SUMMER HEAT HARD ON BABY

No season of the year is so dangerous to the life of little ones as is the summer. The excessive heat throws the little stomach out of order so quickly unless prompt aid is at hand the baby may be beyond all human help before the mother realizes he is ill. Summer is the season when diarrhoea, cholera infantum, dysentery and colic are most prevalent. Any one of these troubles may prove deadly if not promptly treated. During the summer the mothers' best friend is Baby's Own Tablets. They regulate the bowels, sweeten the stomach and keep baby healthy. The Tablets are sold by medicine dealers or by mail at 25 cents a box from "The Baby's Own Medicine Co., Brockville, Ont."

Men Who Do The World's Work Wear Made-To-Measure Clothes

It is invariably true that men who do the world's work, men who figure things out, insist upon a personal individuality in their clothes that can only be had in custom-tailored, made-to-measure garments; they know that merchant tailor individuality never comes in ready-cut, standard-size "Brand" Garments.
Hundreds of these men have learned from experience that it is possible to get for only Fifteen Dollars from the English & Scotch Woollen Co., the best that the local color can give in personal service. They have learned that we offer a combination of personal services and advantages made possible through our Mill connections and our Dominion-wide Tailoring system. Our output of thousands upon thousands of garments a year enables us to offer you a service unequalled anywhere.
