

KNOWS NO DISTINCTION

Rich and Poor Alike Suffer from Catarrh in this Climate.

All observant physicians have noticed the enormous increase in catarrhal diseases in recent years, and the most liberal and enlightened have cheerfully given their approval to the new internal remedy, Stuart's Catarrh Tablets, as the most successful and by far the safest remedy for catarrh yet produced.

One well-known catarrh specialist, as soon as he had made a thorough test of this preparation, discarded inhalers, washes and sprays, and now depends entirely upon Stuart's Catarrh Tablets in treating catarrh, whether in the head, throat or stomach.

Dr. Risdell says: "In patients who had lost the sense of smell entirely, and even where the hearing has begun to be affected from catarrh, I have had fine results after only a few weeks' use of Stuart's Catarrh Tablets. I can only explain their action on the theory that the cleansing and antiseptic properties of the tablets destroy the catarrhal germs wherever found, because I have found the tablets equally valuable in catarrh of the throat and stomach as in nasal catarrh."

Dr. Estabrook says, "Stuart's Catarrh Tablets are especially useful in nasal catarrh and catarrh of the throat, clearing the membranes of mucus and speedily overcoming the hacking, coughing and expectorating."

Any sufferer from catarrh will find Stuart's Catarrh Tablets will give immediate relief, and being in tablet form and pleasant to the taste, are convenient and always ready for use, as they can be carried in the pocket and used at any time, as they contain no poisonous drugs, but only the cleansing, antiseptic properties of Eucalyptus bark, Blood-root and Hydrastin.

All druggists sell the tablets at fifty cents for complete treatment. om-

GOSSIP.

From the corner of Notre Dame and McGill streets, in the city of Montreal, per street car, a thirty-minute ride lands the visitor within one mile of the beautiful and modernly equipped farm of Mr. W. Watson Ogilvie, opposite Lachine Rapids, where, under the skillful management of Mr. Robert Hunter, are to be seen what is perhaps the choicest lot of imported Ayrshire cattle on the continent. All told, there are seventy-four head in the barns at the present time, representing the aged and young herd winners at Toronto, Ottawa and London in 1900, and the Pan-American in 1901, while in 1902 they won all the herd prizes, medals, sweepstakes and diplomas, with one exception, at Toronto, Ottawa and London. This noted herd was established in 1898 by the importation of 25 head, selected with great care by Mr. Hunter, from the leading herds of Scotland. Again, in 1900, a second importation, of 20 head, was made, and this coming summer it is the intention, all being well, to make another importation. As milk producers, the whole herd, including heifers, average 50 lbs. a day each, the majority of them having records of 60 lbs. a day; while Mayflower 2nd of Drumside has a milk record of 75 lbs. a day, testing 4 per cent. of butter-fat. Minnie of Lessnessock, sweepstakes female at Toronto, 1902, has a milk record of 72 lbs. a day, testing 3.90 per cent. Tempest of Knockdown has a milk record of 40 lbs. a day, but her test is 6 per cent. Marjory of Gateside gives 50 lbs. of milk a day, which tests 5 per cent. The main stock bull is Imp. Douglassdale, champion at Buffalo, Toronto, London and Ottawa. His lieutenant in service is Imp. Black Prince, winner of 3rd at Toronto and Ottawa, and second at London last fall. The four heifers that won first prize last fall, the get of one bull, were sired by Comrade of Garlaff (imp.). For sale, there are a few young bulls and females of all ages.

One mile from Danville station, in the Province of Quebec, lies Netherlea Dairy Stock Farm, the property of Mr. T. D. McCallum, breeder of high-class Ayrshire cattle, Shropshire sheep, Yorkshire hogs, and collie dogs. The Ayrshires number 45 head of big, well-formed, heavy-milking animals, the whole herd of working cows ranging from 40 to 60 lbs. of milk a day, at the head of which is that wonderfully successful sire, Imp. Napoleon of Auchenbrain, whose dam has a milk record of 72 lbs. a day. The bulk of the herd is the get of those well-known bulls, Matchless, a son of Imp. Glencairn 3rd and Nellie Osborne, and Imp. Baron Renfrew. This herd was founded 25 years ago, and has always been kept up to the standard. At present, a number of them are out of imported dams, and, as a herd, their tests average the grand showing of 4.90 per cent. of butter-fat. Among the younger bulls we were shown was one yearling that captured the red ticket at all the local shows, and a rare good youngster he is. All told, there are for sale three young bulls, fit for service, and a number of females of various ages. The Shropshires are all imported, being a smooth, even set, with the best of covering. Last year's lambs are all sired by an imported ram. They show the true characteristics of the modern Shropshire, covered from the ground up. There are, for sale a few of both sexes.

The Yorkshires all belong to the O. L. foundation, and the Berkshires to Snell foundation. They are representative of the two breeds, and for sale here are a number of both breeds, both sexes, all ages. The main breeding bitch of the collies is Perfection Queen, by that great dog, Perfection, that sold for 105 guineas. There is a five-months-old bitch out of her, by Imp. Rosenath, the sweetest type of collie the writer ever saw. At present, the young stock of collies is all sold.

The cows are all imported, and were carefully selected for strength and constitution, style, size of teats, and milk (quantity and quality). The herd is headed by Douglassdale (imp.), champion at the Pan-American and at Ottawa, Toronto and London, in 1902, ably assisted by Black Prince (imp.).
