-The Chicago Signal says :-The most amusing thing we have lately seen is to be found in the protest of the Brewer's Association, against the increase of duties, by Congress, upon Malt. Among other reasons given why they should not be increased is, that they fear it will make many brewers dishonest," by inducing them to use inferior and harmful articles, instead of malt, in their brewing! They know very well that all sorts of deleterious and poisonous ingredients have been used from time immemorial, so that this assumption of honesty is ludicrous in the extreme. Just get hold of one of the books published by the "trade," and you will ascertain what kind of a list of vegetable poisons enter into beer making, tobacco being one of the principal.

THE "SON OF TEMPERANCE." To the Editor,

EAR SIR.—I was very sorry that the Grand Division saw fit to recommend the discontinuance of the Son of Temperance. However there is still time in the next three months for the Divisions to do their duty and make the little organ a success. The Society in this city have been very remiss in their duty in this respect, at least so it appears to me. Very possibly Bro. R. of Crystal Fountain Division, or Sister F. of Coldstream Division may have personally contributed to the support of the paper, but that does not excuse (very far from it) the Societies, as a whole, from lending their aid. Surely is understood the Gladstone Gov- it is a disgrace to the Order, in Ontario, that its members have not sufficient love for its princithe House of Commons requiring ples to furnish the small amount all liquor selling to be stopped necessary for carrying on an orduring polling days at elections, gan which is a means of commuand prohibiting the use of public nication all over the Province. houses as election committee Let something be done in this rooms.
