

FIFTEEN SOLID REASONS WHY
THE WILLIAMS MACHINES
Are the Best to Buy.

- 1st—They are built on the most approved mechanical principle.
- 2nd—Only the very best material is used in the construction.
- 3rd—All the essential working parts are made of finely-tempered English Steel.
- 4th—The fitting and adjustment is done by the most thorough and skilful workmen that money can procure.
- 5th—The woodwork is made of the best Black Walnut, thoroughly secured and beautifully polished.
- 6th—Our new patent Anti-Friction Stand does away with the noise of the old style, besides making the machine more light and easy running.
- 7th—They are the easiest Sewing Machine to learn.
- 8th—They are so extremely simple that a mere child can use them.
- 9th—The Self-Threading Arrangement does away with more than half the work of threading the machine.
- 10th—They do not get out of order if well oiled and properly used.
- 11th—With proper and intelligent care, a genuine Williams Singer will last an ordinary lifetime.
- 12th—They are built by a Canadian Company, and the money paid for them circulates in Canada and adds to the prosperity of our country.
- 13th—They are the most popular Sewing Machine in the market.
- 14th—They are built by a strong, reliable Company, whose guarantee is of some real value.
- 15th—They give better satisfaction than any other make.

THE "SEEGMILLER" TRUSS BEAM PLOW!

Flexible Wheel, Universal Standard Jointer Attachment.

This Celebrated Plow is made in Canada. It combines all the advantages of the best American chilled plows, with additional improvements. The material used in their construction is the best made; they are constructed by the most skilled mechanics; their durability and efficiency are unsurpassed. The thousands of testimonials from those using them are such as to satisfy all that this is the plow for the million.

I desire to inform the farmers of Canada that, although I am about to remove to the United States, to take charge of the Benton Harbor Plow Works, Benton Harbor, Michigan, I shall still retain an interest in the Seegmiller Plow Works, at Goderich, Ont. The Benton Harbor Plow Works have been erected for the special purpose of manufacturing the "Seegmiller" Plow to supply the demand which has arisen from its introduction among the farmers of the West. The manufacture of the "Seegmiller" Plow will be continued at the Goderich Factory by the firm under the style of Seegmiller & Co. They have already at this factory manufactured 2,500 plows for this season's trade, and are continuing their manufacture at the rate of 600 per month. However, the demand is increasing, and to meet this increasing demand they are enlarging their premises and hope shortly to be in a position to supply the Canadian trade. They will also continue to manufacture shares of the best charcoal iron for the "No. 40" and "E 2 Oliver" Plows, unequalled for wearing qualities. Farmers desiring the "Seegmiller" Plow, or repairs of either it or the "Oliver No. 40" or "E 2," and who are not near an agency, can be supplied by addressing Seegmiller & Co., Goderich, Ont. To such persons a reduction in the price of shares will be made if they are ordered by the dozen. Where Seegmiller & Co. have no agents, for \$10 they will send a Seegmiller Plow to any farmer in Ontario, Quebec, New Brunswick, Nova Scotia or Prince Edward Island. Parties willing to act as agents will do well to correspond with Seegmiller & Co. These plows sell very readily wherever introduced, and the discounts to agents are liberal. I desire to thank my numerous customers for their patronage, and also the many intelligent farmers and agents who have assisted me in bringing the "Seegmiller" Plow before the public, and who, by making manifest its merits, have contributed to gain for it the favor with which it is so universally regarded.
SAMUEL SEEGMILLER.

Plows sent, freight prepaid, to any firm in Ontario, Quebec, the Maritime Provinces and Manitoba. Address—

SEEGMILLER & Co., Agricultural Foundry, GODERICH, ONT.
