifax Presbyterian College will hold its closing exercises on the last Wednesday of April. There are fifteen students in this year's graduating class, which is probably the largest in the history of the college. Three graduates are sons of New Brunswick, Messrs. G. W. Irvine of St. John, Grover Livingston of Rexton, and Sterling S. Thompson, of Fredericton.

The General Assembly's Authorization Committee (E.D.) will meet in Halifax April 29, when applications for grants from congregations needing financial assistance in all sorts of the Maritime Synod will be considered. There will be about eighteen applications from the New Brunswick presbyteries before the committee.

Rev. Henry Dickie, D.D., of Chatham, Ont., has been nominated by the Presbytery of Chatham for the vacant chair in Halifax Presbyterian College. Dr. Dickie is well known in the Maritime Provinces, having held pastorates at Summerside, P. E. I., and Windsor, N. S. Mr. H. Yam Cho, the young Korean who came out to Chatham last time to receive an education, is at present attending Truro Academy. Truro is the home of Miss Louise McCully, at present missionary in Korea, and H. Yam Cho was her teacher in the language of Korea.

The Presbytery of Truro has agreed to recommend to the Synod of the Maritime Provinces that the annual meeting open at ten o'clock in the morning, instead of at half-past seven in the evening of the first Tuesday of October, and that a limit be set to the time taken for speeches and the presenting of reports.

The General Assembly's Committee on Church Union is making a survey of church conditions throughout Canada. Questionnaires have been sent to

congregations and presbyteries seeking information upon all matters relating to the population to be served by the churches in the several communities and the number of churches ministering to each community. Inquiry is also made as to vacancies in the several presbyteries, the frequency of pastoral changes, the possibility of readjustment and co-operation with a view to greater efficiency. It is expected that a partial report based upon the answers to inquiries will be forthcoming at the meeting in June next.

Rev. J. A. Scrimgeour and His Work in British Guiana.

Rev. J. A. Scrimgeour, home for a few months on furlough from British Guiana, left last evening with Mrs. Scrimgeour on a trip across the continent to visit Mr. Scrimgeour's parents in Vancouver. He has been missionary in Trinidad and British Guiana since 1900. His ruggedness gives the lie to the general impression that the climate of that equatorial land is deadly for the Canadian. "The climate of Trinidad and British Guiana is not unhealthy for Canadians," he says, "and even if it were, where the Canadian and Englishman can go in the interests of commerce, can not the Canadian also go in the interests of the gospel of Christ?"

He addressed the W.P.M.S. thank-offering service in St. John Presbyterian church on Thursday evening with much interest and profit to those present. After describing the physical features of the country, and incidentally showing the possible commercial and political relations between the British colony and Canada, he graphically sketched the work of the Canadian missionary enterprise among the East Indian population there. "We have to do," he said, "with an eastern people in a western environment, a people who are becoming rapidly westernized, and the work of the Canadian missionary enterprise among them is a harder task than that of the Englishman."

Special music will be provided.

THE ADVT.-FILM
A NEW TRICK

Theatre Managers Wary of "Boost" Pictures.

Picture house managers have hardly yet recovered from the resentful mood in which they listened to pulpit orators, cranks and others denouncing their business as unclean and demoralizing a few months ago. Now these same awful men are being courted by leaders of the other who have exceedingly dull eyes to grind. These enemies of a short time ago want free advertisement through the agency of the motion picture. If they happen to be the local representative of a wide awake American or English concern, possibly an Upper Canadian manufacturer, they are furnished with a few hundred feet of film depicting the life of a "Life of a Salt of Cloth." Some want to exploit a real estate proposition; others have fruit farms to sell; patent medicines to tell about, etc.

It is getting to be a regular fact, this commercial filming. Some small theatre managers succumb to this kind of free programme, especially in the towns and villages. Little do they realize this is the very best form of advertisement they can get. Therefore, vertizing a project can set. Therefore, the managers should be made to pay for the business man, who a short time ago saw fit to heap odium upon the picture houses, may be shown the error of his way. One manager says he has at least made to pay for his mistake in judgment.

The more relentless press, arch-enemy of the movies for a long period, has finally capitulated to the public's will and now heartily co-operates with well-conducted picture theatres. The educational programme seems complete. Therefore with a prestige permanently established leading picture

MAKE POSSIBLE THE CURING OF VALVULAR TROUBLES OF HEART

Head of Rockefeller Institute Confident of His New Method of Surgery.

New York, April 10.—Dr. Alexis Carrel, head of the Rockefeller Institute and winner of the A. Noble prize in science, discussed his latest experiments in surgery of the heart before the American Surgical Association here today. These experiments were performed on dogs, with the idea of developing methods and technique which can now be successfully applied to human subjects. "In several recent instances," Dr. Carrel said, "I have succeeded in clamping on man the neck or pedicle of the heart, thus shutting off the circulation of the blood for a period of two or three minutes, and giving opportunity for a rapid operation on the aortic and pulmonary valves. After the operation was completed and the clamps removed the heart resumed its pulsation and after a very short time the pulsations became regular. An interruption of circulation for a much longer period is undoubtedly possible, so that operations of a more complicated nature could be performed."

