

	PAGE.
History of engineering, expense of publication	192
History of engineering, form of publication	187, 199
History of engineering, instruction in	944, 951
History of engineering, lack of time for, in present courses	200
History of engineering, reasons for,	194, 852
History of engineering, the preparation of a	187, 190
Holidays, excessive in schools	157
Honesty, its usefulness	865
Hours of work, Japanese	78
Houses, Japanese	73, 74
"Hub stake," size and marking of ..	33
Hubs, the placing of	41
Hunting, Dr. Waddell's interest in ..	10
Hydraulic buffers	537
Hydraulic motors, course in	113
Hydraulic work, course in	114

I

Idleness, detriment of, to young engineer	819
Impact, allowance for	380
Impact, amount of	342, 367, 378, 415, 416, 450, 493, 494, 496, 497
Impact as determined by deflection ..	491
Impact assumptions, regarding	498
Impact, effect of	412, 413, 439
Impact formulæ	260, 497
Impact formulæ, corrections of	498
Impact formulæ, results compared ..	500
Impact, importance of	342
Impact in steel structures, effect of ..	687
Impact, measurement of	439
Impact, measures of	281, 283
Impact, method of proportioning bridges	498
Impact stresses, methods of providing for	497, 400
Impact, tests	466
Impact tests, method of making	498
Impact tests on bridge spans	494
Impact tests, plan of conducting	494
Impact tests, value of	494
Impact, the determination of	493
Indexing, instruction in	178
Indexing, the study of	851
Information, methods of search for ..	865
Information, source of	513
Information to be asked for freely ..	515
Information to be given freely	515
Information to be obtained from workmen	825
Inspection, current practice in	930
Inspection, final specifications for ..	882
Inspection, place for	882

PAGE.

Inspection, purpose of experience in ..	789
Inspection, specifications for	882, 910
Inspection strictness of	884
Instruction, division of	109, 110
Instruction, homogeneousness of	136
Instruction in theory and practice ..	177
Instruction, methods of	181, 182
Instructor, responsibility of	180
Instructor's time, for what purpose ..	181
Instructors, effect of overwork upon ..	93
Instructors, necessity for good	92
Instructors, vacation work of	180
Instrument, moving of	33
Instruments, improvements in	858
Instruments, use and adjustment of ..	858
Integrity, essential character of	523
Intensities of working stresses	280, 450
Interest of instructor in students	179
Investigations, original	791, 854, 943
Investment of funds	831
Iron for bridges, its use obsolete	499
Irrigation, Japanese methods	79
Irrigation, windmills for	79

J

Jack-knife bridges, paving of	505
Japan, engineering in	95
Japan, improvements in	65
Japanese engineering society, position of	67
Japanese roads	68, 69
Jefferson City Bridge	7
Joists for highway bridges	231
Judgment, cultivation of	853
Jurisprudence, relations to civil engineering	967

K

Kansas City, situation of, during flood	917
Kogaku Kyokai address	63

L

Labor, Japanese	77
Lacing of columns, value of	693, 732
Lack of practice in engineering	944
Lakes, drainage of	20
Languages, modern, advantages of ..	864
Languages, the study of	846, 863
Lateral blows of trains	306
Lateral bracing	303, 306
Lateral bracing, effects of lack of rigidity	446
Lateral bracing for highway bridges ..	231
Lateral bracing in elevated railroads ..	642
Lateral rods, connection of	291
Lateral stresses from live loads	434
