

## Are You Afflicted With Superfluous Hair?

It should never be cut, pulled or tampered with in any way. Doing so only creates a stronger and thicker growth. The only method of destroying the hairs is to have them treated by Electrolysis. Our method is safe, absolutely sure and practically painless. Our operators are capable, and we assure satisfactory results in each case.

**Moles, Warts, Red Veins** and other facial blemishes also permanently removed. Write now for Booklet "F," giving full particulars. Arrange to come during the Exposition you live at a distance.

## An Interesting Barn

THE Steel Trussed Acorn Ideal Barn which has been erected on the Toronto Exhibition grounds, adjoining the cattle sheds, by The Metal Shingle & Siding Company, Limited, of Preston, Ont., should prove of great interest to the farmers of Canada, as well as the barn framers. With this new construction it is possible to supply the material and erect a barn complete with a half a dozen men in a very few days, and when erected a building is provided which would prove to be superior in every respect to the ordinary type of barn, as the roof and sides are of galvanized metal, which will protect the building when struck with lightning.

## Extra Money Hidden In Goodyear Fortified Tires

### Despite 3 Price-Cuts

Goodyear prices are 37 per cent less than two years ago. Last February we made our third big price cut in less than two years—due mainly to tremendous growth that cut our factory cost per tire.

Yet up to date we've built into Goodyear Fortified Tires, five costly defenses that no other tire has. These five protect you against the worst attacks that a tire must meet; against Rim-Cuts, against Blow-outs, against Loose Treads, against Punctures and Skidding.

Only one—the famous All-Weather Tread—can be seen by casual observation. The four other extra protections are hidden from view. In a poor tire, skimping likewise goes unseen. The difference is enormous, but it doesn't show till you run a Goodyear and some rival tire on opposite wheels.

Then you will learn what thousands

know—that you can't judge a tire by looks.

### Double-Thick Tread

The All-Weather Tread—that comes alone on Goodyear Tires—is an extra tread above the thickness of a smooth tread. This double-thick tread gives extra mileage and greatest resistance to punctures.

The "carcass" beneath is built extra strong to support it. So Goodyear Tires don't collapse on the sides before the tread is worn out. This fault in rival tires has helped the Goodyear to win top place in four years.

For country driving, where roads are rough and repair shops miles away, farmers have learned to rely on Goodyears.

These tires bring greatest freedom from troubles and lowest cost per mile.

So ask your dealer for our new price on the size you use.
