DEAR SIR:—I have used your Patent Elastic Felt Mattresses in my house *without any renovation whatever for over twenty three years,** and have seen them for that length of time in St. Mary's Hospital, and I do not hesitate to state that they are in many respects superior to those made from the best quality of hair.

As for cleanliness and extraordinary durability, I doubt if the Patent Elastic Felt has any equal.

Yours respectfully,

*23 years contain 8,395 nights.
