A "SAFE" AFFAIR.

SHORT STORY. Mr. Phillip Marston, senior partner of Marston & Rydely, bankers, sat alone one evening in his counting house.

It was not long after the close of the day that the door opened and a young man entered.

"Is there any message?" asked the man. "No," answered the banker. "Who is it?"

"It is from the firm of Marston & Rydely," said the man. "What is it?"

"It is a letter from the firm of Marston & Rydely," said the man. "What is it?"

"It is a letter from the firm of Marston & Rydely," said the man. "What is it?"

"It is a letter from the firm of Marston & Rydely," said the man. "What is it?"

"It is a letter from the firm of Marston & Rydely," said the man. "What is it?"

"It is a letter from the firm of Marston & Rydely," said the man. "What is it?"

"It is a letter from the firm of Marston & Rydely," said the man. "What is it?"

AS WELL AS EVER

A Bricklayer Listens to Heaton—Use Six Boxes of Dodd's Kidney Pills and tells it.

Brookville, Jan. 4 (Special)—Mr. W. H. Odell, perhaps one of the best known citizens of this town, has lately recovered from a long continued and painful kidney ailment.

"I have suffered for over a year from kidney disease, the pain in my back being so severe that I was unable to stand on my feet."

"Noting the published cures of what Dodd's Kidney Pills were doing for others, I concluded to use them."

"Having used only six boxes I can say that I am perfectly cured and well as ever I should be."

A writer upon medicine contributes the following as to shoes to the New York Tribune: "In shoes the style will be low, extreme then it was during the spring and summer seasons."

The point shoe will be worn either for street or dress, and the common leather shoe will be followed in the matter of width. The shoe will be broad, and will have broad and moderately pointed toes. Dark russet shoes will be worn for winter, and enameled calfskin shoes will be popular for street wear.

Three shoes will be made in the same style as the walking shoe, with a view to the ease and comfort of the wearer."

Sometimes it seems to weary women there are shoes that certainly give up. The simplest and easiest work becomes an almost insurmountable task. Nervousness, sleeplessness, and pain harass living.

Dr. Pierce's Favorite Prescription was made by Dr. J. C. Pierce's Golden Medical Discovery was made for her. The former is for the distinctly feminine, the latter for the masculine. Together they supply a scientific and successful course of treatment. The "Favorite Prescription" restores the regular action of the organs distinctly feminine. It forces out all impurities, strengthens the tissues, allays inflammation. The "Golden Medical Discovery" makes appetite, helps digestion, promotes assimilation, fills out the hollows in cheeks and back, and gives solid flesh and brings back the gladsome glow of girlhood.

Send 5 cents in one-cent stamps to World's Dispensary Medical Association, Buffalo, N. Y., and receive Dr. Pierce's 100 page Common Sense Medical Adviser, illustrated.

Good face will be used. It is standard. Pearl trimmings will also be used for bedclothes trimmings.

Sleep

Induced by the use of coca, opiate or narcotic compounds is bad, decidedly bad. They undermine health and shatter the constitution and the patient is steadily growing into a worse condition—often resulting in the terrible stony and misery of the cocaine and opium habit.

Hood's Sarsaparilla

Induced by the use of Hood's Sarsaparilla does not perhaps come as quickly, but it comes more surely and more permanently through nature's great restorative and rejuvenating channel—purified, vitalized and enriched blood. This feeds the nerves with life-giving energy and builds up the system and constitution from the very foundation of all health and life—the blood—pure, rich, red blood.

CURIOS WORD STUDIES.

Idiot once meant simply boy. It is used by Shakespeare in this sense.

Milliners first piled their trade at Milan, and mantua makers at Mantua.

The word scrupulous originally signified to "have a stone in one's shoe."

The shaloot takes its name from its plentifulness in the vicinity of Assolun.

The tarantula is named from its abundance in the vicinity of Taranto.

Coffee is thus called because it was first exported from the Arabian port of Kaffa.

Gitu takes its name from Geneva, where it was formerly made in large quantities.

Cambric originally came from Cambay, whence its name, and calico from Calicut.

Dallid once meant to dance, and later came to signify a song sung while dancing.

Terzagant was a composition of Mohammedan duty of three temper and language.

The word venacular once meant "to slave" was born in the house of his master.

Pass, a familiar name for cat, was once per, the Persian name for the same animal.

Healy is a contraction of housewife, and by early English writers is used in that sense.

Tobacco was so called because it was first noted by Europeans on the small island of Tobago.

Balloo was once "a little ball." In many organizations ballots are still taken with marbles.

The urchin has its name from that of a German mythological jinn of mischievous character.

Book was originally a name for a tree, the birch, and was afterwards transferred to its bark.

The word character is derived from the Latin character signifying an instrument for branding.

BICYCLE BUZZINGS.

The rider who says he can back-pedal down a long and steep hill as can be done with a brake is either ignorant of a humber.

Wood rims should be given a good coat of varnish after a year's use. No rim will stand exposure to mud and dust indefinitely unless taken care of.

The rubber-band fall is the silliest thing now going. The humming sound set up by the rush of air against the bands is dreary and monotonous. When the bands are also adjusted and high speed is maintained, the noise is loud and uncanny.

