C. B., Prime Minister of the Dominion of Canada, by the title of Baroness Macdonald, of Earncliffe, in the Province of Ontario, and Dominion of Canada, and at her decease the dignity of a baron to the said United Kingdom to the heirs male by the title of Baron Macdonald of Earncliffe."

ATWOOD BRANCH.—The following figures appear in the Upper Canada Bible Society's annual report for 1891:—Atwood branch, total amount collected for the year 1891, \$94.90. In speaking of the work of the Society, the report has this to say of Atwood: "A growing, promising village. Meeting in Presbyterian church, attendance good; business in good shape, quickly disposed of. The President, Rev. Mr. Henderson (Presbyterian), Rev. Mr. St. Yates (Episcopal), Rev. Mr. Dack (Baptist), and Rev. Mr. Carey (Baptist), added to the interest of the meeting by brief but very appropriate addresses. It is gratifying to learn from the Society's report that the Atwood Branch raises more money than many branches in places of double the population. This good showing is to be accounted for by the energetic and efficient staff of officers and a people disposed to aid every Christian object; and there is no object more worthy the support of our people than the Upper Canada Bible Society, unless it be the home ministry.

We are willing to wager a new silk hat against anybody's last year straw hat that Gorrie has more useless dogs to the square inch than any other town in Ontario—Vidette. BANK OF ENGLAND NOTES.—Every one may not know that the Bank of England notes are made from new white linen cuttings—never from anything that has been worn. So carefully is the paper prepared, that even the number of dips into the pulp made by each workman is registered on a dial by machinery, and the sheets are counted and booked to each person whose hands they pass. They are made at Laversham, by a family named Portal, descending from a French Huguenot refugee, and have been made by the same family for more than 150 years. They are printed within the building, there being an elaborate arrangement for making them so that each note of the same denomination shall differ in some particular from the other.
