9 a.m. to 4 p.m.

Saturdays 9 a.m. to 1 p.m.

OPEN EVERY SATURDAY NIGHT
7 to 9 O'Clock.

JAMES MASON, Managing Director.

THE GRAIN OF SAND.

"Mother! mother! there's something
in my eye; please take it out, quickly!"
Flossy came hurrying to her mother's
room. Her blue eyes were bloodshot,
her eyelids swollen, and the tears were
running down her cheeks.

"Why, what is it?" asked her
mother, as she put her arms around
the child.

"I don't know; it's an awful big
thing. The wind blew it in my eye a
minute ago."

BISHOP BLYTH'S MISSION.

BISHOP BLYTH, representing the
Church of England in Jerusalem and the
East, by commission from the Archbishop
of Canterbury, appeals for subscriptions
and donations in aid of his work.

Subscriptions received and information

The mother examined the afflicted
eye carefully, but could find nothing
except tears.

"I don't see anything in it, dearie."

"But it's there, mother; please do
get it out. It makes me so uncom-
fortable."

The mother looked again. Then she
bathed the hurt eye with warm water,
and told Flossy to keep it closed for a
time; but the poor eye did not get any
better. Something was in it—some-
thing as big as a marble, Flossy
thought.

"Well, Flossy, I think we had better
go to Dr. Wright and see what he can
do," said her mother, after trying
everything she could think of for the
relief of her little daughter.

Dr. Wright was the good doctor
Flossy loved, and she stood very quietly
with her face in the light as he kept
her eyelid open.

"Ah!" said the doctor; and in an in-
stant he held his instrument toward
her, "here it is."

"Where?" asked the mother. "I
don't see anything."

"I don't, either," said Flossy; "but
my eye does not hurt any longer."

"It's just a tiny speck of sand," re-
plied the doctor, "too small to see, un-

DR. MACKAY'S
SPECIFIC
For the Treatment of
ALCOHOLISM

Used in connection with the Province
of Quebec Probation System with
Unvarying Success.

The City Council of Montreal has en-
dorsed this marvellous discovery. The
Finance Committee of Montreal recently
voted \$500 to defray the expense of placing
the medicine in each of the city Police
Stations, as prompt application of the Treat-
ment to bad cases will prevent the fatalities
continually occurring in the cells.

No Sanitarium is required. The Treat-
ment can be taken at home. No special
diet required. The desire to reform is simply
necessary and spirits avoided for a few days.

The medicine is now within the reach of
all, the price having been reduced. The
wonderful results obtained with the worst
class of drunkards coming before the Judges
of the Recorders' Courts in Quebec and
Montreal warrant the statement that the
disease of Drunkenness can be cured—
readily and surely—under ordinary circum-
stances and with the reasonable desire upon
the part of an inebriate.

This treatment is simply the medicine of
the medical profession—the only secret is
as to its administration.

Dr. Mackay's discovery is the result of
25 years of practice as a specialist and
expert. He is a member of the College of
Physicians and Surgeons of the Province of
Quebec.

The Government of Quebec through the
Judges ordered over 500 boxes of the medi-
cine for prisoners appearing in the courts
in 1904—Official Reports establish 80 per
cent of cures with these cases.

With the public and official endorsement
and the record of results published it is
unnecessary to waste money experimenting
further. All communications private.

less you know where to look for it."

Some days after, Flossy was fidget-
ing about the room where her mother
was sewing.

"Please, don't, Flossy," said her
mother. "If you don't stop worrying,
you must go away by yourself."

Flossy sat down by the window,
pouting. In a little while her face
brightened, and she came to her
mother and put a little soft kiss on her
cheek.

"I'm like that little grain of sand,
mother, don't you think so?" said she.

"What do you mean?"

"I'm not very big, but I make people
uncomfortable when my temper gets
in the wrong place. I love you, mother
—I love you truly; and I would not
hurt you as that sand did me for any-
thing. The sand could not help itself;
but I can and I will, right away.—Our
Boys and Girls.

DIXIE'S GRATITUDE.

Dixie was the name of a dog whose
career was most uncommon. Some
sort of distemper had carried off his
mother when he was a very young
puppy, and he was thus left alone in
the world, deprived of his natural food
and care. The family who owned him
had almost given up raising him, when
a tragedy in the family of a stray cat
rebounded to his relief. The alley cat
had located in the barn with a family
of kittens, but one of the farm hands,
who had no love for animals, drowned
the kittens and left the mother cat dis-
consolate.

This was the time when she dis-
covered Dixie moving slowly about in
a streak of sunshine trying to get some
warmth. The mother cat was seeking
her lost babies, and, not finding them,
she took a strange fancy to the poor
orphaned doggie. Perhaps she took
the puppy for one of her kittens, he
being similarly marked, for she sprang
quickly to Dixie's side and lay down

beside him, caressing him with her
tongue. Dixie snuggled close to his
new foster-mother, whining with joy,

For Spring Debility

YOU SHOULD RESTORE RICHNESS
TO THE BLOOD BY USING

Dr. Chase's
Nerve Food.

Habit is one of the strongest forces
of nature. It is like a rut into which it
is easy to run, but which too often
leads to misfortune and calamity.

The habit of dosing with salts and
sarsaparillas in the spring is doing much
to undermine the health of the present
generation.

In the spring the blood is thin, the
system run down, and the body weak
and enervated. What you need is a
tonic and restorative, such as Dr.
Chase's Nerve Food.

If you have been a slave to the habit
of dosing the system with salts or
similar weakening purgatives, you will
appreciate Dr. Chase's Nerve Food,
which acts on the principle of forming
new blood, building up the system and
creating new nerve force.

It is something to strengthen rather
than weaken that you most need in the
spring, and Dr. Chase's Nerve Food
supplies this need, as no other medicine
was ever known to do.

By its use the action of the heart
becomes strong and regular, the stom-
ach is supplied with the nervous energy
which is necessary to healthful diges-
tion, and every organ of the body is
enabled to carry out the duty imposed
on it by nature.

Dr. Chase's Nerve Food, 50 cents a
box, at all dealers, or Edmansson, Bates
& Co., Toronto. Portrait and signa-
ture of Dr. A. W. Chase, the famous
receipt book author, are on every box.
