

### Did you ever have your range grates burn out?

If you did you will know what that means in common ranges—it means plumbers, delay, muss and big bills —because common ranges are built that way. As range grates must some time burn out you are certain to have that kind of trouble if yours is a common range.

If you have the Pandora you won't have any trouble, because you can take out the old grates and put in the new ones in ten minutes, and a ten cent piece for a screw-driver does it easier in the Pandora than a whole kit of plumbers' tools will do it in common ranges.

A ten cent piece for a screw-driver is all you need to take out old and put in new Pandora grates.

ADVERTISE IN THE ADVOCATE

#### GOSSIP.

Mr. A. W. Smith, Maple Lodge, Ont., writes: "My flock of Leicesters are making an exhibition at the Centennial Exposition, Portland, Oregon, and Dominion Exhibition, New Westminster, B. C., and other places on the Pacific coast, hence I am not showing in Ontario. I sent a lot of my best out, and hope will make so creditable a showing they will do the breed some good, and not be any discredit to Canada. I have an excellent lot of young ewes for sale, by Imp. Stanley and Winchester and other good rams, and a choice lot of shearing and ram lambs, and have them for sale at moderate prices. Shorthorns have done splendidly, and I have a number of both sexes for sale."

Where horses are being worked steadily the principal grooming should be done in the evening, because then it is most needed, will be most effective, and the horse will rest better afterwards. In grooming horses there is, unfortunately, a common practice of using a currycomb under the guise of removing itchiness from the skin. Currycombs are too much used for this purpose on nervous, thin-coated and thin-skinned horses. In cleaning such horses the only use to make of the comb is to clean the brush. Who has not seen a horse flinch as a careless groom flourished a currycomb over his body? It is safe to say that most horses that act ugly in the stable have been taught to do so through the use of a currycomb. A strong, heavy brush, if properly handled, will be found quite sufficient to remove any dirt or dust from the horse's skin, and if a glossy coat is desired, a coarse woollen cloth or a piece of shammy leather will be just the thing.—[Agricola.]

#### MR. ATTRILL'S DISPERSION SALE.

Owing to ill health and the decision to go abroad for a change of climate for a time, Mr. E. C. Attrill, of Goderich, Ontario, announces in his advertisement that his entire herd of 30 high-class Shorthorns will be sold at the Western Fair grounds in the City of London, Ont., on Thursday, November 2nd, the day following the dispersion of the herd of Mr. W. D. Flatt, at Hamilton. Mr. Attrill will be joined in the sale by Capt. T. E. Robson, of Ilderton, who will contribute about half a score from his large and choice herd, and Mr. W. Doherty, of Clinton, who will contribute half a dozen nicely-bred animals from his select herd, making a list of about 50 head in all. Mr. Attrill's herd comprises, amongst others, eight imported Scotch-bred cows and heifers in calf to the stock bulls in service in the herd, namely, Favourite (imp.) (83669) =50035=, a dark roan three-year-old bull of proper type and character, that has proved a capital sire, bred by Mr. Geo. Campbell, Harthill, Aberdeenshire, got by the Brawith Bud bull, Golden Fame (76786), bred by Mr. Duthie, dam Buchan Lass (imp.) =48501=, a Jessamine, bred by Mr. Alex. Moir, Waterton, and Blythesome Ruler =52236=, the second-prize junior bull calf at Toronto last year, a rich roan yearling, born in February, 1904, sired by Imp. Chief Ruler =45165= (80694), a Cruickshank Butterfly, by Bapton Chief, dam Imp. Missie 159th, bred by the late W. S. Marr, a cow for which Mr. Attrill paid \$800, when carrying this young bull, and who is included in the sale with another handsome roan bull calf that will be about eight months old at time of sale.

Among the females in the sale will be representatives of a number of popular Cruickshank and other Scotch families, including Missies, Lovelys, Lady Dorothys, Augustas, Kibblean Beautys, and Villages. Mr. Attrill was careful in the purchase of these imported cows and heifers to select the best, and he paid higher prices for most of them than he expects to get for them in the sale, as they were bought for foundation stock for a herd that he hoped to keep together for many years, but they have been regular breeders, and the young things, which are of excellent type and character, will, it is hoped, help to make the investment a satisfactory one. Capt. Robson and Mr. Doherty promise from their herds desirable numbers in breeding and individual merit, particulars of which will be given later. The London sale may be counted on as a most attractive offering.