"In no case were there any accidents or was there any need of massaging the heart when the interruption of the circulation did not exceed two and one-third minutes. The valves were generally exposed by an incision about an inch and a half long, made on the pulmonary artery and half on the ventricle of the heart."

Dr. Carrel indicated that this new surgery would make possible the curing of many valvular heart troubles.

ST. JOHN'S (STONE) CHURCH.
Easter Day.

Morning prayer and Holy Communion 11 a. m.
Opening voluntary violin (Miss O'Leary Murray) and organ, "Adoration," Borowski.
Antiphon—Proper Psalms and choral.

Offertory "Holy, Holy," Gounod.
Organ recital after service.
D. ARNOLD FOX, Organist.

EXMOUTH STREET CHURCH.
Evangelist Gypsy Simon Smith will preach and sing at both services in Exmouth street church tomorrow. Special Easter music by the choir. Everybody welcome.

"MUTUAL GIRL ABROAD."

Miss Norma Phillips is going abroad in June. Please don't let King George or the Kaiser, but "the Mutual Girl" as she is called, expects to be photographed beside them in the shadow of the deep, deep purple. This is not one of her dreams. To the contrary, it is a well laid scheme and may result in no end of international complications.

THOUGHT IT WOULD KILL HIM

Terrible Torture From Chronic Indigestion, Short Treatment With "Fruit-a-tives" Completely Cured The Whole Trouble.

C. T. HILL, Esq.,
Chatham, Ont., April 3rd, 1913.

"Some two years ago, I was a great sufferer from indigestion. I treated with a prominent physician here for some time, but I did not get any better so I went in to see him one day and said 'Doctor, what do I owe you?' I am not getting any better and am going to quit you.' I paid him his bill and he remarked to me, 'Charlie, you have a case of chronic indigestion that will be hard to cure.'"

I left his office and as I stepped out on the street my eye caught a bill board advertisement of "Fruit-a-tives"—that big 'Fat Man and Thin Man' and I said to myself, 'If Fruit-a-tives will build me up like that, it's good enough for me.' I walked directly over to Park's Drug Store and I bought a box of 'Fruit-a-tives.' After taking these wonderful tablets for only three weeks, I found myself greatly improved. I continued taking them for a short time longer and cured myself entirely my case was no light one either for many times when I was on the street, I was compelled to go into some store or business place until the acute spasms were away. Gas would often form in my stomach and I was in daily fear it would get around my heart and kill me. Today, I have no such fears. 'Fruit-a-tives' is the only remedy for indigestion, Dyspepsia and Stomach Troubles."

Perhaps your case is exactly like Mr. Hill's. If so, do exactly as he did—take "Fruit-a-tives" and cure yourself. "Fruit-a-tives" will prevent the formation of gas in the stomach by making digestion complete. It will insure the food being promptly digested by providing an abundance of gastric juice in the stomach. It keeps the stomach sweet and clean, not only by helping the digestion but also by regulating the kidneys and bowels and toning up the system.

If you suffer with indigestion, dyspepsia, sour stomach, belching, gas on the stomach, heart pains after eating, take "Fruit-a-tives." For a box, 6 for \$2.50, trial size 25c. at all dealers or from Fruit-a-tives Limited, Ottawa.

Mrs. John Matthews.
The death of Mary Olivia, wife of John Matthews, took place Wednesday at her home, 30 Rock street. She is survived by her husband, one daughter, Mrs. F. J. McDonald, one son, William, one son, Allan at home, three sisters, Miss Jennie McLean at home; Mrs. William Patterson, Waverly, Mass., and Mrs. Morris Eldridge of Amesford, Nova Scotia. Two brothers, Rupert Loomer of Boston and Fred Wick Loomer of Long Island, New York, also survive.

The funeral will take place this afternoon at 2:30 o'clock from her late residence, Rock street. Interment will be in the Methodist burying ground.

NA-DRU-CO Headache Wafers

Your Druggist will confirm our statement that they do not contain anything that can harm head or nervous system. 25c. a box. NATIONAL DRUG AND CHEMICAL CO. OF CANADA, LIMITED, 124

DOES THE FRESHNESS OF YOUR FOOD MEAN ANYTHING TO YOU?

There's only one answer—a decided "Yes!" Then do you know that you can't buy a stale package of

Kellogg's CORN FLAKES

The reason? Because your grocer gets it right from the factory in small quantities—and because Kellogg's are quick sellers and do not remain long on the shelf.

We encourage merchants to place small orders often rather than large ones.

This is why you get Kellogg's Corn Flakes with all their oven-freshness.

10c per package. Look for the signature.
