

"The three cases 4779-80-81, arrived together at a time of desperate tobacco famine. They were received with great enthusiasm, and Montreal Stock went up immediately in the Battalion—not that it was ever low. Many thanks for this generous gift."

J. C. B. INKSTER,  
Captain and Q.M.,  
78th Btn. Can. Div.

□ □ □

"Many thanks indeed. Only suggestion necessary—Keep the good work up. It has been the only source of regular supply of good tobacco."

A. W. EUSTON,  
Captain,  
13th Can. Btn.

□ □ □

"These gifts of tobacco are becoming more and more useful as the supply becomes more difficult. At this hospital especially, where most of the men are convalescent and waiting shipment to Canada it is especially appreciated as our chief trouble is getting enough money for tobacco."

A. D. FARMER,  
Colonel,  
O.C. 5th Can. Gen. Hos.

□ □ □

"We beg to acknowledge receipt of cases No. M. 4216 and M. 4215, containing chewing tobacco. This has been distributed to all ranks and was much appreciated by them. Canadian tobaccos suit the palate of Canadians far better than other makes, but the supplies never come up to the requirements. Any further supplies would certainly meet with the approval of the troops."

W. H. COWPER,  
Captain,  
35th Co., C.E.F.