Through the efforts of the United States consul at Cologne, tourists will no longer be required to pay duty on their machines on entering Germany. Hereafter it will only be necessary to prove to the officials that the machines are articles of travel and not articles of commerce.

In Paris they have opened a public market for bicycles, like the same as other markets for the sale of horses, cattle or produce. All makes of wheels are here displayed, and instead of running from store to store, the intending buyer has a choice of styles before his eye, and may pick without fear or favor. It is an idea worthy of imitation in this country.

FASHIONS IN BEAUTY.

In Spain even the youngest girls paint and powder absurdly, while in Venice the celebrated Titian red hair is still the rage and is obtained by chemical means.

African beauties must have very small eyes, thick, pointing lips, a large, perfectly flat nose and a jetty skin which, from constant gazing, positively glows.

In Greenland the women color their faces with green and yellow pigment, and the prettiest Muscovite maiden cannot hope for admiration until she has covered her fair complexion with coarse red and white paint.

In Persia an aquiline nose is a necessity to either male or female beauty and frequently out of a family of sons the accession to the throne has been decided by the shape of a nose. Red hair is viewed with horror and always dyed.

In China, where most eyes are narrow and long, a small, round eye is considered an extraordinary beauty. Chinese girls pluck their eyebrows to make them very fine. Turkish women paint their eyebrows with gold and at night the effect is very odd and not displeasing.

HOME DECORATIONS.

Portieres should never be looped back. The best wearing colors in rugs are the greens, blues and reds.

Gray tiles would not be at all suitable for a north room.

A dining-room with a southern exposure might have for its color scheme either bronze green or pale blue.

A screen that will answer every purpose in a sickroom may be made from an ordinary wooden clotheshopper. It will be stained, painted, enameled, and lined with velvet, damask or caotidage paper.

Tulip wood is very much used by builders for the interior woodwork of houses, particularly for burlers' pantries, etc. It is white, smooth and quite free from knots. It may be stained, shellacked, varnished or left in its natural color.

TERSELY PUT.

But few married women are lovers of the beautiful—women their husbands admire.

Preachers labor for the glory of God and, incidentally, for the salaries paid them by men.

Some persons believe that whale and Jonah stir too much to swallow.

"I should like an article from your pen," said the country editor to the farmer-subscriber who had promised him some pork.

It is said that more deaf men go to church than to the theater.

DON'TS FOR DRESS.

Don't overlook small rips. Don't despise the skirt binding. Don't neglect the repairing tailor and his goose.

Don't undervalue the worth of good "findings." Don't flatter yourself that good things are of small account.

Don't buy cheap goods. It is too dear for poor women. Don't choose to have many mediocre frocks rather than one good one.

SEE OUGHT TO KNOW.

Having used Haddock Bitters for 15 years I cannot keep from recommending it to others. I have sold hundreds of bottles from my store, and as I keep other medicines I ought to know which sells best. It is a wonderful medicine.

Yours very sincerely, MRS. HOWARD KENNEDY, Box 110, Oshkosh, Ont.

September 6,576 * Sworn * 1,689 Bottles. 1883 BOTTLES IN TWO MONTHS. October

DR. CHASE'S SYRUP OF LINSEED AND TURPENTINE

Total Sales for Month of September 6,576 Bottles, and October 11,689, and Published Hereunder is the Affirmation of it:

Dominion of Ontario, Province of Ontario, County of York. In the matter of Dr. Chase's Syrup of Linseed and Turpentine. I, Burton Morris, of the City of Toronto, in the County of York, do solemnly declare that I am a shipper for the firm of Edmonstone, Bruce & Co., proprietors of Dr. Chase's family medicines, and am familiar with the quantity of acacia sold and shipped by said firm during the month of September and October immediately preceding this day of November, 1896, and I make this solemn declaration, conscientiously believing it to be true and knowing that it is of the same force and effect as if made and sworn to by virtue of The Canada Evidence Act, 1891.

UNSOLICITED TESTIMONY

ASTHMA FOR YEARS. "I have suffered very severely from asthma for over twenty-five years," says R. G. Moore, of Hamilton.

A BANKER'S EXPERIENCE. "I tried a bottle of Dr. Chase's Syrup of Linseed and Turpentine for a troublesome affection of the throat," writes Mr. Thomas Downes, of the Standard Bank, now of 11 Melbourne Avenue, Toronto.

A CROUPY COUGH. "My little boy had a bad croupy cough," says Mrs. Smith, of 28 Baitmore Street, Toronto.

PROVED MOST EFFECTIVE. "I used Dr. Chase's Syrup of Linseed and Turpentine for severe throat trouble," writes Mr. Hopkins, of 104 Baitmore Street, Toronto.

PREVENTATIVE OF COLDS. "I have been a chronic sufferer from severe colds for a long time," says Miss Hattie Delaney, of 111 Crawford Street, Toronto.

Dr. Chase's Syrup of Linseed and Turpentine soothes and heals the affected parts, relieves the over-charged membrane, relieves congestion of the air passages; arrests the progress of fever and inflammation. It is prepared from the finest demulcents and expectorants from the prescriptions of Dr. Chase, and is specially effective in Croup.
