Milton, Ontario

# RAW FURS

Highest cash price paid for raw furs. Oldest in trade. Write for price list and tags—FREE.  
**C. H. ROGERS, WALKERTON, ONT.**

## POWER Why you need it How to get it

No farm can realize its possibilities without Power, and by Power we, of course, mean gasoline power. Gasoline engines have revolutionized farming. They have cheapened labor by reducing it to a minimum. They have made money for every farmer who has installed them and used them rightly.

For pumping water, cutting ensilage, running separators, churns and washing machines—for operating everything that you can attach a belt to, the farm engine has established itself as almost a sheer necessity.

How to get the right kind of Farm Power. Let our Free Information Bureau help you there. We have all sorts of data and statistics to guide you, and it is all yours for the asking.

Of course, we hope, eventually to sell you a Page engine—the greatest power-giver of them all. But, meanwhile, you won't put yourself under the slightest obligation by consulting us. We're delighted to be of help to anyone who thinks of installing an engine and who needs advice on the proper size to buy, or who is in doubt as to the extent he can use an engine on his farm.

### Facts About PAGE Engines

They are **Strong**—Made of best materials throughout. Accurately machined. Strength where strength is needed. No superfluous weight.

They are **Simple**—Of most practical design, and having few working points, the Page engines are easy to run and sure to stay running, because there's nothing about them to get out of order.

They are **Reliable**—Designed by men of many years' experience in gasoline engine construction—men who know the engine business backward, and have studied the subject with special regard to the needs of the farmer.

They are **Guaranteed**—All parts guaranteed free from defect. Any part which may prove defective within one year from shipment, will be replaced free of charge. Also, they are guaranteed to develop fully their rated horse-power. As a matter of actual fact, they develop more than their rating indicates.

They are offered **free to try**—Page engines are so inevitably satisfactory that we send them on a 30 days' trial—with an open offer to return the money if the engine is sent back.

All things considered, can you afford to buy any other engine but a Page?

## Be Sure You Choose the Right Telephone!!

When you've decided that a telephone is as essential as any other labor- and time-saving appliance you have on the farm, keep this fact well in mind—the service and satisfaction you will receive depends upon the **efficiency** of your telephone installation. Hundreds of thousands of farms, factories, stores and offices have installed.

## Three Score and Four

64 years is a long time. A product that can hold the popularity of the entire Dominion for 64 years must be meritorious—dependable.

## Eddy's Matches

have been the same good matches since 1851. Like Eddy's Fibreware and Eddy's Washboards, they are considered standard by all loyal Canadians under the "Made-in-Canada" banner.

## The House And the Owner

We are told of a house which was continuously insured against fire for thirty years. Yet fire never touched it. During the thirty years, however, no less than seven people died in that same dwelling. This case shows the difference between life insurance and all other forms.

Fire may come, but death must come. If fire insurance is a necessity, and we think it is, then life insurance is very much more necessary. If a possible danger should be guarded against, how much more an inevitable one. Your family can be protected against the inevitable by a policy in
