

"BT" STANCHIONS

Are Always Chosen When Their Merits Are Known. Because:

They are the easiest to open and close. One hand only is necessary. They allow the greatest amount of freedom for the cow, being two to four inches longer inside than others. They cannot possibly be opened by the cow. They are made entirely of steel and malleable. The frame is made of 70 carbon steel. (They are the only stanchions made of high carbon steel.) They are the easiest to install, owing to the "BT" Special Clips for attaching above and below. They can be used equally well with a wood frame, or in the "BT" All-steel Stall. IF YOU ARE BUILDING OR REMODELING YOUR BARN, you will be interested in the "BT" Catalogue on Stable Construction. It gives best plans for layout, tells how to ventilate, and how to lay cement floors, etc., and gives full information about "BT" Steel Stalls and Stanchions. If "BT" Plans are used the cost of your stable will be reduced. In writing let us know how many cattle you will stable.

Note the Gale-proof, Closed-end Sidelock and the continuous overlapping and interlocking bottom lock which are found only in the new

"GALT" SHINGLES

This ingenious and yet simple and easy-fitting construction makes a "Galt" Shingle roof absolutely weather-tight. It prevents wind from driving rain or snow up and out of the top end of side lock, as so often happens with ordinary metal shingles. There is not even the smallest opening—this cannot be truthfully claimed for any other steel shingle.

The material is the Best British Galvanized Steel embossed in a bold Gothic Tile pattern—"a thing of beauty and of joy forever." Catalog "B-3" gives complete details of this newest and best shingle.
