Are Issued in Fourteen Sizes, which include

Three Facsimile, One in Paragraphs, Two with Wide Margins for MS. Notes, three on thin India Paper, and the Variorum Edition.

RANGING IN PRICES FROM \$1.00 UPWARDS.

A mere perusal of the Table of Contents, and the briefest examination of the volume itself, not to say a little patient study of its well-filled pages, will satisfactorily show that *no other book can pretend to offer such assistance*. In addition to such ordinary helps as the Concordance (32,000 to 40,000 refs., according to the edition), Index of Names and Subjects (16,000 refs.), Chronological, Analytical and other summaries for teaching, the "Aids" embrace a number of papers by eminent writers on subjects on which it is particularly desirable to have reliable information ready to hand, and a special Indexed Atlas, with the modern names and identifications embodying the surest results of the most recent surveys, including that of the Palestine Exploration Fund. The result is the contents of a cyclopædia—a munificent wealth of facts and data for use, generous stores of modern learning and discovery—within very moderate limits and easy of reference. In short, we have a Bible Manual in which the modern critical and historic spirit is seen in its most fertile results.

We have here, condensed and collected, the prominent results of the labor of four members of the Old Testament Revision Committee, viz., the Rev. T. K. Cheyne, D.D., Late Fellow of Balliol College, Oxford, Lecturer on Hebrew and the Old Testament. Rev. Stanley Leathes, D.D., Hebrew Professor, King's College, London. Rev. J. Rawson Lumby, D.D., Norrisian Professor of Divinity, Cambridge. Rev. Professor Sayce, M.A., of Queen's College, Oxford. Also of the Rev. S. G. Green, D.D., Co-editor of the Revised English Bible, etc., etc. Rev. C. Hole, M.A., Editor of Smith's Dictionary of Christian Antiquities. Sir Joseph Hooker, F.R.S., Director of the Royal Gardens at Kew. F. W. Madden, M.R.A.S., Author of the History of Jewish Coinage, etc. Dr. Stainer, of Magdalen College, Oxford, and St. Paul's Cathedral, Author of the "Dictionary of Musical Terms," and "Music of the Bible." Rev. H. B. Tristram, D.D., F.R.S., of the College, Durham, Author of the "Natural History of the Bible," "Bible Lands," etc., etc.

What is said by a few of the most Eminent Ministers and Laymen in Canada:

Rev. Geo. Douglas, M.A., LL.D., *Principal of Wesleyan Theological College, Montreal.*

"The 'Teachers' Bible' I regard as an invaluable treasury of knowledge in compendious form. It is adapted to the wants of every Bible student, and has the very material which will give resources to the Bible-class teacher, and indeed to the pulpit expositor of God's Word. The fulness of its information on the geography, the fauna and flora, the manners and customs, the political history, and archaic and miscellaneous subjects relating to the Bible is at once complete and marvellous in its comprehensive variety. We can only wish that it may have a place in every home in the Dominion."

D. H. MacVicar, D.D., LL.D., *Principal and Primarius Professor of Divinity, Presbyterian College, Montreal.*

"I regard the 'Queen's Printers' Teachers' Bible,' for which W. J. Gage & Co., Toronto, are agents in Canada, as the best issued. It cannot be too highly commended. Every teacher and student of the Sacred Text should possess it. The compendium of Biblical information appended to it is the most accurate, complete, and comprehensive known to me, and contains in admirable form the results of scholarly research in many departments."

Rev. Jno. N. Castle, D.D., *Principal McMaster College, Toronto.*

"It would be impossible to pack into smaller space such a vast amount of matter of constant service to the teacher. And yet the type is perfectly clear, the mechanical execution, printing, binding, and material, are unsurpassed by any of the noted Reference Bibles—while this is much more compact in form and lighter to handle. Every teacher who is compelled to carry a Bible to church or school, to and fro, will find your edition a great boon. It is destined to become the favorite."

Rev. John Potts, D.D., *Educational Secretary Methodist Church of Canada.*

"The S. S. Teachers' Bible is all that could be desired as a Bible, and it is very valuable in the concise but comprehensive Biblical information which it contains. I wish great success for its agents in this Dominion."

Rev. J. Philip Dumoulin, M.A., *Rector and Canon of St. James' Cathedral, Toronto.*

"The 'Teachers' Bible' is one of the most remarkable and widely useful publications of this wonderful age. The great value of the work to teachers and Biblical students lies in the appendix, or 'Aids to the Student of the Holy Bible.'"

This portion of the volume is about one-third the size of the Sacred Text, and comprises concise and exhaustive articles from the ablest modern writers, . . . the whole supplying a wonderful key to the Sacred Volume, and placing within easy reach of the Biblical student the contents of a well-sorted library. The teacher whose time and library are alike limited, possessing this one Book, will be fully equipped for work; and even the most advanced student will here find so judicious a selection, and such an accumulation and condensation of valuable matter, as will greatly help him in all branches of Bible study. The entire volume, with its vast and varied contents, is so portable and light as to fit in hand satchel, or pocket without inconvenience. I highly prize and cordially recommend the work."

The Lord Bishop of Toronto.

"I have looked through it carefully and find that it contains a surprising amount of most valuable information for the help of the Bible student, indeed all that it could well be supposed a Sunday school teacher or conductor of a Bible class would need to have at hand and accessible at the moment. The work, as a Bible handy-book, seems to me as complete as it could be made, and I would commend it most strongly to all teachers who would be thoroughly equipped for their work."

The Lord Bishop of Montreal.

"I am convinced that it is amongst the most useful editions needed by Sunday school teachers, Bible students, and persons desirous of knowing the Bible, but lacking time and books for the study."

Rev. Jas. P. Sheraton, D.D., *Principal of Wycliffe College, Toronto.*

"The editions of the Bible issued by the Queen's Printers, especially the 'Teachers' Bible' and the 'Variorum Bible,' are incomparably the best to be had. I have proved their value and can attest their usefulness. Even as regards the typographical make up, I have seen nothing equal to the elegant and convenient form of the Teacher's Bible. Then 'The Aids to the Student' are admirable. They are a marvel of condensation and arrangement, containing in a compact form the information most helpful and necessary to the student, in regard to the form and contents of the Bible. . . . The writers of these articles are distinguished Biblical scholars. . . . The whole apparatus is very complete and thoroughly reliable."

Rev. Wm. Maclaren, D.D., *of Knox College, Toronto.*

"The 'Aids to the Student of the Holy Bible,' which are appended are very valuable. The teacher who has access to a well-filled Biblical library may not need them, although even he will find them convenient, but to an ordinary teacher they are invaluable. They

supply, within reasonable compass, reliable information upon a great variety of matters with which a teacher requires to be acquainted. They constitute a cyclopædia of valuable knowledge bearing on the elucidation of the Holy Scriptures. The articles are all written by men of mark in the departments with which they deal. . . . I hope these Bibles will have a large circulation."

Rev. G. M. Grant, *Principal Queen's College, Kingston.*

"The Queen's Printers' Teachers' Bible is admirable. It seems to me to include more indispensable Aids to S. S. teachers and ordinary English Bible students, in short compass, than any other which I have examined."

Rev. Dr. Caven, *Principal of Knox College, Toronto.*

"The pith and substance of a whole library of works on Biblical introduction is contained in these appendices. Sabbath school teachers and all intelligent students of the Bible will find this edition of great value."

Rev. John M. King, D.D., *Principal Manitoba Presbyterian College.*

"This edition of the Bible I regard as one of very great value. The printing of the text is clear, the binding of the volume is everything that could be desired, while the appendices convey an amount of reliable information respecting the contents of Scripture which it would be difficult or impossible to find elsewhere in the same space. The book should be in the hands of all Sabbath school teachers, and its possession should by no means be confined to them. It can hardly fail to have a large sale in Canada."

Hon. S. H. Blake, *Toronto.*

"I think the Queen's Printers' Teachers' Bible is a marvel. It is compact and handy as to size; the print is large and plain; the Maps, Concordance, Index, and varied Aids to the students and teacher, render it invaluable. I intend to make my copy my companion in my work."

Presbyterian Witness, *Halifax.*

"This is the most complete and most convenient Teachers' Bible we have yet seen. There is nothing to surpass it. . . . The references are copious and suggestive. The 'Aids' are comprehensive, scholarly, well-arranged, and in every way admirable. The articles it contains have been prepared by the highest authorities in their respective departments. Taken all in all, Sabbath school teachers and other students of the Bible will find this volume exactly suited to their needs. It is in itself a complete library of reference."
